Fianna Fail conceded that it was losing support but claimed that was inevitable because of

its exceptional majority.

The question last night was how the parties would try to resolve a hung parliament. Mr Haughey has made it clear that he will have nothing to do with a coalition involving the independents. He might nevertheless try to reach a less formal arrangement. arrangement.

Another immediate question is whether a change to a coali-tion government would substan-tially after the approach to Northern Ireland established by Mr Haughey. It seems that Fine Gael would be more than happy to pursue the Anglo-Irish studies set up in January, but Dr FitzGerald would almost certainly insist on the need to

bring the Ulster Unionists into the arrangement. The state of the parties after the 1977 poll was: Fianna Fail 84 seats Fine Gael 43, Labour 17, Independent four. The new Dail has 16 extra seats because of boundary changes. The 41 multi-seat constituencies have five, four, or three MPs each. The 15 five-

three MPs each. The 15 five-seater constituencies are a new phenomenon and they may hold the key to who runs the 22nd Dail, which reassembles on June 30.

damaging."

Filibuster wrecks Bill The well Alfredo fell into to curb smoking

The 260-foot deep water well still had to be lined with metal An MP and the organization Michael Colvin, Conservative Action on Smoking and Health MP for Bristol, North-West, a piping and its mouth was covered by three tables. One of

Bur police believed it was possible one of the people who searched the area for Alfredo on Wednesday night might have pulled the tables back over the

Franca Rampi, the distraught mother of the trapped boy, after rescue hopes were set back.

# Trapped boy critically ill after slipping farther down shaft

By Our Foreign Staff

Alfredo went missing. "To think that I heaved a sigh of relief when I heard no response when I shouted down the well," he said. A policeman heard the boy's shouts from the well a few hours later.

The boy had been with his father talking to neighburs only 150 yards from his home

before he went missing. He told his father he was going home, but apparently strayed across the nearby fields.

The parents moved to the out-

skirts of Frascati, three years ago for the sake of Alfredo's health The boy had been suffer-ing from a heart condition for

Rescuers began digging a parallel shaft three yards away from the well on Thursday but they hit a bed of solid rock. A

packed volcanic tufa there was

a danger of the well caving in. After completing the parallel

shaft to just below the trapped boy, the workers planned to dig a tunnel sloping slightly

upward so that the boy could be pulled through it and up the

the past four years.

Frascati, Italy, June 12.—A hole as a precoution after new shaft with a minimal risk fix-year-old dooy with a heart to meaning nothing from the boy.

The boy's father, Signor Early on Friday morning two doctors monitoring Alfredo's accountant, said the well was condition after he had slipped the first place he went to when decreated accountant to when the sheft.

Alfredo's mark the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the first place he went to when the sheft of the sheft of the first place he went to when the sheft of the deeper down the shaft.

Two firemen succeeded in piercing the rock wall of the well at 114ft where they believed Alfredo Rampi was trapped only to find that he had slipped further down. One last ditch effort being considered was to lower a circus midget down the well shaft in an attempt to reach the boy.

A technician said that Alfredo appeared to be at least 196ft down but it could be more. Firemen said that the boy probably slipped because he fidgeted to relieve cramped limbs He is believed to have injured an arm and a leg in the fall.

was dug recently in the grounds of a villa under construction only a few hundred yards from his home.

that the tables were still in position when the boy was located in the well.

doctors monitoring Alfredo's condition said the boy was becoming weak. "His breathing is rough. He has stopped talking and he's just sobbing," Dr Evasio Pava said.

Ar 8.30 am on Friday morning, firemen said workers were rying to get through 6ft of solid rock. "If we get over this hurdle, we should be able to reach him in four hours," a technician said.

"My son is courageous and sensible, but he is not well, and I don't know how he is going to endure any longer," Signora Franca Rampi, screamed when Alfredo failed to respond to his fatheric coll

father's call He spoke in complete sen-

He spoke in complete sentences to rescue workers on Thursday night, but early on Friday he began crying softly, "Mama, Mama, Mama." Doctors asked Alfredo's parents not to continue speaking to their son after he cried our: "Enough, I can't stand it any more." The doctors immediately increased the flow of oxygen through a rube to the boy.

power drill was brought in but it took all of Thursday night to bore through. The rescuers had to go very slowly because although the rock is hard Dr Fava said that there appeared to be no immediate danger of the boy dehydrating although he was not certain if Alfredo drank sugar water given to him through a tube. live with himself after deliber-ately wrecking legislation to reduce this country's biggest avoidable cause of illness Britain's commercial television companies, once des-Mr Colvin said last night that cribed by the late Lord his action had been prompted Thomson of Fleet as a licence to print money, have entered a new period of austerity.

Bill, even though it stood little chance of becoming law.

Mr Pavitt said: "It is a case of the tobacco industry rules, OK. I deliberately chose today to bring my Bill forward as the zoo Bill is the kind that would normally be dealt with in one hour flat.

Mr Pavitt said: "It is a case on the Zoo Licensing Bill and to kill off Mr Pavitt's Bill. "The tobacco industry is part of the foundation of the wealth and prosperity of Bristol. Mr Pavitt's Bill would have been damaging." Several have started to cease transmissions before midnight to avoid heavy overtime costs, and others have postponed or cancelled programmes in the Sir Anthony Kershaw said it face of an unprecedented bleak financial outlook.

morning and was told that there were only a handful of amendments to the zoo Bill. When I in the previous Bills, one of got in this morning I discovered that there were 164 amendments down, many of them minor changes of wording. It is clear that the tobacco industry has been out in full force."

Mr. Powier said that there was unfair to say that those who had interested themselves who had interested a bills, one of which was the zoo Bill had been inspired by unworthy motives. "That is totally untrue. I have always been interested in animal welfare, and my concern was a legitimate and my concern was a legitimated that there was unfair to say that those was unfair t The companies blame soaring production costs and the price of setting up the new Channel Four operation for the pessimism within the industry. But the broadcasting unions have taken a more cynical view. They point to the fact that the present ITV wage Mr Pavitt said that 94 of the mate and proper parliamentary amendments were tabled by Mr exercise."

agreement runs out at the end

The Independent Television Congractors Association, which handles pay negotiations on behalf of the companies, has produced an internal memorasdum which claims that company costs rose by 39 per cent from May last year to April this, while income was up only 30 per cent. It claims that the setting up of Channel Four will cost the companies 190m, the formation of a new Welsh channel a further £20m, and another £15m will go in an increased levy to the Independent Broadcasting Authority.

And, in figures disputed by the broadcasting unions, it claims that the average parnings of television electricians have

risen from £8,724 a year 1979 to £14,995 this year; increase of 71.4 per cent. Although income from advertising has remained good, has been rapidly overtake it has been rapidly overtaken by costs, affecting both large and small operators. Thames, one of the big five network programme makers, has asked for cuts of 10 per cent in the budgets of all its departments and cancelled the making of some planned programmes, while Mr K. A. Rillip, manag-

ing director of Channel, the country's smallest station, said:
"The companies certainly are not crying wolf, they are in difficulties and unfortunately we are among them. One won-ders if there is going to be a

profit at all."

ITV fade-out, page 19

# Disruption by civil servants is intensified

By Donald Macintyre The Government took further retaliatory steps against the Civil Service unions yesterday as industrial action intensified. Walkouts by air traffic control staff halted departures from Heathrow sirport for five

Departing holidaymakers and other airline passengers faced long delays and British Airways cancelled 100 European and domestic flights in one of the worst days of disruption at the airport since action by air traffic control staff began six weeks ago.
At the same time Inland

Revenue management wrote to officers in charge of 130 tax collection offices demanding a report on work being done.

This was a preliminary to suspending staff responsible for not banking PAYE and national insurance cheques.

The move provoked

immediate walkout by mem-bers of the Inland Revenue Staff Federation at Cambridge, though first signs were that elsewhere tax collection staff were following informal union

In a separate development the Civil Service Department: wrote to the Council of Civil Service Unions formally with-drawing, as expected, from the Civil Service pay agreement, but also making it clear that early discussions were to begin but also making it clear that early discussions were to begin on measures to scale down the work and staffing of the Pay Research Unit.

The council yesterday reacted sharply to the news that the work of the unit, which has traditionally determined could be a staditionally determined of the staditionally determined that the work of the unit, which has traditionally determined the staditionally determined that the staditional traditional tradi

has traditionally determined Civil Service pay rates by comparisons with outside andustry, was to be curtailed. It said the move was "difficult to square" with the statement by Lord Soames, Lord President of the Council, that comparisons would play a part in the future deter-mination of Civil Service pay. Union leaders meet on Thurs-

Union leaders meet on Thursday to hear reports of the consultations within the nine Whitehall unions over whether civil servants should now be called out on strikes of a fortnight or more.

Union leaders are now acknowledging that financial pressures on them to end indefinite selective strikes, for which members are receiving pay, are increasing. The unions

which members are receiving pay, are increasing. The unions are now receiving in levy payment from members only about half the £500,000 a week which the dispute is costing them. Mr. Gerry. Gilman, general secretary of the Society of Civil and Public Servants, said on BBC radio yesterday that he believed that the end of the phase of selective strikes was growing nearer. But he added: "I am fairly confident that our members will face up to their responsibilities and that we will get a majority for an all-out strike."

As action by air traffic con-

As action by air traffic control staff at Heathrow, the West Drayton control centre and Manchester continued yester-day, Mr Roy Watts, chief executive of British Airways said that the Civil Service dispute had cost the airline at least £20

The Prime Minister yesterday rejected an appeal from Mr Len Murray, general secretary of the TUC, for the Government to put the Civil Service pay dispute to arbitration (Our Political Editor

writes).
Mr Murray, in a stern letter sent to Downing Street last

Wednesday, accused the Government of being "high-handed" and "cavalier" Mrs Margaret Thatcher in reply said she much regretted that the Civil Service unions vere continuolog disruptive action. But she insisted that the Government's proposals offered a reasonable basis for a settlement.

Commenting on her letter to.
him about the dispute, Mr
Murray said last night: "I am disappointed at the Prime Minister's response.

# Nalgo to ballot on Ambulance strike affiliation to Labour Party

the union's annual conference in Blackpool, marks a watershed in Nalgo's history and could have a wider significance for the trade union movement. It reflects what many observers of the labour movement see as a growing mood in white-collar unions that there is a need to take political action against the Government's economic poli-cies, particularly the public spending cuts.

other important white-collar unions not affiliated to the Labour Party include the National Union of Teachers. and the Civil and Public Services Association (CPSA). Senior officials of the CPSA, which has 220,000 members, believe that it could agree to affiliate next year as a reaction

to its experiences during the Civil Serice pay dispute. Earlier this week the Nalgo conference took several decisions with a strong political flavour, including support for unilateral nuclear disarmament and the adoption of a policy of out right opposition to the Government's spending cuts which could lead to members breaking

the law.
Left-wing activists in Nalgo
had mounted a strong campaign in recent months to persuade union branches to support a ballot of members on affiliation, but yesterday's decision

Council pays

By Pat Healy

Social Services Correspondent

council funds was paid out by social workers in Glasgow yesterday among people unable to get their benefits because of the deepening of the Civil Service dispute in Scotland.

Five social security offices closed yesterday because of pressure from people unable to get benefit from unemployment offices, and another 12 closed as civil servants walked out in sympathy with their colleagues.

The social workers' interven-

meeting Mr Godfrey Robson

private secretary to the Secretary of State for Scotland, to press for Government action to tackle hardship.

The delegation wanted the Government to use its own agencies, including banks, post

agencies, including banks, postoffices or even the Army Pay
Corps, to pay benefit to people
unable to use the normal offices
because of the dispute. There
was no sign last night that the
Government intended to follow
the delegation's advice.

But the decision of the Strath-

clyde Regional Council to use its own social work offices and

its own social work offices and 36 specially established emergency centres to pay money to people unable to get benefit was welcomed. Mrs Lynda Chalker, Under Security, said it was a positive initiative and promised that the region would be repaid for both money and the administrative and promised that the region would be repaid for both money

paid out and its administrative

Strathclyde council said last

night that there had been a queue of about 1,000 people at

their social work office on the

Easterhouse council estate in Glasgow during the day. The £20,000 paid out was probably less than would have been given out if the benefit offices had been working normally.

About five of the emergency

centres were in operation in the region yesterday; others will be opened as local social security and unemployment benefit

offices close. They are author-

ized to issue payment slips to claimants, who have to take them to finance department offices for encashment.

Social workers are normally

social workers are normally reluctant to pay out money because it is not their responsibility. But Strathclyde council said yesterday that it was aware of people going hungry in the region and had stepped in because the Government had failed to act.

As Civil Service union lead-

As Civil Service union lead-ers continued yesterday to seek from their members a mandate for all-out strike action they received a fresh warning that the Government would not improve on its 7 per cent pay offer (Tim Jones writes from Llandindrod Wells).

The warning was delivered by Mr Nigel Lawson, Financial Secretary to the Treasury, when he addressed Welsh Conserva-

tives at their annual confer-

He said the one big cause of

unemployment had been the 52ccess of union leaders in

pushing wage costs above the

level that companies could

afford to pay.

That more than anything, he said, had led to the appallingly unfavourable and steadily wersening trade-off between the level of prices and the level of the level of prices and the level of the l

level of prices and the level of output within the overall

national cash limit. There were welcome signs that in private industry the vital lesson was being re-learned.

The London Ambulance Service yesterday appealed to doctors and members of the public.

tors and members of the public.

not to make unnecessary 999
calls on Monday when the unofficial walkout in London will
put the Government's long-prepared contingency plans to their
biggest test so far.

The service is hoping that the
police, together with volunteer
drivers from the Red Cross and
St John Ambulance Brigade,
will be able to provide sufficient cover with more than a
hundred vehicles which have
been prepared for the purpose.

Up to fifty Royal Army Medical Corps, infantry and other
military ambulances, which
were at Combermere Barracks,
Windsor, last night, will be
brought in if ministers judge
that the strike is posing an unacceptable risk to life.

Mr John Moss, chief operations officer of the London
Ambulance Service, yesterday
annealed to the public te stil

Ambulance Serwice, yesterday appealed to the public to call ambulances only in cases of real emergency. He added: "If people respond to our appeal we are confident that an acceptable level of emergency services." we are continent that an acceptable level of emergency service in London can be provided.

After a similar appeal during the 1979 public service disputes, when London ambulancemen staged an unannounced 36-hour strike, the number of emergencies handled by the service fell from its normal figure of about 1,200 a day to less than 600.

Mr Moss, asked if he feared that patients would die because of Monday's stopping in January 1,200 and 1,200 and

of Monday's stoppage in Lon-don, said: "I certainly would not say that there would be

not say that there would be patients put at unacceptable risk by the resources available."

But if it was felt "that the availability of resources would be such that there would be an uncontrollable situation" the ambulance service would not hesitate to tell the Department of Health and Social Security so that ministers could decide whether to bring in troops.

Mr Patrick Jenkin, Secretary of State for Social Services, said in a statement yesterday that he hoped it would not be necessary to bring in troops but added: "We shall not hesitate to back up the voluntary and police emergency services and police emergency services if this is necessary to maintain

minimum emergency cover. Appealing to ambulancemen to call off industrial action, he said that acceptance of the pay offer would mean that quali-fied ambulancemen, receiving a basic rate of £76.60 for a 40 hour week, would see average earnings rise to about £142 a week and £166 a week in Lon-

He added: "By no stretch of the imagination are we talking about the low paid and the hard fact of life is that the country cannot afford to pay

more Mr Ronald Keating, assistant general secretary of the National Union of Public Employees, said last night that such figures included high levels of overtime. He added "Low pay is not the only criterion of wage increases, as

Three of the group described by Mr Justice Hutton as ruth-less and highly dangerous men-were recommended to serve a minimum of 30 years imprisonment for their part in the ambush and murder of Captain Herbert Westmacott, an under-cover agent with the Special Air Service Regiment.

They were Angelo Fusco, Robert Campbell and Joseph The fourth, Paul Magee, described as a very dangerous man, was recommended to serve a

minimum of 25 years of his life

minimum of 25 years of his life sentence.

Another of the fugitives, Anthony Sloan, was described by the judge as the ringleader of the gang who used an M60 machine gun in three attacks on security forces during 1980. He was sentenced to 25 years imprisonment for possessing the machine gun and falsely imprisoning Mr James Kennedy, a taxi driver and the Crown's chief witness.

chief witness. Two other men who escaped in the jail break, Michael McKee and Gerrard Sloan, received prison sentences of 20 years and 18 years respectively

Fusco were convicted of being members of the IRA, Mr John O'Neill, aged 29, of Lurgan, who was in court, was cleared of three charges of failing to give information about the hijacking of his van, which was used during the shooting of Captain Westmacott.

Another man in court, Mr John King, aged 43, of Sheriff Street, Belfast, was cleared of falsely imprisoning Mr Kennedy.

When sentences on the seven escaped men were passed the only member of the group in court was Emmanuel Fusco, aged 23. He was sentenced to 10 years' imprisonment after admitting the manslaughter of Police constable Stephen Magill concurrently, for burglary at a

Mr John Creaney, for the prosecution, said that although seven of the accused had escaped, the trial could continue. "These men are absent of their own volution", he said.

own volution", he said.

Mr Justice Hutton outlined details of the ambush in which Captain Westmacott, aged 28, died in Antrim Road in May, 1980. He was part of army patrol, working out of uniform. He was shot dead by gunfire

After a priest was called, three of the men surrendered. Another was challenged as he escaped from the back door. During the surrender they put a white flag attached to a rifle out of a window before placing the M60 on a ledge. One gun-man patted it saying: "Take care of it."

The court was told that the machine gun had been used in two other attacks on security forces in February and April, 1980, and that the convictions were largely based on information given by Mr Kennedy, who was engaged to the sister of one of the convicted men.

He had worked for Downtown Taxis on Falls Road, Belfast, whose management and em-ployees, the judge said, had close links to varying degrees with the IRA.

Mr Justice Hutton said: "In giving evidence against the accused, Mr Kennedy was putting his own life and those of his parents at risk. As a result of giving evidence, he will have to leave Northern Ireland when he ceases to be under police protection.

"I do not think that a man would do this because he wanted to impress police, or be-

He added that while Mr Kennedy might have claimed to agree with the primary aim of the IRA that Northern Ireland the IRA that Normern iterand could achieve peace only as part of a united Ireland, he was satisfied that from April, 1980 and the killing of PC Magill, Mr Kennedy had become totally opposed to IRA violence.

The Belfast men convicted vesterday were Mr Anthony Sioan, aged 26, of Summerville Drive, Mr McKee, 25, of New Barnsley Crescent, Mr Magee, 32, of Glenalina Gardens; Mr Angelo Fusco, 24, and his broaden Fusco, 24, and his broaden fusco, 24, and his pro-Angelo Fusco, 24, and nis orother, Mr Emmanuel Fusco, 23,

# Benefit of whooping cough vaccine

By Our Medical Correspondent

The Department of Health's recent conclusion that the benefits of vaccination against whooping cough outweigh its risks has focused fresh attention on the effectiveness of the vaccine. In particular, some parents and doctors continue to question the value of vaccination for well nourished children with good natural resistance to infec

An answer to those doubts has now been provided by the Epidemic Observation Unit of the Royal College of General Practitioners. It enlisted the help of 68 family doctors looking after mostly middleclass families in the south-west Thames region during the 1978-79 outbreak of

whooping cough. They paid special attention to the diagnosis of the disease (using laboratory tests to confirm their clinical suspicions, and traced the spread of whooping cough within families.

In all, 658 children were diagnosed as having certainly had whooping cough, out of 1,808 in whom it had been suspected. Few were seriously ill, and only five needed admission to hospital. The illness was, however, prolonged in most cases with an average duration of 51 days.

Children who had been vaccinated were, on average, less ill than those who had not : their illness lasted nine fewer days and they had fewer coughing spasms at the height of the attack. Major complications such as bronchitis and pneumonia were more common in the unvac-cinated children; all five who nceded hospital admission bad not been vaccinated.

Vaccination was shown to give other children in the family some immunity against the disease. Among those who had been vaccinated, only two out of 10 developed whooping cough; in non-vaccinated families, seven children out of 10 caught the infection from their brothers or sisters.

The general practitioners' study confirms, then, that vaccination against whooping cough, unlike that against say, poliomyelitis or diptheria, gives only partial protection; but even in prepolicemen. They do not name viously healthy children, vaccination does seem to give

> lengthy disease which can be tiring and distressing for both children and their parents The vaccine reduces the risk of contracting the disease and also its severity in children who do become infected. Source: British Medical Journat, June 13, 1981, p1925.

### **Prior sets** out draft for success

By Philip Webster Political Staff

Mr James Prior, Secretary of State for Employment, empha-sizing his commitment to the Government's broad economic wednesday's special Cabinet meeting on the economy, yesterday set out his programme for building on the progress already

Acknowledging that the Government had reached an important period in its life Mr Prior, speaking at Brentwood, Essex, said: "The majority of the majority of t our manifesto commitments have been carried out. Our task is now to build on the base we have established and held to, despite all the difficulties."

He said that an important task for the Government was to

take advantage of improvements in productivity which were the most encouraging feature to emerge from the recession.

"We have to ensure that our industries can make the most of their hard-won battles to become more efficient."

That meant moving away from the old-fashioned monolithic approach on state-run monopo-lies and installing in the public sector the artifudes to performance which were prevalent in private business.
It was vital, he said, to en-

courage new technologies, with fresh imperus put on informanon technology.

Referring to his own sphere
of responsibility Mr Prior said

education and training policies to cope with the need for new-skills were being provided. With the period of consultations on his Green Paper on trade union immunities ending this month, Mr Prior held to his convictions that his step-by

step approach to reforming in dustrial relations avoiding a confrontationist stance, offered the best chance of success.

"Nearly a year after the Employment Act, public opinion is still firmly behind what we are seeking to do. Our changes

in the law are bedding down well without causing upheavals in industrial relations. This shows the wisdom of actwe have seen with the police ing with caution and understanding." Conservative MPs are urging

Mr Prior to introduce a Bill in the next parliamentary session to curb the closed shop further.

Mr Philip Short and his wife, Gill: " We are delighted ".

#### APPEAL BY RIPPER **UNDER WAY**

The Bradford solicitor acting for Peter Sutcliffe, the Yorkshire Ripper, confirmed last night that Succliffe is to appeal against conviction and sentence for the murder of 13 women.

Mr Kerry Magill said he had sent off the appropriate papers to the Court of Appeal serting out the grounds of appeal. That came after advice from counsel who acted for Sutcliffe at his trial at the Central Criminal Court last month.

Mr Magill declined to dis close the grounds of appeal. Sutcliffe was sentenced to life imprisonment after being found guilty by a jury of the murder of the women. He had admitted manslaughter on the grounds of diginished responsi-

#### NEW RANGE BY BMW

BMW, the German car manu-facturer, has announced details of its new 5 series saloon range which will go on sale in Britain next October. Four versions will be available, with engine sizes from 1.8 to 2.8 litres (Our Motoring Corres-pondent writes). The cars are claimed to be

the first that will not need servicing at regular intervals. A
"service interval indicator"
will show when a service is
needed and that will depend on
how the car has been driven. Continual stop-start city driving over short distances will, for instance, mean more fre-quent oil changes than long distance cruising

The cars have a new bodyshell, designed to reduce wind resistance, and are said to give better fuel consumption than the current model despite hav-ing more powerful engines. The top versions, the 525i and the 528i, can be fitted with BMW's anti brakelock system. The present 5 series range, introduced in 1973, is still selling strongly.

# Bill seeks to rule out criminal candidates

By Our Political Editor

Returning officers at parlia-mentary elections are to be given power under the Representation of the People Bill, published yesterday, to reject the nomination of a candidate who is serving a sentence of more than a year for a criminal

The timetable for elections will be slightly changed to give the officer time to make in-

quiries.
The short Bill, which applies to the whole United Kingdom, has been introduced by the Government with the sole purpose of preventing a repetition of the Fermanagh and South Tyrone by-election, last April, in which Robert Sands, the pro-

visional IRA hunger striker, was elected to the Commons. It disqualifies a criminal not merely from being elected and serving as a member, as the law provided before it was changed by an oversight in 1967, but also from being nominated and so being able to fight a campaign Ministers decided that the risk to security from another campaign like that fought on

Mr Sands's behalf was too great to permit.

The Bill will be debated on Monday week. The Labour Front Bench will oppose k, but since Labour MPs are divided, how believe the state of the state o they are likely to allow a free

The theatre building is Waterloo Road, London, is not involved in the winding up of the company as it is owned by a truck last board that produce. a trust. It is hoped that produc-tions will be staged there again

The creditors' meeting, held at the theatre, was told by Mr David Russell, chairman of the directors: "It is a very sadday because a lot of people have put a tremendous amount of talent, energy, imagination, and hope towards what we felt was a very imaginative project.
"It is a sorry day to be standing here facing creditors in a situation which we hoped would never arise", he said.

From David Felton, Labour Reporter, Blackpool

In a further demonstration of trade union distaste at the Government's policies the traditionally non-political National and Local Government Officers Association (Nalgo) yesterday took the first step towards affiliating to the Labour Party. The union, with 800,000 members, is Britain's fourth largest. It is the only first division union not affiliated to the party. A ballot of members which was opposed by the union leadership still came as a surprise to many delegates. Nalgo was formed in 1903, but it did not join the TUC until 60 years later. It could provide much-needed funds for the Labour Party if the ballot approves affiliation.

The ballot, which will also decide whether Nalgo should establish a political fund, will be preceded by a six-month the party. A ballot of members be preceded by a six-month will be held, probably next spring, on affiliation.

Yesterday's decision by a majority of about two to one at affiliation.

There will be a closely fought campaign between the union's two political wings to influence members in the ballot. Many Nalgo members support the Conservative Party, and union officials said last night that much will depend on whether the executive decides to make a recommendation in the ballot.

A meeting of the executive in March voted 29 to 20 with one abstention to oppose a bailot, but 19 members were absent. Mr Michael Blick speaking for the executive, told the conference yesterday that the leadership believed it was inconceivable that Nalgo mem-bers would vote for affiliation to the Labour Party and that a ballot would cause a divisiveness when we should be united.

But Mr Ronald Stevenson, a

Strathclyde delegate, said many members were seriously ques-tioning the validity of party political neutrality, because of the attacks on members' liveli-hoods by government policies. Mr Maurice Brindley, of eicester, who said he was a lifelong Labour supporter, pre-dicted that affiliation to the party would lead to resigna-tions by more than a third of

# **Attorney General** refuses to shift over court tapes

By Marcel Berlins, Legal Correspondent

The Attorney General, Sir tape recordings of court pro-ceedings despite indications during the committee stage of the Contempt of Court Bill that he would change his mind. Charles and the second At the report stage of the Bill in the Commons next Tues-day, he will announce that he has decided not to amend the clause which bans tape recording, even by the press, solicitors, or the parties to the case, unless the judge specifically

During the committee stage, in the face of reservations by fellow Conservatives, he had undertaken to reconsider the clause and because of that an Opposition amendment to allow Opposition amendment to anow tape recording of court proceedings without a judge's specific consent was withdrawn.

Mr Michael Brotherton, Conservative MP for Louth, said in committee: "Some of us on the Conservative benches will the Conservative benches will find it difficult not to support this amendment, or at least to abstain." He asked the Autorney

General to think again. General to think again.

Mr Keith Best, Conservative
MP for Anglesey, pointed out
that tape recorders were used
clsewhere and asked: "Why
should they not be used, more
or less as a right, so long as
the publication and broadcasting of them is inhibited?"

Reading the report on the

Reading the report on the committee stage on the Bill, it is clear that there was a general feeling that there was no objection to using tape recorders purely for recording purposes, although not for broadcast.

The Attorney General's deci-Michael Havers QC, is standing sion to keep the clause un-firm against the general use of amended is therefore bound to be seen by the Opposition as a broken promise.

Although he had made it clear that he was not in favour of a wide-ranging right to record court proceedings, it was thought by Opposition members of the committee that he would propose a draft that would allow the press and solicitors to use tapes.

An amendment has now been put down for the report stage that would allow recordings to be made, though not of pro-ceedings in camera or in chambers (except by the solicitors in the case) provided the tapes were not broadcast or published.

Sir Michael's intention is to meet criticism of the clause by undertaking to issue a circular to judges exhorting them to grant permission to use tape recorders liberally.

Miss Harriet Harman, legal officer of the National Council for Civil Liberties, said yester-day; "The Attorney General has reneged on an undertaking. Members of the committee clearly expected the clause to be changed, she said.

Better news for opponents of the Contempt of Court Bill is that the Attorney General has not been able to draw up a com-prehensive list of those in-terior courts and tribunals in respect of which the laws of contempt would apply. After his promise to the committee the clause dealing with inferior courts will be scrapped.

# Healey looks back

# Treasury rifts get a public airing

Deep divisions among Treatry of Defence with both the ury civil servants about the Treasury and the Foreign and the British economy should Commonwealth Office. sury civil servants about the way the British economy should be managed will be dissected publicly in a radio broadcast tomorrow night by their former and fondly remembered minis-terial chief, Mr Denis Healey, deputy leader of the Labour Party, who was Chancellor of the Exchequer from 1974 to

Speaking on No Minister, to be transmitted on BBC Radio 4 at 7 pm tomorrow, Mr Healey declares during a discussion on the nature of Civil Service power: "I would say of all departments, the one which has the least coherent view of its role is the Treasury.

"It may have been true in the 10 years after the war that all Treasury officials knew exactly how the country should be run, but, in my experience, none of them know now.

"They are deeply divided on many of the central issues. You will find monetarist officials, people who are neo-Keynesians, people who are pragmatists of one sort or another. I will say
the only constant thing in the
Treasury is a desire to see that
the figures add up, and that is
not always a first priority for

the ministers."
Interviewed by Mr Hugo
Young, deputy editor of The
Sunday Times, in the first of
six programmes on the Civil Service, Mr Healey says White-hall is not monolithic, depart-ments disagree and some fight through the ages like the Minis-

"I think that a minister who complains that his civil servants are too powerful is either a
weak minister or an incompetent one", Mr Healey adds.
His remarks about the
Treasury will bring scant comfort to its officials who, judged by historical standards, have has a rough time with the pres-ent team of Conservative min-isters in the sense that much of their advice has been disregarded.

Five permanent secretaries interviewed by Mr Young all reject the view advanced in the programme by Mr Wedgwood Benn, former Secretary of State for Energy, that: "The deal the Civil Service offers a minister is this; if you do what we want you to do, we will help you publicly to pretend that you are implementing the manifesto on which you were elected."

Sir Donald Maitland, Permanent Secretary to the Department of Energy, comments: "I think it is a rather clever pro-position, and I suppose there may be a grain of truth in it. But I am not sure that any serious civil servant would

serious civil servant would actually approach his work in that frame of mind."

However, Sir Patrick Nairne, who retires next month as Permanent Secretary to the Department of Health and Social Security, concedes: "It is often said that power does lie in having the information.

Mr Roy Jenkins face to face with a high scaffoldings. And he did receive Mr Jenkins, who said he was getting to resident of Warrington yesterday as he began his by-election campaign there. His reception during an hour's tour normally supports Labour, said: "I was not uniformly friendly. Mrs Elsie Richardson, a bus driver's wife, told him: "You should get back to Labour. You can't have it all ways." But the Social Democrats' front runner remained unruffled, waving politely at building workers who jeered from 40ft normally supports Labour, said: "I will vote for him because it's time we had something done for this town. He won't win but it will give Labour and the Conservatives a scare at the next election." A motorist pulled up and offered an outstretched hand to Mrs Jenkins, shouting: "All the best, Roy."

know the town better and was not on "an electioneering, flesh-pressing visit", will be back next week to hold political surgeries. Later he said he expected Mr David Steel, the Liberal leader, to speak in Warrington in his support during the by-election campaign. The Liberals have agreed not to stand in Warrington and they have said

# SDP claims union members' support

The Social Democratic Party is increasingly winning the support of individual trade unionists, who know that the Labour Party is irrelevant, Mr William Rodgers, one of the leaders of the SDP, said last

night.

Mr Rodgers, speaking in Leicester, said that union leaders should take a good hard look at themselves. They were guilty men, many were out of touch with their members, and few were properly elected by those they claimed to represent.

to represent.

"They wring their hands at the decline and fall of the Lab-

our Party but they must take the blame. Their spineless leadership in industrial mat-ters led to the chaos of the win-ter of discontent that destroyed Mr Callaghan's government. Their arrogant show of political muscle has resulted in an electoral college which hase encouraged the antics of Tony Beon."

Mr Rodgers said that in 1979 almost half the trade unionists had declined to vote Labour. In Shoreham-by-Sea, West Sussex, last night, Mr Eric Heffer, a member of Labour's national executive committee, said that the political forces of

the SDP would sufficiently confuse the electorate to keep Labour out of office at the next

He said that the SDP's ideas added up to a mild version of conservatism, with the added ingredient of the demand for proportional representation. The SDP, Mr Heffer said, was

a media creation. "It has no real roots among the people but for a period it will be a nuisance to Labour, until it is thoroughly seen through for what it is, a party designed to halt Labour's progress towards said that the political forces of a just democratic socialist the establishment were hoping society."

# Poussin export licence curb angers duke

By Frances Gibb

For a painting by Nîcolas which bought the work "Holy Poussin which was sold in April by the Duke of Devonshire at Christie's for £1,815,000 (including buyer's premium).

The decision, based on the Simon Foundation. manimous recommendation of

the Reviewing Committee on the Export of Works of Art, is to give British museums a chance to match the purchase price. If any succeeds by September 12 the painting will stay in Britain.

The dealers have still not paid the duke for the work which he sold to endow a charitable foundation to run Chatsworth, his family home. Wildenstein's maintain the deal was subject to an export licence being granted.

The Chatsworth House Trust says that was a clear agreement involving a payment of committee, and through them the Government, have behaved halance in 90 days. It is esti-

committee, and through them the Government, have behaved absolutely appallingly. This picture was offered to the National Gallery and every major provincial gallery in the country and they all said 'no'."

The delay would mean that a total of five months had stop, the committee was aware elapsed since the sale. "And who pays the interest all this time? This money is not collections prior to being sent needed to pay for racehorses or gambling debts; it is to create a trust to keep Chatsworth going for the nation", he said.

Three days ago, the duke "550,000 in 28 days and of the balance in 90 days. It is estimated the duke is losing more than £4,000 investment income a week.

The Office of Arts and Libraries explained yesterday: "In considering the length of stop, the committee was aware that the painting had already been offered to various public time? This money is not collections prior to being sent offered appeared to be substantially higher than that at which it was subsequently sold."

Mr Paul Channon, Minister issued a High Court swritt for the Arts, has withheld for against Wildenstein's, the inter-three months the export licence national firm of art dealers,

The dealers have still not

# MPs ask Whitelaw to let Pakistani woman stay

By a Staff Reporter

Six MPs, five of them mem-bers of the Shadow Cabinet, have called on Mr William Whitelaw, the Home Secretary, to withdraw his appeal against a tribunal decision to allow a Pakistani-born woman to stay in Britain.

The Home Office is protesting The Home Office is protesting against the ruling of an immigration appeals tribunal last July in favour of Mrs Nasira Begum, who has been living in Manchester for the past five years. It claims that her marriage, which has broken down, was one of convenience.

The Labour MPs, Mr Gerald Kaufman, MP for Manchester Ardwick, Mr Roy Hattersley, MP for Barmingham Spark-

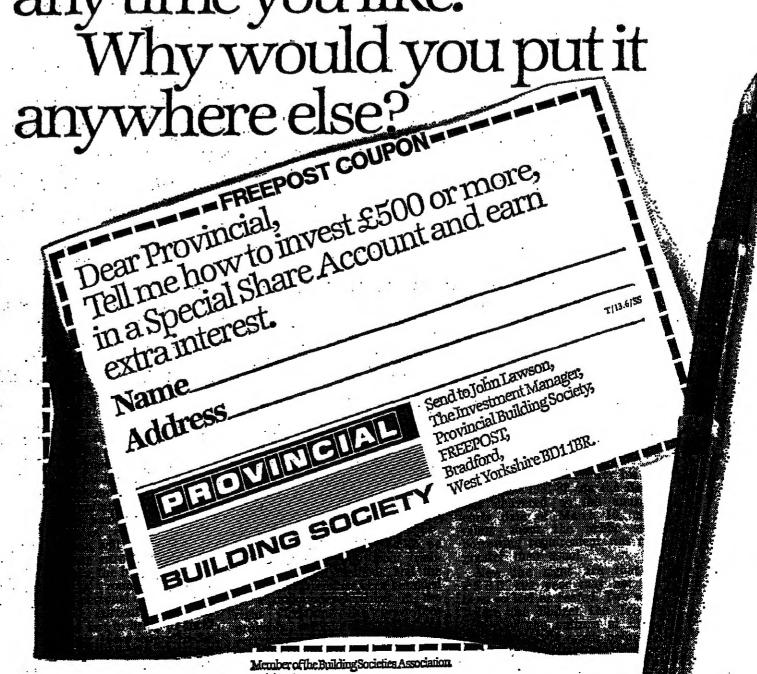

brook, Mr Merlyn Rees, MP for Leeds, South, Mr Eric Var-ley, MP for Chesterfield, Mr Neil Kinnock, MP for Bedwellty and Mr Andrew Bennett, MP for Stockport, North, say that Mr Whitelaw has time to adopt another course of action.

Mr Kauiman, who is Mrs Begum's MP, has already asked the Home Secretary to drop the appeal for humanitarian reasons. His request was rejected because the Home Secretary to drop the appeal for humanitarian reasons. jected because, the Home Office said, it was important to clarify the points of law which

But the MPs maintain it is open to the Home Secretary to appeal on points of law

agency reported a speech in Tripoli in which Colonel Gadaffi claimed that the raid against Iraq had made it legiti-

mate for the Arabs to destroy

Dimona. " The Israelis were the

first to set this precedent and the destruction of the Israeli nuclear reactor has become legitimate," the Libyan leader

ously," the spokesman said.

offer, it made, is not known.

Saudi Arabia is believed to aware of the dangers which pay for the rebuilding of the Iraqi nuclear reactor in the Libya suspects that it might be the next target of an Israeli attack and is well aware that its hope of moderating continued Arab anger at last Sunday's aircraft could make a tempting target. It is always possible that the Arab League is choosing its words carefully in order to

However, judging by last night's Arab League conference in Baghdad, restraint is scarcely called for. The League issued a list of 11 resolutions, each characterized by its relative mildness, the barshest of which called for no more than an end to American arms supplies to

The conference was unanimous in its condemnation of the United States as well as Israel and in their demand for Arab unity. But the League seemed prepared to work within the framework of the United Nations in its desire to impose sanctions against Israel.

Saudi Arabia's ofter to com-pensate Iraq for the destruction of the reactor was also reported today by the pro-Libyan news-paper As Safir in Beirut. The paper suggested that it was Saudi Arabia's attempt to make ammends for "allowing" Israeli aircraft to fly over its territory. No one, it seems, suggested at the meeting that Israel should be expelled from the United Nations, although several Arab nations, including Libya, had suggested this earlier in the week.

There was nothing very moderate, however, about the reactions of some individual Arab nations. As the League was meeting, Colonel Gaddafi, the Libyan leader, was telling a mass rally near Tripoli that the Arabs should destroy Israel's nuclear plants at Dimona. If such an operation was successful, it would scatter and Iraqi officials crowded into a Roman Catholic church in nuclear debris over a huge area.

The Saudis and other Gulf nations regard such statements by the Libyan leader as rhetorical nonsense, but they are fully project.-Reuter.

Reagan will not back anti-Israel sanctions

From David Cross Washington, June 12 The United States today ruled out categorically any move by the United Nations to impose

mandatory sanctions against Israel in retaliation for its attack on the Iraqi nuclear reactor.

A White House official, dis closing this to reporters said

President Reagan and his sen ior defence and foreign policy advisers had discussed a number of possible American responses to the debate on the raid which was taking place in the United Nations Security Council, Washington's response would depend on the course of the debate.

The official also said no

decision had yet been made on future deliveries of Americanbuilt military equipment to Israel pending an investigation into the circumstances surrounding last Sunday's attack.

In addition to deciding how to approach the United Nations debate, Mr Reagan and his advisers were also trying to prevent the consequence of the Israeli raid from destroying the Administration's Middle East peace efforts.

During separate meetings with Israeli and moderate Arab ambassadors in Washington last night. Mr Reagan said that the attack had underlined the urgency of resolving the as finding a just and lasting peace settlement between Israel and its Arab neighbours.

During yesterday's ambassa-dorial encounters at the White House, Mr Reagan tried to keep on good terms with both the Arabs and the Israelis. He told the arab representatives that he had been shocked and disappointed by the Israeli attack. while reassuring Mr Ephraim Evron, the Israeli Ambassador in Washington, that there would be "no fundamental reevalua-tion" of the traditional close ties between Washington and

Tel Aviv. Mr Evron, who delivered a personal letter from Mr Menachem Begin, the Israeli Prime Minister, justifying the raid, urged Mr Reagan to re-consider his decision to suspend temporarily the delivery to Israel of four American-built

Mr Reagan was reported to have told Mr Evron and the ambassadors from Saudi Arabia, Jordan, Bahrain, Morocco and Sudan that instead of bombing the reactor, the Israelis should have used a more peaceful means of preventing Iraq from acquiring nuclear weapons capability.

metres, as he had originally claimed. After the meetings at the White House both the Israelis The disclosure about the and the Araba expressed dis-satisfaction at what they had been told. While welcoming the secret installation, which Israel maintains was deliberately de-signed to deceive inspectors suspension of the F16s as a usefrom the International Atomic Energy Commission, is one of the arguments the Israeli Govful first step, the Arab envoys said that they were still hoping for further retaliatory moves by Washington. Mr Evron was istration that American Air-craft were used in "legitimate self-defence."

Yesterday's call by Colonel upset that Mr Reagan had not promised to lift the suspension on the delivery of the aircraft

immediately.
While Washington continues its efforts to steer a delicate central course between Israel and the moderate Arabs. Mr Philip Habib, Mr Reagan's Middle East peace envoy, re-mains in Beirut hoping that he will be able to pursue his diplo-

matic shuttle.

Mr Habib's peace mission began more than a month ago but he has been marking time for the past couple of weeks □European worry: With Arab

anger and resentment over the Israeli attack now concentrated on demands forf United Nations sanctions, Western Europe faces a difficult choice next week (Our Diplomatic Correspondent writes).

Either the Eupropeans support the Arab call for action against Israel in the Security Council debate, expected to start on Monday, and probably create a split with the United States, or Britain and France, with th ebacking of their European partners, use their veto, and risk being denounced by the Soviet block and most of the Third World.

# Baseball strike bowls over US

From Michael Leapman, New York, June 12

summer is the sensuous thwack city centres.
of willow against leather, its Most of t American equivalent is the raucous cry of "Beer! Hot dogs! Pretzels!" in the stands of baseball fields across the country.

Alas, no more, or not for a Professional baseball players in main leagues went on strike this morning over a contract dispute. Even if talks today succeed in resolving the issue, most of tonight's games will have to be cancelled.

The damage to the social fabric of the United States can scarcely be exaggerated. Baseball is the national summer game in a far more integral sense than cricket is in Eng-

From April to October & dominates not just the stadiums of big cities but television screens everywhere. Night after night, and on warm weekend afternoons, the New York Yankees, the Houston Astros, the Boston Red Sox, the Los Angeles Dodgers and the rest perform their balletic and muscular rituals dressed in weird, turn-of-the-century uniforms.

While cricket keeps some-thing of its upper-class origins, baseball would be the sport of the working class if Americans would admit to having one. The crowds—shirt-sleeved, plump and vociferous—come from cramped semi-detached houses in suburbs near the grounds, Most of the players have similar origins, Many of the best hitters (batsmen) are black and some of the leading pit-chers (bowlers) come from

The atmosphere is cheerful, for the most part lacking the violence of football crowds in Britain. Players and managers will berate umpires when a close call goes against them, but much of that is staged and there is little real rancour. If the current suspension were to last only a week, everyone would be greatly relieved. The only other players strike during a season was in 1972, when the first 13 days were lost. A mid-season strike, coming when teams are already embarked on beart-stopping struggles for division leader-

The essential issue in the strike is whether the best players will continue to enjoy the huge salaries they have been able to earn since their contract terms were altered in 1976. Before then, players had been forced to stay with the club that had originally signed them until the club wanted to

ship, is much more frustrat-

Now, after serving six years, players can opt to become free agents, offering themselves to the highest bidder. Some of the bids have been high indeed.

If the sound of an English or from tenements near the Dave Winfield, a giant of a man with an uncapny eye, was signed by the New York Yankees this season on a 10-year contract which will net him \$23m (about \$11.5m). Although he is the most spec-tacular example, several other players are paid almost as

The players say the club owners are mainly responsible for the spiralling salaries. To get the best players they have created the situation from which they are now trying to extricate themselves. It says much for baseball's popularity that gate receipts can support

such exceptional payments.

The owners want to introduce a rule that when a team hires a free agent, it must com-pensage the team for which he last played by offering one of their players-not necessarily one of their stars, but one from the rank just below them. The players say this will discourage clubs from seeking the services of free agents and cancel the gain they won in the 1976 agreeto lower their demands. Most of the players are rich enough not to worry about the loss of salary if the strike lasts for

only a week or two.

The fans are the ones who will suffer most. For millions, the forecast bot, sultry weekend will lose its shape and its meaning. Until the strike is over there will be nothing to talk about, nothing worthwhile to do.

Brezhnev

# French Socialists in sight of majority

The official campaign for the first round of the French par-liamentary elections ends to-night with the left in general and the Socialists in particular calmic rounding rounding of the presidential elec-tions.

In Sunday's round any cancalmly confident of success in Sunday's vote.

There are 2,760 candidates for the 491 seats, compared with 4,266 candidates two years ago. The big decrease is largely because the parties opposed to the left have agreed to bury their differences in order to withstand the Socialist chal-

In consequence there is a single UNM (Union for the New only 88 seats.
On the left, however, there

will be primaries in almost every seat, and the indications are that the Socialists could capture at least half of the Communist Party's 86 seats. Support for President Mitterrand was higher in 44 of these seats than it was for M Georges Marchais, the Communist leader, during the presidential Since the victory of President

Mitterrand there has been a noticeable swing of public opinion behind the Socialist Party Soundings made this week suggest they could win what is in French terms the huge proportion of 37 per cent of the vote and so win an abso-lute majority in the National Assembly with anything up to 300 of the seats. Communist Party support is expected to settle at around the 15 per cent won by M Marchais in the presidential campaign.

On the other side the RPR would seem to be doing the would seem to be doing the better and are expecting to win support from around 23 per cent, leaving the UDF with just 18 per cent. This rapid eclipse of the UDF was inevitable with the defeat of M Giscard d'Estaing, but M Jacques Chirac, who has fought a particularly energetic campaign, must doubt his chances of taking over as leader of the new opposition if his RPR movement opposition if his RPR movement

do not do better. In all the left will have to win 40 seats in order to form a majority in the National Assembly. Without this majority President Mitterrand would be mable to enact his programme, which is why he dissolved the house on taking office, and why the two rounds of these legis-

In Sunday's round any candidate who obtains more than 50 per cent of the votes cast—provided they exceed a quarter

of all the registered voters—is elected. This happened in only 65 cases during the last legisla-tive elections in 1978. If no one is an cutright win-

ner in the first round then all candidates supported by more than 12.5 per cent of the total number of registered voters are eligible theoretically for the second round a week later. Majority) candidate in 385
seats supported officially by

the Prime Pierre Mauroy, Minister, brought together the employers' and trades unions' representatives at his office to get negotiations going and to emphasize the Government's desire that this time they must succeed.

on both sides to show more flexibility. M. Mauroy, who was assisted by a number of ministers con-cerned with social affairs, called on employers and unions to start negotiations in the next few days. He gave them four months to produce their conclusions, and made it clear that if they had reached none

cannot but draw corresponding conclusions for itself."

He predicted that Nato would He also put a high priority on the fifth working shift in those factories which operate on a 24-hoor basis. He added achieve nothing by deploying new missiles in Europe except new spiral in the arms race. The Soviet Union stood for immediate, constructive talks. I that the Government would

Employers and unions have been discussing the matter on and off for the better part of three years without any results. in spite of repeated attempts, both official and unofficial, by M Barre's Government to get talks going again when they broke down and to pur pressure

by then, the Government would not hesitate to decide the matter by legislation. The Prime Minister gave them as an objective the introduction of a 35-hour week by 1985.

High on the list of President also try to see that what was Mitterrand's election promises and of the new Government's respects was also adopted by

the French Employers Organiza-Within a fortnight of the tion, remains on the surface as lovernment taking office, M far removed from the unions' as it was last July when labour representatives at the negotiations finally rejected its pro-posals. The CNPF is prepared to bargain on a reduction of working hours, provided it involves a corresponding reduction in pay-and therefore costs -against a more rational utilization of plant and of working

What it is really aiming at is an adjustment of the social laws of 1936, instituting the 40-hour week and certain limitations on night and women's work. The unions have hitherto regarded these laws as sacred, and part of the social gains of the Popu-lar Front Government.

The Communist dominated CGT union insists on a cut in the working week to 38 hours immediately, without any loss of pay. The left-wing CFDT, which is close to the Socialist Party, wants a cut to 35 hours in three years. The moderate Force Ouvrière does not lay down any firm timetable. These two regard some pay adjust-ment as inevitable.

All the negotiating partners will meet on June 22 at the headquarters of the CNPF. If no agreement is reached by next October, both sides will submit a report and it will then be up to the Government.

# Crowds bay for Bani-Sadr blood

President Bani-Sadr of Iran.

claiming that his political op-ponents intended to topple him from power and kill him, tonight called for continued resistance by the Iranian people to tyranoy. In a statement issued from

in a statement issued from his Tehran office late in the evening, the President did not say whether he planned to resign or to continue his fight against Muslim fundamentalists. Reporters who went to his office to receive his statement had to walk through a cordon

of revolutionary guards carry ing machine guns. The guards had surrounded the complex and cut off surrounding roads for several hours.

When I asked an official in the complex whether it meant

the imminent arrest of the President, he replied: "They won't do that now-that will come in a week." According to other sources, the guards had converged on the office to prevent supporters of the President from taking it over in a show of force.

Although the President made no mention of his intentions, the tone of the message was so strong that it almost seemed to dare Avatollah Khomeini to dismiss him and have him

The final sentence of the statement seemed to sum up resign,

Major-General Valfollah, new Iranian commander. the President's message: "It

is up to you the people to the consworry about the future of the trial". Islamic revolution and your country—and resist," His political foes today con-

tinued their liteny of castigation. Leading tens of thousands of worshippers at the weekly Friday prayers ceremony in Tehran, Edjatoleslam Ali Khamenei gave a clear warning that Mr Bani-Sadr might be removed from office if he did not

He said Ayatollah Khomeini had stated many times that he could take back what he had given to authorities, "On one occasion he did. He can do that again in the future if he wants." On Wednesday the ayatollah dis-missed Mr Bani-Sadr as commander-in-chief of the armed Hdjatoleslam Khamenei ad-

ded: "If a person in the Islamic society of Iran breaks the law and discipline, spreads rumours, invites the people to resist... he will not only have committed treason to Islam, the Islamic Republic of Iran, but treason against all Muslims of the world."

Throughout the morning Tehran streets were full no crowds chanting slngans against crowds chanting singans against the President. At the praver gathering they cried the by non-monotonous "death to Rani-Sadr" and "the opponent of the constitution must the constitution must be put on

They also cheered when Mc Ali Akbar Parvaresh, an Isfuhan MP, told them : "I wish he (the President) had not been so egotistical and selfish . . . I wish he had realized that the people should become united for the sake of God and the implementation of God's orders, not that the people should be-come united for him."

# Atom group wants to expel Israel

Vienna, June 12.-The board of governors of the Inter-national Atomic Energy Agency recommended today that Israel be expelled from the organization because of its attack on an Iraci nuclear plant.

The board condemned Israel for the attack and urged mem-ber states to provide emergency aid to Iraq
The board's recommendation

must be approved by the September before Israel could actually be expelled, a spokesman said. It also recommended today that all technical aid to Israel from the agency be suspended. Only the United States and Canada, of the 34 members, opposed the move.

as spot The board, which called the said in Israeli attack premeditated and taken unjustified, said it was confition w dent that its safeguards system "Any was a relable means of checkthe being whether nuclear material States' was being diverted to military. beating him.

From David Bonavia, Peking, June 12 students asked him to go with them to a discotheque in the Cultural Palace, which was set up a couple of years ago, mainly for the entertainment of foreigners, though Chinese citizens have also been admitted from time to time. When they tried to buy tickets their friend was seized by staff and security Mr Ramsay said: "There

was a scuffle, with throwing of punches, and we were thrown to the ground. They started kicking us in our vital parts. We were dragged round the corner into a side room, where they continued to be they continued to be a side of the corner into a side room. where they continued to us. Then somebody in authority turned up. Two policemen in uniform arrived, followed by six officials. The person in charge said he was from the Security Bureau's foreign affairs section." An official of the Chinese Foreign Ministry said he had not heard of the case.

ا إحدن الأحل أ

Salt. It leaves a nasty taste in the mouth of most car manufacturers.

Because it's all too quick to point out weaknesses in body design. Flaws in paintwork. And skimping on underseal.

It leaves its mark in the form of little, bubbling, festering brown spots. That get bigger. And bigger.

At Volkswagen we don't see salt as a destroyer. But as a preserver. (We're nothing, if not positive.)

We begin our corrosion tests by taking a selection of body shells for a 24 hour cycle. The first 4 hours they spend under a continuous salt water spray.

Then we let them cool down and dry out for 4 hours before parking them in a nice, warm, damp room for 16 hours. Enough time for humidity to go to town on them.

Thon?

Then we do it again. For 7 days. For 4 weeks. For 3 months. (More salt than the average car will see in a lifetime.)

Next we give them the Custom Officer treatment.

Each shell is stripped down and torn apart in a fervent search for bad corrosion. (We even cut open the window supports and door strengtheners.)

Should we find an undue amount of rust, we go into reverse. Back to the drawing board.

If we don't, out comes a new car complete with a 6 year anti-corrosion warranty.

That's why every Volkswagen is worth its salt.

# US Namibia visit Mailed fist helps parties with Pretoria ties

From Eric Marsden, Windhoek, June 12 The American Government to take part in an election so long as Swapo was regarded by the United Nations as the sole representative of Namibia's people, and while Mr Martti Antissaari remained the United mission led by Mr William Clark, Deputy Secretary of State, spent most of today meeting representatives of Namibian internal political parties, thus Nations commissioner for the recognizing them as separate Mr Mudge called on the entities involved in the search

for a peaceful settlement. This, more than what was said at the talks, is regarded here as the main significance of the visit, because it reversed the stand taken by the United Nations that the internal par. include guarantees of demo-ties have no standing in the cracy and non-alignment. negotiations and are puppets of South Africa.

The Geneva conference in January collapsed because the Democratic Turnhalle Alliance (DTA), the ruling party in the Namibia National Assembly, was refused equal status with the South-West African People's Organization (Swapo) and was able to attend the conference only as part of the South African Government delegation.

In April the Rev Peter Kalangula, the DTA president, was invited to address the United Nations Security Council by America, Britain and France, but was denied a hearing by a majority vote of the

Today, Mr Kalangula led his party in the 80 minutes of talks with the mission. He said Mr Clark made no specific proposals and was not prepared to say what American policy was on Namibia, but Mr Kalangula said he got the impression that "they will work out some-thing".

Mr Dirk Mudge, the DTA chairman, told the visitors that a settlement could not be based on the present Security Council Resolution 435. A United Nations military force to super-vise the election was not

of Kremlin displayed to Russians

Pravda today published the full text of the toughly-worded letter sent to the Polish Com-

Americans to take dramatic action to revise the resolution. On minority guaranteees, believed to be one of the elements of the American initiative, he said an elected constituent assembly should be forced to

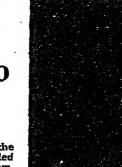

The DTA issued full texts of its statements and memoranda to the mission. This ended a two-day news silence since Mr Clark arrived in Cape Town accompanied by Dr Chester Crocker, the Assistant Secretary of State for African Affairs, and Mr Elliot Abrams, the Assistant Secretary of State for International Organizations

Several smaller parties told the American mission that they disagreed with the DTA and supported the continued in-volvement of the United Nations: in preparations for indepen-dence. They included, sur-prisingly, a five-man team representing the internal wing of Swapo, which has kent a low profile in recent months.

Mr Clark remained silent on his arrival in Windhoek saying only that his talks with the South African Government in Cape Town had been construc-

Mr R. F. Botha, the South African Foreign Minister, arrived later, having stayed behind for further consultations with Mr P. W. Botha, the Prime Minister.

He said last night that obstacles still remained, particularly over the role of United Nations forces which could mean an amendment to Resolution 435. But in Windvise the election was not hock he said there were no only at the highest level acceptable. He added that it impediments to progress in the intended mainly for the was unfair to expect the DTA discussions with the Americans. and for the Soviet Media.

From Michael Binyon . Moscow, June 12

munist Party. This unusual step seems to have been provoke by the widespread leaking of the letter's contents in Warsaw. Its publication here gave ordinary Russians first-hand evidence of the anger and concern within the Soviet leadership at what is happening in Poland, and left them in no hands the Marcare in running doubt that Moscow is running out of patience with the Polish

party and its leaders.
All: public communications with fellow members of the Warsaw Pact are couched in cliches about fraternal friendship and solidarity, but today Russians have a rare chance to glimpse the mailed fist behind the velvet mask.

The letter, similar to one sent to the Czechoslovak party four days before the Soviet invasion in 1968, was not intended for publication and the Russians appear to be very angry at hav-ing their hand forced by Mr Stanislaw Kania, the Polish party leader.

party leader.
There is evidence that
Moscow is far from pleased at
the outcome of the Polish
Central Committee meeting.
Almost nothing was said in the
press here about the discusions, which is unusual for an important meeting of a fraternal party. No mention has been made: publicly of the Polish leaders' determination to stick to their reformist course.

Moscow was probably hoping

that Mr Kania would be ousted by Polish hardliners. Today Tass said that in spite of the Polish Central Commitree's promise that people spreading subversive propaspreading subversive propa-ganda would be brought to account, Samizaat (Home-produced) leaflets with "dirty slanderous inventions" were

still being distributed. The report, like several from appear in the overseas service of Tass. Such statements, whose every word is now authorized only at the highest level, are intended mainly for the Poles

Mr Haig leaves Government House after visiting Sir Murray MacLehose (centre), Governor of Hongkong.

# Haig warns Moscow to leave Poland alone

Alexander Haig the United States Secretary of State, today. issued a new warning to Moscow against attempting any repression in Poland.

Mr Haig, who is here pre-paring for talks with Chinese leaders in Peking starting on Sunday, summoned reporters to attack what he repeatedly described as a very threatening letter from the Kremlin to leaders of the Polish Commun-

ist Party. He said the letter, warning the Warsaw leaders they must do more to curb the reformist drive, had raised the level of tension despite an apparent absence of new military prepa-

They wanted Assadullah Scrwari, former deputy Prime Minister, to have the premier-ship. But last year Mr Kurmal posted Mr Sarwari to Mongolia as Ambassador.

After their occupation of the country the Russians hoped that Parchamites and Khalqis would settle their differences. Considering the bitterness of the struggle between the two; that hope must by now have died. In the changes Mr Abdurrashid Aryan, a Khalqi deputy Prime Minister, has been drop-ped. Mr Karmal's brother, Mahmoud Baryaiai, has been appointed to the Central Com-

mittee secretariat. Mrs Auahita Rarebrad, for some time a close cotleague of President Karmal, has lost her position as Education Minister, but this is of no significance because she has important roles the Revolutionary Council and in the embryonic National Fatherland Front

# Parties give support to Spadolini

From John Earle Rome, June 12

Senator Giovanni Spadolini, leader of the small Republican Party, today got off to an encouraging start in his efforts to form a new Italian Government. It will be the forty-first since the war and the first unt to be headed by a Christian Democrat for 35 years.

After seeing leaders of the Christian Democrat, Socialist and Communist parties, he said he had received indications of support from the tirst two. He planned an emergency pro-gramme limited to certain essen-tial points for dealing with the grave moral and economic crisis gripping the country. Senator Spadoliui's consulta-

# Fishermen arrested by N Korea

From Jacqueline Reditt Scoul, June 12

Twenty-one South Korean fishermen have been captured and their 48-ton fishing vessel seized by North Korean coast-guards, according to a statement issued today by the South Korean National Fisheries Administration (NFA).

The NFA said the men were returning to the port of Inchon about 15 miles due west of Seoul yesterday and in a thick sea mist had strayed in the direction of North Korean waters. The NFA emphasized, however, that the fishermen were not actually in North Korean territory when they were arrested.

The NFA urged North Korea to return the fishermen immediately on humanitarian grounds. There have been numerous incidents involving South Korean fishermen seized by the North Korean Navy.

war in 1953, the South Koreans say, 3,531 of their fishermen have been captured and 468 are still being held in North Korea. Last month 19 Snuth Korean fishermen were released by the North after spending 254 days in captivity.

# UN admits paying for press publicity

From Bernard Nossiter of Tue New York Times New York, June 12 Despite repeated denials in United Nations now says the at least eight of its agencifor foreign newspapers to have published articles reflect

ing the organization's views economic aid. The agencies, according confidential documents, have given \$60,000 (£30,000) in can and services to the contro versial project, a fraction of the \$1.25m donated by M. Ryoichi Sasakawa, a Japanes businessman.
Mr Yasushi Akashi, United
Nations Under Secretary
General for Public Information

said he did not know of the contributions until he was asked about them. In pres asked about them. In pres briefings, published letters and interviews. Mr Akashi had claimed all the funds came from the Japanese donor.

United Nations official, according to one of the documents, had promised to git money to the project as long ago as 1978. The same document quotes Mr Kennen, Dadzie, a senior official here, as saying that the plan would Dadzie, a senior ornicial nere, as saying that the plan would create a direct link with new-papers, including editors, the would lead to stronger co-operation between the organization. tion and newspapers, which were so influential in guidat

public opinion.

Mr Dadzie, from Ghana ;

# Street-wise

# William Klein and the photographer's eye

#### by John Heilpern

William Klein's photographs, like Klein himself, never quite seemed to belong. Perhaps in his dreams he secretly wanted them to, feeling it unjust that his work hadn't been widely enough recognized. Yet his pictures, which began as a furious protest against the establishment, influenced a whole generation of photographers, and the assumed cockiness phers, and the assumed cockiness of the man would disguise what bitterness he felt, for he took some pleasure in remaining an outsider.

Among modern photographers, it could be that he is the joker in the pack. Without formal training, he set out to discover a way of he set out to discover a way of taking pictures — and invented a prototype. A nonconformist, a displaced person, he is a man of enormous talent and enormous defensiveness. At times he can remind you of the middle-aged hip photographer portrayed by Dennis Hopper in Francis Ford. Coppola's Apocalypse Now — a' 60s figure, egotistical, and maddening. At other times, he can appear so boyish and entitusiastic, particularly about photography, that he seems more like Luke Skywalker going "Gee whiz!" at what the world contains.

In many ways the reputation of

In many ways the reputation of Klein, an American living in Paris, is similar to that of the highly regarded Robert Frank, a European living in America. It's now largely forgotten that Frank's classic work, The Americans, was dismissed at first by most critica and intellectuals. most critics and intellectuals.
Klein's book New York, which
established his reputation in
Europe, has never been published

Klein returned to the United States from his adopted country, France, for eight months in 1954-55, publishing New York in 1956. Frank, a Swiss expatriate, travelled through America in 1955 and 1956, publishing The Americans in 1958. In different ways, both men rebelled against the consciously elegant and beautiful. Both took a tough look at America — though Frank was wry and could be distant, whereas Klein was violent distant, whereas Klein was violent and personal. Frank used mostly one camera, one lens, one technique; Klein experimented with flash, wide-angle, grab shots, abstraction, blur, close-up, accidents, deformations, harsh printing, special layouts, and inking. Frank was concerned with showing America as never before, Klein with ways of showing it as

never before. Both men were later to abandon photography for films, as if photography had become an outdated profession, like pearl

diving.
One of the ironies of Klein's career is that it was glossy Vogue magazine that helped to finance his so-called barbaric New York pictures (though Vogue didn't publish them), While Klein was photographing New York, he began a decade of work taking glamorous but innovative fashion pictures for Vogue. Only photographers, it seems, can move with ease between salon and slum and battlefield. Just as Klein's pic-tures rarely include a still life, his own life and variable career were often on the move — sometimes for the better, at other times to the point of self-destruction.

He has a knack of offending people, particularly those who might help him. He possesses a breezy combination of principle oreezy comonation of principle and opportunism. A maverick by nature, Klein puts up a show of taking the rough with the smooth, as if to take life and the tangled subject of photography too seriously would be to betray the street-wise image he likes to project. "Photography — it's no big deal", he likes to say in his flip way, while giving the impression of half hoping that he's wrong. It isn't that he is frivolous about photography. He prefers to demystify it, which is refreshing. His pictures were first criticized

as the rough work of an amateur street photographer — yet his deliberate antitechnique has in itself become adopted as a technique, and the pictures, far from being amateur, are rooted in Klein's early artistic training in France with Fernand Léger, the first painter to confront modern

urban reality.

"In the 1950s I couldn't find an American publisher for my New York pictures", he says. "Everyone I showed them to said, "Echl This isn't New York — too ugly, too seedy, too one-sided'. They said, "This isn't photography." Even today, when Manhattan is frequently romanticized on film, frequently romanticized on film, Klein's pictures strike some as too violent (although no one could claim that New York isn't violent). In fact, violence is to be found less in Klein's subjects, more in the way he photographed them. In his pictures there are reflections of himself — hybrids of the uncompromising and ex-

pedient, aggressiveness and fun, innocence and confusion within the smart guy. In the best of Klein's pictures,

the more you look, the more you find. When he's being overmanipulative and pushy, when the camouflaged insecurity of the

man comes to the surface, there's an imposed theatricality. But when he's improvising from the gut, working at the very edge of his intuition and knowledge, the outcome takes on the unique characteristics of "a Klein pic-

when I first visited Klein at his home in Paris, a terrorist bomb-had only a few days before destroyed a student restaurant on the ground froor. The building was still guarded by police. No one had been killed, but several people were left fighting for their lives. When I asked Klein about it, he said that his wife was among the first on the scene and she did what she could, holding the injured in her arms.

"She managed to stop some of the panic", he explained. "There was blood all over the place, but whe head over "?" she helped out."
"And you?", I asked.

"You want to know?", he replied, looking edgy. "I took pictures. My first instinct was to grab a camera.

In Klein's film Qui etes-vous, Polly Maggoo? an empty-headed model suddenly says to the cameraman filming her: "The end of the world could come tomorrow and all you'd do is film it."
"She wan't so down!" said "She wasn't so dumb", said Klein when I mentioned the scene

to him. Then what did he think was his responsibility to the people he photographed.

"I didn't know what else to do.

I had to do something. Frankly, I couldn't bear to hold someone's bloody head in my arms. I wouldn't have been much help. But the pictures did have some use. They were used to raise money for the victims. Maybe it was a sick thing to do, to take those pictures. But you know something? The wounded became obsessed by them, as if it were proof they lived to tell the tale. They kept asking me for the pictures."

What of his responsibility to other subjects — the New Yorkers he had photograhed with a

"In New York I took responsibility for the people I photographed. I felt I knew them—the people, the way they relate to each other, the streets, the buildings, the city. And I tried to make sense of it all. I just photographed what I saw, though it's true I used the camera as a weapon in New York. In Tokyo it was more of a mask, a disguise. I had only the vaguest clue to what was going on. I wasn't there to judge anything. I was an outsider and felt pretty uncomfortable sometimes. Have you ever eaten an official Japanese dinner for four hours on your knees? It was different in New York. In a way it's true I had a lot of old scores to settle. I was involved. According to the Henri Cartier-Bresson scriptures, you're not to intrude

or editorialize, but I don't see how that's possible or why it should be. I loved and hated new York. Why shut up about it?"
But he manipulated New Yorkers and others?

"Not always. We're not com-pletely brut, you know. I thought people could be provoked to pose people could be provoked to pose or play a role in some situations. Why not? People have posed for portraits for centuries. When I was a kid in New York, if some tough kid caught you looking at him he'd say, 'Hey! What are you looking at?' If you said, 'I'm looking at you,' he'd say, 'Oh, yeah!' If you said, 'I'm not looking at you,' he'd say, 'Why not?' Either way you were in trouble. In rough neighbourhoods in New York it doesn't do to show you see certain people. It's better you see certain people. It's better not to look. So if you point a camera at a stranger, you're almost breaking a tradition of not getting involved.

"Yet in a way, the camera erases involvement. It's accepted. In another way, it could be worse — a provocation and a threat. But

but he didn't look great, feeling one way but looking another.

The question is, then, how much meaning can there be in any image? Behind anyone's eyes might be one truth, but the surface image doesn't reveal it. Photographers like to say that the surface is the reality—but is it?

"So a picture can be completely

> didn't see in the mirror were staring in the background or remained indifferent. The image remained indifferent. The image in the mirror might not have told the whole story, but perhaps something was worth recording. But okay — say I take a picture of a man who looks ridiculous but is really a Nobel Prize winner. So what can I do? A camera isn't an X-ray machine. It can do lots of things, but it can do no more than things, but it can do no more than it can do. It can show what things look like, not necessarily what they are. Perhaps people are pretty close to what they look like. A photograph can at least add something to the dossier. Maybe the image is just sad, or a document, or a shape, or some

Maybe the image is just sad, or a document, or a shape, or something that triggers off many thoughts. But a photograph isn't a page from a novel. It's a photograph. It can be anything."

For Klein, much of what is wrong with criticism of photography is that it attempts to define what a photograph must be. How else, one wonders, can photography establish a scale of values? But for Klein, critics (as well as certain photographers, well as certain photographers, from Alfred Stieglitz to Cartier-Bresson) limit the possibilities of photography by trying to catego-rize and define it. For example, in La chambre claire, the last book Roland Barthes wrote before he died, the celebrated French critic died, the celebrated French critic and intellectual discussed a Klein picture. It was the picture of a child and a gun, and Barthes liked it. But Klein, who likes the picture too, doesn't like what Barthes had to say about it.

"He says it's moving and so on, but what obsesses him in the picture is the boy's mouthful of cavities. He can only see the bad teeth. Since it's Barthes talking we have to say 'Hmmmm, that's interesting.' The prisoner being sentenced to the chair might see only the wart on the judge's nose. You might think there's something wrong with him, and, of course, there is. There is something wrong with Barthes, too, but that's what makes him Barthes. He calls the point of a photograph — what stabs you — the proctum. Here for him the proctum is the child's had teeth punctum is the child's bad teeth. But he's more interested in what he sees than what the photo-grapher sees. I saw other things when I took the picture. These kids in dirty clothes, poorer than I was when I was growing up, could have meant danger when I was their age. I see that, and insane New York, the love, the mock violence, the smile, the patterned shirt, the two girls walking up in the background, the head cut off, the warm September morning, and what a kick they get out of the picture being taken and I of taking it. I see all this, and more, but Barthes isn't all that interested in what I see or what I've done. He's not listening to me—only to himself. Anyhow, Barthes and many critics, even Sontag, talk about photography, not about photographers. Like Malraux talks about France, not about was when I was growing up, could talks about France, not about Frenchmen.'

Then Klein thumbed through Susan Sontag's On Photography, listing her various definitions of photography: "the ideal arm of consciousness in its acquisitive mood... furnisher of evidence... image of an image... a narrowly selective transparency... almost as widely practised an amusement as sex and dancing... a defence against anxiety... tool

a defence against anxiety . . . tool of power . . . principal devices for experiencing . . . a chronic voyeuristic relation to the world which levels the meaning of all events events . . . an act of non-inter-

events . . an act or non-intervention . . predatory weapon . . . fantasy machine . . ray gun . . elegiac art . . twilight art . . . memento mori . . pseudo presence . . incitements to reverie . . attempts to contact or lay claims to another reality . . a privileged moment . . . "And that's only the first twenty-two that's only the first twenty-two
pages!", said Klein. "So who can
pin down photography? We're
drunk with images. She's sick of
it. I'm sick of it. Everybody's sick
of it. But we're often moved by
old amateur photographs because old amateur photographs because they aren't concerned about theories of photography or what a picture must be. They're just photographs, without rules or dogmas."

Carties Bresson, you might say, is the nocturnal burglar who knows the combination of the safe in advance. He wears a mask, working by stealth with expert economy and grace. No one sees him at work; no one sees him leave. He is a wealthy burglar. Klein, on the other hand, pro-ceeds about his work in broad ceeds about his work in broad daylight, carrying a hand grenade. He enjoys danger, preferring to dynamite the safe, and leaves a calling card on which are photographed his fingerprints. Cartier-Bresson says he's got it all wrong. "I liked Cartier-Bresson's pictures", Klein explains, "but I didn't like his set of rules. So I reversed them. I thought his view that photography must be objec-

reversed them. I thought his view that photography must be objective was nonsense. Because the photographer who pretends he's wiping all the slates clean in the name of objectivity doesn't exist. How can photography be noncommittal? Cartier-Bresson chooses to photograph this subject instead of that, he blows up another shot of the subject, and he chooses another one for publication. He's making a statement. He's making making a statement. He's making decisions and choices every second. I thought, if you're doing that, make it show."

So Klein consciously used blur in some of his photographs. But what if someone believes that blurred photographs are unsatisfactory, if only for the reason that one can't see what's there?

"I'd say that such a person won't let the camera express itself. He's prejudiced. A camera can record the passage of time, if only for a fraction of a second. Why say it shouldn't? Besides, if you look carefully at life, you see blur. Shake your hand. Blur is a part of life. But why must a part of life. But why must a photograph be a mirror? Cartier-Bresson decrees that it is incor-rect to use a wide-angle lens or to deform in any way. Only the 50-millimetre lens is supposed to be right, and a whole generation of photographers believe it. Most things I did with photography are considered acceptable today — except maybe this use of a wide-angle. It just seemed more normal to me than the 50-millimetre lens. You could even say the 50-milli-metre is an imposition of a limited point of view. But neither lens is really normal or correct. Because in life we see out of two eyes, whereas the camera has only one. So whatever lens is used, all photographs are deformations of what you actually see with your eyes. In photography, I was interested in letting the machine loose, in taking risks, exploring the possibilities of film, paper, printing in different ways, playing with exposures, with composition and accidents. It's all part of what an image can be, which is anything, Good pictures, bad pictures — why not?" Why bad pictures?

"I mean the bad pictures that used to be unacceptable", said Mr Klein.

An extract from John Heilpern's introduction to an anthology of William Klein's work to be published this week by Phaidon Press (£25). An audio-visual exhi-bition devoted to Klein opens at the Photographers Gallery, London, on July 3.

#### There's only one place an Englishman should sell his home,

If you're selling a house The Times is right up your street. Or private road.

Simply because we sell more property than any other national daily newspaper. Hardly surprising.

Times readers can, after all, afford to live in the style to which they're accustomed.

In fact you'll find that 152,000 of our readers have bought a house in the last two years. And nearly 20% own their property mortgage-free.\*

So when it comes to selling your own home, set it in the perfect surroundings.

In The Times. The "Property Columns" are published daily with a special support feature every Wednesday. To place your advertisement or for further information contact The Times Property Team on 01-8373311.

Theatre/Irving Wardle

# Acrobatics with the big top sound

Barnum

Palladium

If Christopher Marlowe were alive and well and living in New York, this is the kind of entertainment he would be turning out; a showbusiness dream of world-wide conquest featuring a brocade-waistcoated Tamburlaine who moves on from exhibiting four-headed froms to dinners at the White frogs to dinners at the White House and the creation of the three-ring circus with hardly a pause between one triumph and the next.

"Barnum is the name, hum-bug's my game" announces Michael Crawford as the curtain parts on a crimson-draped stage and a company in full circus warpaint, trying to interest the customers in a captive mermaid. customers in a captive mermaid.
There are no takers for that
one; but in no time he has
snapped up the oldest woman in
the world, passed her off as
George Washington's namy and
got the turnsules busily clicking. Whence it is only a matter
of minutes to the building of his
American Museum with its
famous sign "To the Egress"

vanishing point, so that the show proceeds almost without a pause from one climax to the next. Pauses, such as they are, are supplied by Barnum's hardheaded schoolmistress wife who would prefer him to take up a responsible position with the Bridgeport Clock Company; invariably failing in spite of the bets she forces on him with her two-headed quarter.

comes flooding back with the bellous, streamers and tumbles that carry him into City prowess of the Swedish Night-ingale (extremely well-sung and lusciously played by Sarah Payne), and evoking the Barnum's affectionate disagreements in a divided duet, "I like show takes place within a circus framework; so that before every clash between Barnum and the bets she forces on him with her defying encounter with the

You do not get any clear account of Barnum's life, but there is a firm story there in the collision of two forms of humbug: that of the local politicians who block his way to the Senate, and Barnum's own variety which is indistinguishable from the American dream. Theatrically this is expressed through Barnum's other obsession: colour. For the first act David Mitchell and Theoni Aldredge's designs are a riot of Aldredge's designs are a riot of mid-Victorian posters, floral decorations and peacocking costumes; then — and it is a marvellous stroke — Barmun's retirement from the entertainretirement from the entertainment from the en

foot-tapping Charity, the ring-master announces his death-defying encounter with the female of the species to a cracking whip and drum roll. Acrobats tumble on to supply Acrobats tumble on to supply every scene change from the Women's Emancipation Society lunch to the railway station. And when Barnum sets about the overnight building of his museum, the whole company muck in with a choreographically revved-up number with cork bricks.

The chorus work of Peter Coe's production (choreography

The chorus work of Peter Coe's production (choreography by Buddy Schwab) contains some extraordinary tricks; dancers going up on points in three-foot long clown boots, and a pair of beefeaters doing a high-kicking number on huge lifts. And in general they couple acrobatic and dance skills to a degree I have more of the product of Cr. degree I have never seen the company greached before. Most of Cy Coleman's music exists for their benefit. There are a few moments when the pace slackens and Mr Coleman gives his one man show.

Mr Crawford whose Barnum—
after all the prepublicity of his
rigorous circus training—
comes as quite a shock. He
tears through the patter songs,
radiating warmth more powerfully than the massed forces of
Eric Delzenne's lighting. What
the performance does not offer
is any great display of circus
skills, Within a few moments he
has leant up to a stage box to skills. Within a few moments he has leapt up to a stage box to bestow a parting kiss on Deborah Grant's Mrs Barnum, but this is his most exciting trick of the evening. Subsequently he walks the tight-rope to Jenny Lind in full-throated song, but it looks an effort. When the three-ring circus arrives, he returns, magnificent in spangled MFH kit, by sliding down a rope, and then stays where he is and lets the rest of the company get on with the trapeze bit. It is a winning and Mentally Handicapped

Concerts in London

# **Energetic Elgar**

LCS/Rattle

Festival Hall

"Sing and play. . . as though you were in dreamland then all will be well", said Elgar's friend, directing an early performance of his setting of O'Shaughnessy's late nine-teenth-century "Ode", The Music Makers. But now, as so much of the stuff on which the poet's dreams was built, the poet's dreams was built, the naively optimistic imagery of empire mirroring the heroic confidence of the artist, seems embarrassingly overblown, it is probably harder than ever to bring off a thoroughly convinc-

ing performance.
Simon's Rattle's interpretation, with the London Choral stion, with the London Choral Society and the philharmonia Orchestra, threw the sepia-tinted spectacles aside and with unashamed directness projected its aspirations through a sweeping energy, an unflagging building and releasing of tension that tested and celebrate the alertness and expressive

sion that tested and celebrated the elertness and expressive range of chorus and orchestra. It was, perhaps, at the expense of that sense of tugging unease and uncertainty that lurks in the text and which is reinforced most obviously musically by Elgar's nostalgic retrospective references to his own earlier work. It was left to Alfreda Hodgson, in her solos, to focus, as she did most eloquently, on that greater sense of distance.

Retrospection was matched

Retrospection was matched after the innerval by anticipation; yet last night's performance of Mahler's first important work, Das klagende Lied, made hearing it more than the mere exercise in musical fingerprint spotting that it can be.

That same unselfconscious and spontaneous projection.

That same unselfconscious and spontaneous projection, and Mr Rattle's willingness to spin the narrative thread of this German folktale deftly and nimbly, made this a tapestry of brighter colours and stronger weave than it can often seem. Alfreda Hodgson, Helen Field and Philip Langridge were well-cast and imaginative soloists: they and the off-stage band found their acoustic level within the shifting, finely-scored orchestral texture in a scored orchestral texture in a way which realized just those levels of aural and temporal recession in which lies the essential magic of the work.

#### Hilliard Ensemble

Oueen Elizabeth Hall

trapeze bit. It is a winning and Mentally Handicapped performance, and it won a Educational and Research roaring standing ovation, but whatever Barman is it is not a one man show.

Motus, ascribed to the French Renaissance composer, Autome Brumel.

In many ways it is a curious work. It survives in a manu script used more than half a century after the supposed composer's death by the great choirmaster of Munich, Roland de Lassus. With its sonorous rhythmic interweaving and ne Lassus. With its sonorous rhythmic interweaving and grandiose sequences that blaze or flow over a lugubriously slow harmonic bass, it sounds more characteristic of the later period.

The Hilliard Ensemble's interpretation

The Hilliard Ensemble's imposing interpretation succeeded, however, in giving the work a more archaic flavour by eschewing cadential accidentals, which are surely implied by its major mode: a few resultant harmonic clashes could even have provided a welcome touch of seasoning.

of seasoning.

The same old-fashioned purity affected the ensemble's reading of the six-voice charson, "Baisez moy", attributed, perhaps spuriously, to Josquin des Pres in posthumous sources.

Perhaps the concert's most satisfying moments were

satisfying moments were achieved in the smoothly articulated counterpoint of Jean Mouton's melifluous eight-voice motet, "Nesciens Mater", although all 12 voices combined with impressive skill in Josquin's five-voice lament on the death of Ockeghem.

# Fear in Ulster

All we hear or read of Northern Ireland in the normal way is the drama: Paisley vocifierates; another soldier dies in ambush; another part-time policeman is shot down before his family; another hunger striker drifts towards his end under the avid eye of the world — although you will have noticed how, for each death by self-starvation that has succeeded Bobby Sands, the eye has gazed that little bit less avidly. A gesture, no matter how enormous, is a gesture only once and it will take some new and scarcely to be thought of ourrage now to bring the world's concern again bring the world's concern again to seething point. In all this, of to seething point. In all this, of course, many elements are missing and one of them is any great consideration of what life in the province must be like for ordinary men and women. No doubt there are parts of the country where you wouldn't know a thing was wrong, but then there are those communities living, as it were, within the front line. One of these was the subject of Landscape with Bandits, an excellent documentary written and presented by Margaret Percy, herself an Ulsterwoman, and produced by Hugh Purcell.

The programme concentrated

The programme concentrated on the border village of Roslea in co Fermanagh, which is surrounded on three sides by the Republic. To approach it, you must drive in and out of Eire several times and through an army road block. We followed Mrs Percy as she did that, sharing a slight sense of mease at the guns loaded and aimed and at the chain ready to be stretched taut across the be stretched taut across the road, were anyone unwise enough to make a dash for it. But the worst was in Roslea itself, communicated straight and with the least resort to drama by means of excerpts from a series of quiet, attentive interviews with members of its mixed Catholic and Protestant

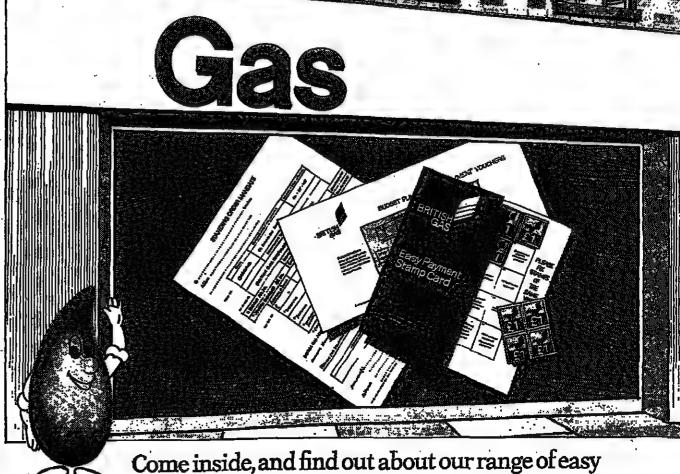

History, as ever in Ireland, weighs like a chain, but here there was no need to invoke there was no need to invoke even the dreaded memory of Cromwell for an event which set the parties at each other's throats. Back in 1921, at the time of the partition, the B Specials burnt down 20 Catholic houses in the village and killed several of their inhabitants. Retaliation followed as the day the night when the Republicans burnt down 14 houses of the the night when the Republicans burnt down 14 houses of the other side and also did some killing. In the half century that followed this propitious start, gerrymandering and shameless discrimination helped to keep the Catholics under wntil the

inside and into safety that much
quicker. A bomb went off and
killed or injured several
women: suspicion rested on
another woman in the village.
One event brought unity when women: suspicion restat on another woman in the village. One event brought unity when the inoffensive Roslea grocer was gunned down in his own shop. But the horror soon evaporated and with it the unity. Then another happening brought a semblance of togetherness: the retirement party for the much respected district nurse, but the air was full of small offences given and taken to the hilt — a plate of sandwiches withheld, a back mrned just a bit too suddenly.

It should be plain by now that this programme wound its way into the fabric of one part of Northern Irish society and in doing so made plain the nature and the depth of the rift within. No one can have heard it and an me depin or me rint within No one can have heard it and come away without a better understanding; nor, I suspect, without the feeling that the situation may be irremediable—save perhaps by time and exhaustion. exhaustion. On Radio 3 Alastair Hethe

rington is the resident member of Crowded Hours, a series of conversations with eminent men and even the occasional eminent woman: Lady Plowden is in prospect. The start has been moderate: Mr Hetherinton is intelligent and thorough, but he brings a touch of doggedness which rather precludes the possibility of the truly conversational element developing and with that of the other party dropping his guard. The first other party was Lord Roll who and even the occasional eminen other party was Lord Roll who was urbane and knowledgeable but kept his own counsel throughout and in a rather throughout and in a rather scrappy finish was permitted to duck a question about his early years on plea of impending autobiography. Last week Cedric Price, the architect and designer, among other structures, of the Snowdon Aviary, appropriately flew some very interesting kites — he considers buildings on the whole too permanent: 25 years of life should be the maximum. Mr Hetherington stood by him as he paid out more and more he paid out more and more string and resolutely put his questions, but the situation cried out for a fellow kite-filer.

# A guided excursion through the AA American American air maze

If it is true that more Britons than ever before will visit the United States this year — and the prediction remains valid despite the plunging pound -then it is also a fact that never has so much been offered to so many for so little.

De-regulation of the airline industry in the United States has opened travel opportunities nas openen travel opportunities unheard of only a few years ago, and the visiting British holidaymaker or business traveller is a prime target in the domestic air war now raging.

No fewer than 10 US carriers are offering European visitors "unlimited" mayel passes on their continental services, with a bewildering range of prices, options and, well — limitations. It is a game any number of passengers may play, provided they are not residents of the United States, their tickets are bought before they leave home, and their journey begins and

ends with a transatlantic flight. Finding a way through this maze is rather like mastering a complicated new board game. You must learn to distinguish between stopovers (generally, stays of four hours or more) and transits for the purpose of making connexions. Then there are blackout periods, which must not be allowed to shock or surprise (they simply denote time when travel is not permittime when travel is not permitted). A fair knowledge of
geography helps, as does a
supply of route maps (available
from the airlines' London
offices), a clear idea of precisely where you want to go and
a good deal of patience.

The rewards are not inconsiderable. Two examples: for £193. — £7 less than London/Munich - £7 less than London/Munich return — Eastern will give you the freedom of the skies over 88 cities for 60 days. For £198, Braniff will let you fly First Class between 50 cities for 15 days, if such is your fancy. It's only £145 in Economy only £145 in Economy.

The anomalies of ticket costs. Europe versus America, are not new, but it brings the absurdity of them into sharp relief to realize that for a mere £1 more than British Alrways charges for a one-way flight from London to Benbecula in the Hebrides a Skypass on Deita Air Lines currently places 87 by this surge of competition. One has to draw one's own conclusions about "best buys"

conclusions about "best puys-depending on itinerary require-ments, and although Eastern boasts that its £193 Discover America fare is "unquestionably the best travel bargain around", who can say whether its 88 cities over 60 days is really better value than American Airlines' 63 cities over 60 days for £38 less?

American's See America fare rises to £206 on July 1 but it says tickets issued before then will be charged at today's £155 irrespective of the date of travel As well as considering which cities are served by the various airlines and the frequency of their flights, two other points should be borne in mind when assessing which horse to back

for the course of your choice.

First, are you obliged to travel on the transatlantic sector of your journey with the same carrier whose airpass you are buying? The queston is far from academic: if you have freedom of choice you could save more money by using low-cost Standby or Walk-On fares with other airlines. For inwith other airlines. For in-stance, four of our 10 airlines do not have connexions to London but only three (Continental, Eastern and United) allow you to fly to America as you please. American Airlines has a special tie-up with Air India and El Al from London and you must use one of these, thereby limiting your chances of a cheap seat.

The six other airlines all have their own London service, but only five require you to use it. The odd one out is Delta, which says you may use any airline to get to America providing you have a confirmed seat. Ah yes, and you must start your Skypass itinerary at its home base: Atlanta, Georgia.

The second crucial question to ask is whether your routing must be predetermined — as TWA puts it, — "proceeding in one basic direction to the farthest destination point and.

For late starters

Last month I mentioned the Late Traveller organization, which provides holidays, often at a reduced price, for those who are unable or unwilling to book well ahead or whose plans have to be changed at the last minute. At 9.50 that morning a limes reader telephoned them (I had not given the number) and bought a holiday to Corfu.

The following morning he flew off, having saved £65 on the brothers's published price.

With a recent Travel Trade Gazette referring to "a wave of discount holiday offers now hitting the market" — the result, it says, of massive overcapacity this summer — it seems clear that others in similar circumstances might

cities within your grasp over 30 following a similar pattern of days. Delta's Skypass has been selling for £163. It goes up to £141 on Monday. The chart should be seen as a primer to the exciting horizons revealed by this surge of conventions. charged whenever tickets have to be reissued.

The three exceptions here are Eastern, which says other cities can be added at any time at no extra cost; and by contrast, Delta and Western, neither of which allows any change of routing. Dates and times can be changed, however: with Delta it is free, while Western charges

A much more flexible and practical method has been adopted by Braniff, Continental and Northwest Orient, all of whom issue the traveller with a book of coupons to be filled in as and when required. New books may be obtained without charge.

In the chart I have shown only the cheapest unlimited milage fares offered by the airlines, but there are a number of other options that could be useful when visiting the United

States. Hawaii, for instance, offered as an add-on by American, Braniff, Continental (until July 14), Northwest Orient, United and Western. Western Mexico (Puerto Vallarta and Manzanillo) is available for an extra \$100 with Continental after July 14: until then it is included in the mainland United States fare. Another of Northwest Orient's fares offers mainland United States, Canada, Alaska and Hawaii and American Airlines has four other special deals offering unlimited travel within the United States, Canada, Mexico, the Bahamas, the Virgin Islands, Puerto Rico, Haiti and the Dominican

The chart figures for Braniff refer to Economy class. It is the only airline to offer unlimited mileage packages in First. With two exceptions, all airlines' fares have been converted at £1.94 to the £. Braniff and Delta, who quote in sterling, say they have no immediate plans to change their rates despite the f's dramatic fall.

# Calcutta shuffle

A bridge club's annual competition is normally a lighthearted parochial event, with different. At the opening recep-tion, all the 40 pairs taking part are auctioned. The field varies in standard from enthusiastic

The tournament runs to four

well benefit. Most travel agents have sale notices up and the travel industry thinks that, with The winners of this year's event were Brook and Sanders (USA), with the ranking Ameri-can women's pair, Judy Rabin and Kathle Wei, giving a fine performance to finish second. the exception of winter sport holidays, this situation will continue into 1982. For those who missed it before, the Late Traveller is at 5A Gloucester Road, London SW7 4PP (tel 01-581 2458). John Carter

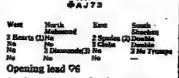

Two pairs made the journey from London, Robert Sheehan and Zia Mahmoud finished a creditable fifth. Irving Rose and

Maurice Esterson, in the jargon of the sporting journals, "started poorly, made good late headway, promising, one to note".

Validity

Pairs. Teams scoring. North. South game. Dealer West.

4A742 VQB7843 084 44 N E 0102 010762 E 010762 4K1095

(1) A weak two bid, which breaks all the accepted guidelines. The texture of the hearts is inadequate, and it is a bad mistake to make a pre-emptive in one major holding four cards in the other major.

(2) A transfer to 34. A strange method, with little evident merit.

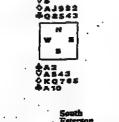

(3) Uncertain whether South's double was for take out or penalties. Obviously, it is impossible to rehears a comprehensive defence to every musual bidding convention.

After winning the opening lead, Sheehan took his four diamond tricks, discarding a club from hand. West discarded a heart and a cinb. Sheehan continued with a spade to East's \$Q, his \$K and West's \$A. West persevered with a heart. but when East obtained the lead with the \$J\$ his hand was reduced to nothing but clubs. Craftily, East played the \$9. Sheehan, happy to make his contract, won with the \$A.

As he readily confesses, he should have made an overtrick, should have made an overtrick, because West was known to have had only one club, which he had already discarded. To his mortification, Sheehan discovered that this overtrick would have earned them sufficient points to promote them to fourth place in the final classification. On the other to tourn place in the mai classification. On the other hand, if West had ducked the first spade, as he should have done, the contract would inevi-tably have been defeated, and the English pair would have dropped to minth.

The next hand proved critical for the the fortunes of Rose and Esterton, and even more so for one of the American inter-

national pairs. Pairs. Team scoring. Game all. Dealer North.

Opening lead 40 (1) The accepted modern style is to use a force after a pass to agree partner's suit. As Rose says, one would have preferred the clubs to be more robust.

(2) Cue bids. Grand slam force. (4) Fearing a club loser, but systematically obligatory by their

Obviously, the contract turned on the club suit. There are two distributions which would permit declarer to avoid a club loser: a singleton &K in either hand, or a singleton &J in the East hand, where the play of the &Q will pin the Jack. In spite of the latter chance being against the odds, Esterson decided to rely on his psychology, arguing that West might mistakenly refuse to cover the &Q.

A former American world

A former American world champion adopted this line, for the same reason. When it transpired that the **\(\Phi\)K\) was** singleton, it meant that the Americans finished seventhments wing coef Rose and instead of second. This enormous swing cost Rose and Esterson the session prize and ninth place overall. There is one small consolation. Because of this year's disappointment may represent an attractive bargain in next year's auction.

### Cookery/Shona Crawford Poole

## Disdain a dozy lobster Boiled lobster Serves four

Perhaps I have been unlucky, if a chance to eat lobster can be seen as any kind of hardship, but the few I have sampled in restaurants recently have been a sorry disappointment. What could the chef of a famous Brighton fish house have done with the unappetizing specimen he allowed out of his kitchen not long ago? Its flesh was tough and its claws had more air in them than meat. Where was the tenderness, the fresh sweet taste of lobsters remembered, of lobsters simply grilled or boiled, served hot with melted butter or cold with mayonnaise?

Seeing the creatures alive is

Seeing the creatures alive is not the guarantee of freshness and quality it is widely supposed to be. For if they have been too long out of the sea, they become lethargic, lose weight and live off their own flesh — for weeks if conditions are right. Angry, skittish lobsters that feel heavy for their size are the ones to choose. And don't expect too much of tired lobsters which have been "tickled up" by wily restaurateurs. The doziest of them can be teased into shaking a leg to a hungry customer.

Lobsters from cold northern waters are agreed to be the finest, with Europeans and Americans still debating the merits of their respective catches. As I had never tasted fresh American lobster on its home ground I ordered a couple through a new service called The Maine Thing Is Lobster which files live lobsters from Pardand Maine, to London, for

delivery to customers within 36 hours of their leaving the sea. Then I ordered a live lobster from a local fishmonger rom a local fishindinger who supplies a number of highly regarded London fish restaurants. I went along early next morning to collect it. Where had it come from? The sea, he said. Yes, but whose sea? Scotland mostly. That's

service for you.

The Maine lobsters duly arrived and were as fit as fleas.
They looked very athletic beside the stateless crustacean. Anyway, they all went into the pot together, and as you will have guessed, the Americans won claws down for flavour, texture and price. From which I conclude only that freshness is

of what to do with a live lobster. To store it for a short while of what to do with a live lobster. To store it for a short while before cooking, put it in an empty bath, or wrap it loosely in newspaper and pop it into the salad chiller of the refrigerator. Opinions differ on the most humane way to kill a lobster. Drowning it in cold fresh water is a method favoured by some. Others prefer stabbing it in the back, between the head and body, but this may alarm the squeamish because its involuntary reflexes continue to operate for a while after it is dead. Putting it in cold water and bringing it to the boil has its advocates. But the system most widely subscribed to is to plunge the lobsters head first into boiling water. This is the method I tried and, contrary to ghoulish predictions, they did not utter piteous squeaks or rattle the lid of the fish kettle.

Boiling lobster is the simplest method of preparation for the home cook, and is anyway unbeatable. A small lobster weighing 570-680g (1½-1½lb) will serve two as a first course, one as a main dish. will serve two as a first course

3 tablespoons salt 300ml (½ pint) white wine 4 live lobsters weighing 570-680g (14-14Ib) each

Half fill a large fish kettle, or two large pans, with water and add the sait and wine. Bring the liquid to a rolling boil and add the lobsters, head first. Put on the lid and return the liquid to the lid and return the liquid to the boil as quickly as possible. Allow the lobsters to boil briskly for 8 to 10 minutes, according to size. They will turn from greeny blue to red almost immediately, and be bright, brick red when cooked. If the lobsters are to be eaten hot, take them from the liquid as soon as they are cooked. For

as soon as they are cooked. For serving cold, leave them to cool in the cooking water. To open a cooked lobster for

Take a knife which is strong, sharp and pointed, and insert it into the joint between the head and tail. Cut decisively through the tail towards the fin. Repeat the cut in the grounds the fin. the cut in the opposite direction from the centre joint through the head. Crack the claws.

the head. Crack the claws.

Only the gut, which runs in a dark line through the tail section, and the little pocket of grit in the head end need to be removed. The papery white gills at the top of the head are edible, but may be discarded. The red coral and the creamy green liver, known as tomalley, are delicious and not to be missed. Melted butter, sharpened if

# Raymond Loewy, still giving the century its style

A rare opportunity to acquire A fare opposituately to acquire some original documentation of the history of the future arises next month when Sothebys auction over 3,000 designs and auction over 3,000 designs and drawings from the American space programme. They cover projects that have lifted off, like Skylab and the Space Shuttle, projects that fell from the drawing board like dead ducks, and projects that are yet to be

All are the work of Raymond Loewy, who has singlehandedly designed a considerable part of the twentieth century, and who became Habitability Consultant to the National Aeronautics Space Administration after a lifetime of reshaping the Coca-Cola bottle, improving the Hoover, designing chewing gum packets, Heinz soup tins, the cutlery for Concorde, and Howard Hughes's private air-

The drawings are Loewy's own private collection, and include much material that NASA itself, as a United States Government agency, would not be allowed to dispose of. He is selling them, he told me this week, because his only daughter has no interest in inheriting them.

them.
Loewy's task at the Space
Agency from 1967 to 1972 was to ensure that human beings could live and remain sane in the space vehicles designed by the scientists. His greatest challenge was to design a zero-gravity toiler; he had to pay volunteers \$50 each to drink prune juice before flying in a steeply diving aircraft. But he believes his greatest contri-bution to astronautical welfare was to insist that all spacecraft had a porthole, to enable travellers to look back at Mother Earth.

in god

Loewy, who was born in Paris, still speaks English with a heavy French accent after 60 a heavy French accent after 60 years in America, still filts between California, London, Paris and Monte Carlo despite his 87 years. He is driven everywhere in a 1961 Avanticar, which he naturally designed himself. His age has not diminished his inventiveness; he is now directing his design team on a fuel-saving aircraft alleron and an adjustable-height washbasin.

basin.

His enthusiasm was fired when, at the age of 15, he saw Santos Dumont make his historic 1909 flight 18 inches above toric 1909 flight 18 inches above the grass of the Bois de Boulogue in Paris; within a year he was making model aircraft for sale. "I learned then that design could be both profitable and fun", he says.

Since then he has never looked back. When he was hired to "slenderize" the Coke bottle to give it a sexier shape, sales soared among young people.

on bus seats and had a fabric design. "I have only ever refused to designed with a pattern of tiny spots, the colours of ketchup he told me. "A hand grenade and a funcional cacket."

"I do not remember ever designing anything purely for appearance. I am an engineer, who happens to have a certain aesthetic sense. My task was always to improve function; do that, and beauty will follow on its own", he said, sitting in a Monaco apartment surrounded by model Saturn rockets, signed photographs of practicates and photographs of presidents and astronauts, and a number of his

Of all his achievements he is proudest of the work he carried out for Roosevelt as part of the New Deal, designing a wide range of household products, from saucepans to carpet from saucepans to carpet sweepers, which could be made by relatively unskilled labour and thus create jobs during the great depression.

But it is space travel that has consumed his later years, and has excited him more than any other assignment.

"When I joined the NASA design team in 1967, the space programme was still a highly speculative venture, and we did not know how it would develop. At that time we had not dreamed of Skylabs and re-usable Space Shuttles. Many of our ideas and pilot projects are now no more than historical curiosities.

"But always I argued with the crientiest for making life in

scientists for making life in space as close to life on earth as is possible in a zero-gravity environment. Even in space, men need their privacy and comforts.

"You must design for humans, and for human emotions. In a three-man craw it is vital that one man, however unconsciously, should not move into the ascendant and dominate the others." the others. That is why I gave the Skylab crew a triangular dining table, so that no man could be at its head."

could be at its head."

Loewy believes that space travel will develop far beyond its present bounds. "It is my belief that within two decades people will be living in space cities, and eventually in complete space countries. They will be like latter-day Pilgrim Fathers, seeking new lands away from oppression, or taxation."

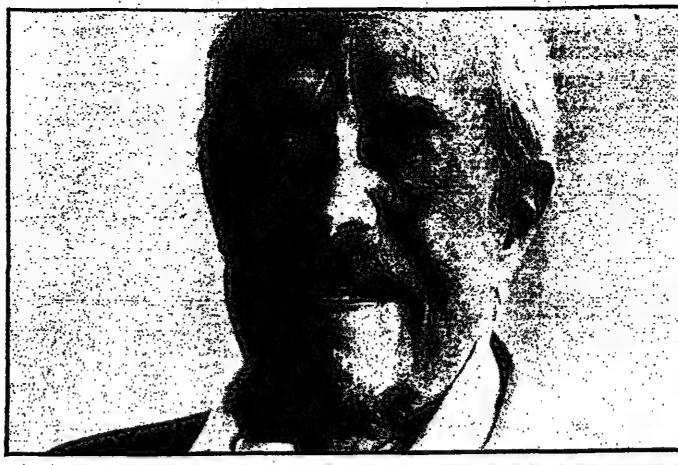

Although he has worn space

Although he has worn space suits and done everything else on the ground to acquire the feel of an astronaut's environment, he has no desire to make a space flight himself. "I am no scientist so there would be scientist, so there would be nothing for me to do and I would be bored. And the food is dreadful."

for sale. "I learned then that design could be both profitable and fun", he says.

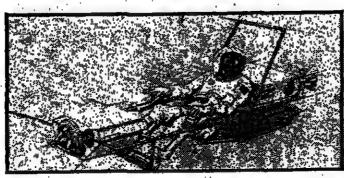

Since then he has never looked back. When he was hired to "slenderize" the Coke bottle to give it a sexier shape, sales soared among young people. The same happened when he changed the Lucky Strike cigarette packet from red to white and put the brand name on both sides.

His aerodynamic designs for Studebaker cars in 1949 not only sold more Studebakers but set the tone of American car styling for a decade. He redesigned completely the Greyhound bus fleet, improving safety, visibility and maintenance; he made a list of the substances most often spilled Besides the vast collection of

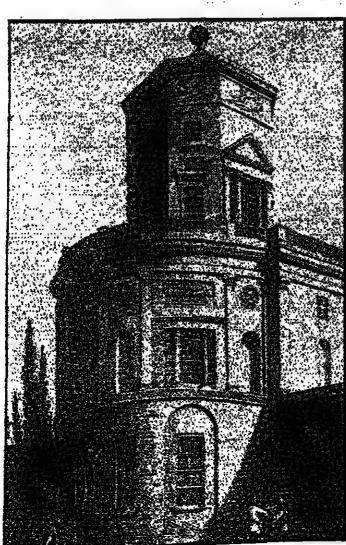

Raymond Loewy, top, photographed by Harry Kerr in Paris this week; above, a signed souvenir from the original moon-walk crew; and classic Loewy designs - the Lucky Strike cigarette pack he changed from red to white, a Coca-Cola bottle "slenderized" for sex appeal, the Kennedy memorial stamp and the extra-vehicular space taxi.

## Green College/Agnes Whitaker

# Taking the long view at Oxford

The Radcliffe Observatory - an 1836 engraving.

Harold Macmillan, the university's Chancellor, incorporates the Radcliffe Observatory. Agnes Whitaker, whose grandfather was clarity of the astronomy to the past of possibly of the Obser of Cxford's loveliest building.

"At bottom . . . the appeal of history is imaginative. Our imagination craves to behold our ancestors as they really were, going about their daily business and daily pleasure." Those words by G. M. Trevelyan describe the fascination of the Radcliffe Observatory in Oxford for me as a child.

It was not deserted. Its fabric It was not deserted. Its fabric

was kept up. Yet, having lost its original astronomical rôle in the thirties, it was clearly under-used. It became an out-station of the Radcliffe Infirmwith medical equipment ary, with medical equipment and a few offices. But so little had it changed since grand-father lived and worked there as astronomer between 1897 and 1923 that the peaceable life led by such Oxford families was easily pictured.

The family was not rich, so there was no carriage or horse, only bicycles, and Gramy Rambaut sat in a derelict deckchair and darned thick knickerbocker socks till they were more darn than sock. Born in Ireland, she found the socker deared wives alarming, so other dons' wives alarming, so she kept to herself and read the Revue de Deux Mondes assidu-

A new Oxford college to be telescope. Another was when opened formally today by Mr Harold Macmillan, the Oxford Little did they know, in their excitement, how massive would be the effect of that machine on the country, on Oxford especially, and on the clarity of the atmosphere for

Over the years the time-capsule feeling gave way to aesthetic appreciation of per-baps the most elegant building in Oxford. Wyatt built most of it between 1772 and 1795. There is a central core, topped by an irregular octasonal tower (an a central core, topped by an irregular octagonal tower (an adaptation of the Temple of the Winds in Arhens), and two low wings. A curved corridor links one wing with the observer's house alongside. Into the exterior stonework Wyatt set splendid Coadeware stone pla-ques. The signs of the zodiac bigger plaques, representing Britain. The University sugmorning, noon and night, are on the bowed front of the north side, and eight anthropomorphic winds fly round the occasion of the control of the north side, and eight anthropomorphic winds fly round the occasional transfer. are above the first floor. Three octagonal tower.

Atop the tower is a stone Revue de Deux Mondes assiduously.

Few dramatic events punctuated their ordered daily life; one such was when Halley's Comet swam into their ken, looking splendid in the big Atop the tower is a stone globe supported by two Atlas the dynamic figures. Inside the consummate proportions of the noble windows, doors, ceilings and dedicine.

Atop the tower is a stone globe supported by two Atlas the dynamic figures. Inside the consummate proportions of the noble windows, doors, ceilings and resident under with appreciation, just as gone up,

Now the Observatory is the centre of a working post-graduate college, and it has all happened in under a decade. The Infirmary's impending move to new buildings farther our meant the Observatory building was no longer clarity of the atmosphere for astronomy.

The Observatory was the same until five years ago. You could tentatively open a big double door, creep in, mumble to a secretary something about family connexions and ask if you could just look round. Then you could wander up the stately spiral staircase to the stately spiral staircase to the stately spiral staircase to the observing room at the top, where the bookcases were empty, the room virtually unused, and there was a suppendous view of Oxford.

Over the years the time-cap College to be started, and the Observatory buildings and grounds were assigned to it.

Three months later Dr Cecil Green from Dallas, Texas, founder of Texas Instruments, visited Oxford and was obviously taken with the project. Dr. Green, who was born in England, and his wife, Dr Ida Green, offered nearly £2m for the restoration of the Observatory and construction of new buildings. The Greens have given funds to many English-speaking universities, but this was their first benefaction in

in just four years near-miracles have been achieved, partly, one suspects, because of the dynamism of Sir Richard Doil, the College Warden, and previously Regius Professor of Medicine. New administrative and residential buildings have gone up, their simple pro-

portions setting off the Observatory to great effect. One of the new buildings has been set well back from the meteorological equipment on the north lawn, where temperature and rainfall have been measured daily at least since 1814, and with gaps from 1767. It is one of the best nined such records in the

The college opened to students in September 1979. There are now 60 students and the optimum number is 100-150. Although the college's chief interest is in clinical medicine, it also has wider purposes. especially serving students whose work overlaps with clinical medicine. There are special facilities for students who intend to be social workers and academic programmes where cooperation between medicine and industry is re-

The restoration of the Ob servatory building is almost complete, and the interior is mightly enhanced. Much of the furniture Wyatt designed spe-cially for the place is still there, notably 34 mahogany chairs with little tip-down desks at the back, to use in a lecture room. The new decoration of the observer's room is particularly joyous, in white and four shades of othre to pick out the details in the domed ceiling.

Today's opening ceremony will be attended by Dr and Mrs Green, the Warden, fellows, students and well-wishers. The celebrations include a scientific celebrations microle a scientific symposium, a thanksgiving service, a garden party, a concert and a dance. It all smacks more of the expansive fifties than anything in 1981.

#### Chess/Harry Golombek

# Names of the game

memorial events commemorating the great chess figures of the past and indicating the respect and affection in which they are still held. Philidor, Morphy, Steinitz, Lasker, Alekhine, Capablanca and any number of people with names starting Van der or ending with ski all provide reason or ski . . . all provide reason or excuse for memorial events.

Because a country has possessed great chess figures in the past it holds great chess tournaments in the present, and one hopes the process is actuated by a sort of perpetual

In Britain, we have had the Staunton Memorial Tournament in 1951 and the Alexander Memorial Tournament in 1975. Memorial Tournament in 1975. The Alexander commemorated one of our finest players, C. H. O'D. Alexander, who also, to quote Sir Stuart Milner-Barry, "did the State great service" in his work as a leading code-breaker at Bletchley Park during the war.

The Staunton Tournament was in fact called the Staunton Centenary Tournament was held 100 years after the first international tournament ever, in London in 1851. That

ever, in London in 1851. That event was the brainchild of Howard Staunton, the only British player to have been recognized as the world's leading master. The centenary event was a strong tournament, although Soviet players did not

take part.

In their absence, the Yugoslavs, then recognized as second
only to the Russians in Europe, headed the list of prizewinners. Yugoslavia has held many memorial tournaments, the most important that devoted to

Hungary's great chess record is reflected in its wealth of memorial tournaments. I well remember playing in the first Maroczy Memorial Tournament in Budapest in 1952. This particularly strong event was won by Paul Keres. Appropriately, a series of great tournaments is now regularly held in his memory at Tallin in Estonia. Indeed the Soviet Chess Federation holds more mem-orial tournaments than any other country. In addition to the Keres series there is one

It is remarkable how chess consoles its devotees for the rigours of everyday life. It does so in a number of ways, and none more effectively than memorial events commemorating the great charge for the property of the great charge of the property of the great charge of the property of the property of the great charge of the property of the great charge of the property of the prope was Alekhine's son. Swiss by nationality, he looked like his father but lacked the steel and fire. He was not a strong chess player but an expert at ice-hockey, of which he was an official umpire.

Memorial tournaments have been held for many years in Cuba in commemoration of Capablanca: East Germany held one in honour of Emanuel Lasker and recently a tournament was held in the USA in memory of another Lasker, Edward.

The most recent of the Keres

The most recent of the Keres The most recent of the Keres Memorial events was won by the former world champion, Mikheil Tal. Another chess genius, David Bronstein, came equal second, and I give a game of his from the tournament at Tallin this year, which was played in Bronstein's inimitable style.

style. White: D. Bronstein. Black: E. Gufeld. Q. P. Old Indian dejence.

# P-KN3 5 P-K4 N-KB3 6 B-R4 B-N2 7 B-N3 P-G3 8 P-B3

Up to this move White has played the opening in what the Soviet chess journal 64 calls an unpretentious style, and it is Black who is holding the initiative. But now I find the P-K3 move difficult to comprehend and would prefer either P-QB4 or NxB here.

Winning the RP; Black certainly has not got the inferior game at this stage.

A weak move; better, as 64 points out, is 24 R-Q1.

P-RS 27 NxQ R-R2 OxQ And this is much too passive; correct was 24...R-Q1. 28 R-O1 29 BbP ch 30 P-KN4 31 N-K3 53 P-R5 33 K-N2

The final position is indeed remarkable and unprecedented.

# Gardening/Roy Hay Don't slug your dog

than usually troublesome this year because of the wet spring. Birds, particularly thrushes, help keep them down but in most gardens destroy only a small proportion.

Weeds which provide douting

small proportion.

Weeds which provide daytime cover should be kept down and — if you can get them in this age of central heating — it helps to spread coal or coke ash round lettuces and young seedlings of other plants. Chopped straw is apparently an effective deterrent as the slugs do not like crawling over its sharp edges.

sharp edges.
There are of course effective chemical methods of slug control in the form of pellets based on metaldehyda or methiocarb. I know many people are against all forms of chemical pest control because they fear that pets and beneficial birds or animals may be at risk.

be at risk.

Certainly if you have a pet —
a young puppy that is liable to
chew anything it comes across

I would not use sing bait.
Rather I would water the
ground around plants I wish to
protect with a liquid formulation of metaldehyde. The only
one I know of is Murphy's
Sluvit.

Manufacturers of slug pellet manuracturers or sing peller baits now realize the danger to pets. Labels warn that they should be kept away from pets both in storage and in use and suggest the pellets should be scattered thinly and not placed in heaps. Further steps have in heaps. Further steps have been taken this year to make slug pellets less attractive to pets. All pellets made for amateur use now incorporate a dog repellent and packaging is being changed to make it more difficult for pets to get pellets out of the pack.

Soon we shall be protecting our strawberries from soil

Soon we shall be protecting our strawberries from soil splashed up by heavy rains and from slugs. The old technique was, and for many people still is, to tuck a generous layer of straw around the plants. This is fine if you have a local source of cheap straw but in north London it costs fil a bale.

Cheaper, quite effective and with the advantage that it can be used for several seasons is thin black plastic sheeting placed around the plants. Slugs definitely find it difficult to slither over it.

slither over it. . Again we have the annual problem of unwanted suckers springing up from rose bushes, lilacs, rhododendrons, plum and cherry trees. They need to be chopped off underground at the them; they simply sprout new shoots. The shoots from the wild rose root stock on which the rose variety was budded are easily recognizable. They are usually of a lighter green than the variety with more and smaller leaflets.

The hard way of eliminating suckers is to scrape away the soil and cut them off at the base with a knife. Easier, where only a few suckers are involved, is to

FOR ROOT AND FOLIAR FEEDING

LEAFLETS: SEND S.A.E. PHOSTROGEN P.O. 59

Slugs and snails have been more push into the ground right than usually troublesome this beside the sucker and between year because of the wet spring. it and the parent plant.

Where there are many suckers they can destroyed by watering them with Weedol which, while killing the suckers, does not harm the parent bush or tree. Beware the example of a friend who watered the suckers that had invaded his garden from his neighbour's plum tree with a selective weedkiller he used on his lawn. It killed the suckers and also killed the tree and the neighbour was most upset. neighbour was most upset.

Recently I have been asking friends who are very active in their gardens, who buy garden-ing books and even read gardening articles, if they gardening articles, if they appreciated the value of Fi hybrids. Only one or two had heard of them and even understood that they have important advantages over ordinary varieties.

important advantages over ordinary varieties.

F: hybrid seed is usually
produced by hand pollinating
two strains of a plant — a
pansy, a petunia, sweetcorn or
tomato, for example — which
have been bred for such
desirable characteristics as
earliness, size of flower, uniformity, yield in vegetables and
vigour. These F: hybrid seeds
are dearer than the ordinary
open pollinated varieties but are
well worth the extra cost.

We and friends to whom we
gave F: pansy plants last year
have emjoyed them for many
months. In our garden they

months. In our garden they started to give the odd flower in late autumn and continued to flower fitully all winter. Now they are laden with bloom and will go on flowering for months.

Suttons offer six F<sub>1</sub> pansies, Dobies catalogue three and Unwins seven. They are blue or yellow with or without a dark blotch; there is also Unwins red 'Indian Boy' which is giving us point where they leave the much pleasure just now. Seed roots. To cut them off at may be sown now in a pot or ground level is like pruning tray of seed sowing compost and the seedlings pricked off and planted out later to begin flowering in the autumn.

For sowing soon we have P-primroses and and polyanthus, bellis (large flowered daises) aquilegias and iceland poppies (Papaver nudicaule). It is worth seeking out F: hybrid seeds in garden shops or centres or in the catalogues of Dobbies, Upper Dee Mills, Llangollen; Suttons, Hele Road, Torquay; Thompson and Margan London buy a sucker cutter. This is a Thompson and Morgan, London V-shaped blade on a metal stem Road, Ipswich, or W. J. Unwin, about a foot long which you Histon, Cambridge.

# Commercially crazy Pedigree Persians Shoparound Individuality in iron fire service

with Beryl Downing

# Taking elitism out of jewelry

Modern jewelry design is being given a boost this week in London. Electrum, 21 South Molton Street, W.1, which has done more for designers than any other gallery, celebrates its 10th anniversary with an exhibition of anniversary with an exhibition of the work of 47 jewellers and Cobra, the art nouveau specialist, 149 Sloane Street, SWI, is extend-ing its scope right up to date with the first of a series of exhibitions of new work.

When Electrum first opened, young designers had no platform to display their talents and owner Barbara Cardidge who is also a designer, remembers other retailers looking round and dismissing her as totally our of their sing her as totally out of their sing her as totally out of their ken. Today those same retailers are selling some of those same "trazy" designs, now taken up commercially by the more aware manufacturers. The current "in" watch, with ornamental screws round the edge, is a development of a design first launched by one of Electrum's designers, Fritz

"We have helped to develop an awareness of design", says Barbara Cartlidge, "We are begin-ning to see the more progressively minded manufacturers recognize a need for an artist to design their jewelry rather than just churning out reproductions of repre-ductions. The big change in the past ten years is the broadening stratum of clients who are concerned with individuality and quality quite apart from intrinsic

value. It is no longer an elitist

value. It is no longer an elitist market."

The work on show until June 27 has mostly been specially designed for this anniversary exhibition. One of the exhibits by Pierre Degen is of 102 of silver and 102 of gold—tiny nuggers in two small sacks of sand (the definition of Electrum being an alloy of silver and gold) and the buyer will have a ring specially designed and made with the sifted contents of these sacks.

Norbert-Muerrle has-used the occasion to try to shock people

occasion to try to shock people into thinking about jewelry. His gold and nickel rings are worn under a surgical finger stall so that you can't see anything but the harmonic stall in the see anything but that you can't see anything but the bumps — he is asking: Do you buy jewelry just to give you confidence, security? Do you ever really look at it once you have got it?

To many people that is the equivalent of pretending that piles of bricks are art, but Muerrle is a superb craftsman, too — one of the best diamond setters in Pforzheim, the German jewelry

Pforzheim, the German jewelry town, and he also produces more conventional designs whose beauty can be appreciated without much intellectual strain.

Wearability is also the keynote of the exhibition of Jane Sarginson's work at Cobra. She works mostly in 18ct. gold with diamonds and pearls and the free flowing lines of her pieces harmonize easily with the early 20th century pieces for which the shop is known.

Cobra — now Cobra and Bellamy — is run by Veronica Manussis, who deals in museum quality glass, objects and pieces of furniture (a superb signed Galle table in inlaid fruitwoods, for instance at around £1,610) and Tama Hunter whose speciality is art nouveau and deco jewelry and who has transferred the Bellamy part of the permership from Antiquarius in Kings Road to "get away from the market atmosphere and whittle down to a smaller but better quality selection".

She believes that far too few She believes that far too few decorative art shops give jewelry designers a chance by providing a retail outlet and she hopes to devote about four exhibitions a year to the work of modern jewellers for although she enjoys the designs of the early part of the century, she also finds it "very exciting to be dealing with the people who are actually making jewelry and to see how they change and develop".

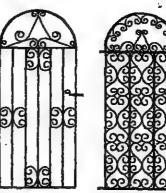

Some 14 pieces of Jane Sarvin-

Some 14 pieces of Jane Sarginson's work ranging in price from about £300 are on show and anyone interested in the developanyone interested in the development of jewelry design may find it fascinating to compare her style with the earlier pieces in the shop, which range from plastic decobrooches at £30 to an amazing £2,200 Lalique necklace of blue cut glass beads, which look as if they had been made from some strange translucent mineral from strange translucent mineral from outer space. The exhibition con-tinues until June 20.

Left, the wrought iron gate made for Danby Hall, Yorkshire, by Fred Bagley, The Old Forge,

Spennithrone, near Leyburn, Yorkshire. Below, left, the Frome arched gate, from £25.70 according to size, and the Haybridge gate, from £39, both in the Mendip range by D. G. Masters & Co (Oakhill Forge) Ltd. 39 St. Cuthbert Street, Wells, Somerset.

# A gate for every garden

To be a successful blacksmith these days you need a good deal more than horse sense. The demand is no longer for a bit of bent iron round a hoof, but for ornamental gates, garden furni-ture and decorative fire baskets and if the ancient craft is to survive at all, the local smithy has to be a combination of high technology workshop and art

One craftsman who has man-aged to bend fate as effectively as the metal he works is Fred Bagley of The Old Forge, Spennithorne, near Leyburn, Yorkshire. He was made redundant in 1979 as general made redundant in 1979 as general manager of an engineering company in York, but instead of wilting he saw the opportunity to make use of his industrial skills.

His experience had ranged from shipbuilding to making tractor components, working with every metal including industrial silver, and as oil nainting had been his

and as oil painting had been his hobby for 40 years he had also developed a keen appreciation of shape and design. So he was well

new-style blacksmith.

His speciality is gates in traditional wrought iron — "not that cold form stuff. I wouldn't make one in that to save my soul - and no two gates are alike. He

designs each one individually, visiting houses all over the country to make sure that the design will complement the property. Or, if you prefer, you can send photographs of your house or garden and he will design a gate to suit.

One of the commissions he most enjoyed was the renovation of a 160-year-old gate at Danby Hall in Yorkshire. Many of the original parts were missing and he had to research the designs and construction of the period, using only the techniques that would have been used then.

A. similar gate would cost around £700 but, he says, most people are looking for something to suit their pocket" and he will work to whatever budget he is given — mostly around £100 to £150, but still individual, even with coars of arms or initials. If with coats of arms or initials, if you insist. "If people are paying £100 or more for a gate they want something personal."

He works with his disabled son, also made redundant by the same company, and together they will tackle anything in wrought iron fire baskets, weather vanes, balustrading, house names. If you have ideas to discuss with him, his telephone number is 0969 23444.

If individuality is not your main criterion, you may also like to know of a company with a large range of ornamental gates made in mild steel. Oakhill Forge of Wookey, Somerset, has two ranges, the Mendip, with 13 standard designs, including singles, doubles, arch and side entrance gates, and the Craftsman range in heavier metal.

All these gates are supplied

range in heavier metal.

All these gates are supplied finished in primer paint only and top coats must be applied as soon as possible. Prices start at £15.70 for a single 3ft gate to £101.20 for a double 10ft gate in the Craftsman range. Delivery is within two weeks and carriage charges are made on orders under £45.

There are also ornamental

There are also ornamental Balconettes designed to hold flower pots, from £58.80, 3ft 6in wide, stair panels and door and window grilles made to size. Special commissions can be arranged — the largest so far has been a 10ft high gate for Wells Cathedral cloisters. It was made in 2 x 1 solid steel and took four men to lift half the gate.

For a brochure of designs, write to D. G. Masters & Co. (Oakhill Forge) Ltd., 39 St. Cuthbert Street, Wells, Somerset, BA5 2AW, telephone Wells 74260.

Newsnotes... **pets** by data bank... rarity in glass .... never too deep ...

🗷 Would you like to have a giggle with a laughing frog, dally with a dingo, curl up with a koala? Computerzoo is a new way of getting together people who want to buy or sell all types of animals, birds — even insects.

The service is free to those seeking information and those offering animals for sale or stud simply pay a flat rate of £5.75 to be put on the computer. All sorts of animals are available or you can use the service to find boarding kennels for holidays, broody hens to hatch out eggs, information from specialist breed-ers on how to look after an unusual pet.

Information and computer registration forms are available if you telephone 01-458 3794.

you telephone 01-458 3794.

Glass collectors may like to make a note of the exhibition Fine Examples of Glass 1700-1850, which opened this week at Maureen Thompson's specialist glass shop at 34 Kensington Church Street, London W8.

Rare exhibits include the Dinspore Portrait Goblet from the

more Portrait Goblet from the Hamilton Clements collection, a rare green airtwist wine glass engraved with foliage and parakeet, about 1750, and a 1770 firing glass, one of the earliest known. The exhibition continues until type 30

June 30.

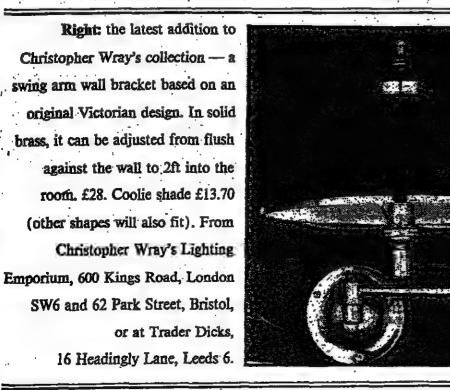

Mrs Thompson has also just opened a second shop at Sun House, Hall Street, Long Melford, Suffolk, where she will sell 18th-and 19th-century glass, plus needlework, pottery, metalware and water-closure.

These include an annual second sec June 30.

These include an unusually large hair picture, 18in x 12in., of flowers and intricate basketwork, £365; some fine pictorial samplers of grazing and hunting scenes, £250 to £400; a good selection of blue and white Staffordshire, including plates and tureens from £22 to £200; and a pierced brass coal scuttle made in Holland in the early 18th century, £165.

A simple aid for d-i-y enthusi-asts — Plasplug drill bits now come with an adjustable depth indicator so you can drill a hole to a precise depth without messing about with bits of sticky tape. Just wind the plastic indicator up or down to the depth required.

Plasplug masonry and hammer drills in sizes 8, 10, 12 and 14 now also come attached to a neat ked for instant measurement of drill and screw sizes — and a free resharpening service is available if any of your drills lose their bite. The packs cost around 89 to 99p according to size from d-i-y shops.

Left, one of a series of sculptural rings in 18ct gold by Harry Abend, £1,800 at the Electrum Gallery, 21 South Molton Street, London W1. Centre, plique a jour dragonfly, in silvergit with green and blue transparent enamels, made about 1900 in Germany, £550 at Cobra and Bellamy, 149 Sloane Street; SW1.

Right, baroque pearl and 18ct gold ring £3.45 from the exhibition by Jane Sarginson at Cobra and Bellamy:

# The mats that really matter

Do you know how to tell an antique Persian rug from a fake? Can you assess which rugs will increase in value by 35 per cent a year? Are you able to distinguish between hand-made and machinemade rugs and will you know whether the dyes are fast? A book riches (George Allen and Unwin £9.95) will answer all these questions and even if you are not an instant expert by the time you have read it, you will almost certainly have caught the rug bug.

The author, Caroline Bosly, is the only woman broker of Oriental carpets in London — first introduced on this page last November. For many years she has guided private buyers through the bonded warehouses stacked with piles of thousands of rugs and carpets worth millions of pounds, knowing exactly where to look for just the right colour, size and design — and within whatever budget you set.

Her reputation, hard-won in a field dominated by Middle-Eastern men, whose culture does not include great respect for the financial acumen of women, has been built not only on a thorough knowledge of her subject, but also on completely straight dealing. Whether you are a private buyer looking for a small runner for your hall, or, like a recent client, president of a corporation wanting to carpet 32 floors of a skyscraper, her aim is to buy for you at the best possible price.

Many sines and

" Lanibusa

Hi-Fi 11

ment Selan

It is a very tricky market for the inexperienced and while many dealers are to be trusted, it is not difficult for the occasional greedy rogue to add the odd £1,000 to a price just because the client is chairman of a bank. And before angry dealers pick up their pens in protest, I have to tell them that I know of just such a case.

The more you know, the more hope you have of avoiding such deceptions, and Rugs to Riches is packed with useful information. It tells you all about the making of rugs, the meaning of the colours and patterns used, the main areas of origin. Persia (no modern nonsense about calling them Iranian carpets) makes more than 4,000 types of rugs and the other major producers are Turkey, Russia, India, China and North

There is plenty of practical advice on looking after the rugs, too. Before trying to clean one you should try the handkerchief test — spit in a corner of a white handkerchief (saliva is alkaline) and rub the background colour of the rug. If no dye has stained the handkerchief, repeat the test on each of the other colours in the rug. Any deep stain means that the colour could bleed and professional cleaning is essential.

Another handy hint is the prevention of moths. Apparently a moth's idea of a meaningful experience is to come eyeball to shortsighted eyeball with a feather, so if you leave open dishes of feathers on cupboards and bookcases, the moths will prefer to lay eggs there than in your carpets. All you do is check the dishes every now and then and before you can say naphthalene you have got rid of your moth problem. Worth trying, I should think, even if you haven't got Oriental rugs.

Caroline Bosly sees no reason for beginners to be obsessed by age in rugs. There are many lovely new rugs, she says, which,

as long as they are hand-made and of top quality will one day become antiques. If you insist on age, then bear in mind that "antiqu-ing" is a thriving business and

ing" is a thriving business and rugt are run-over by trucks, trampled and scraped, faded and singed to make them look old.
"Scrutinize the back with a magnifying glass. Unless a rug has spent most of its life hung on a wall or draped over a chest, the back of a genuinely antique rug will be quite smooth and the knots will be flattened. The backs of rugs that have lain in the roadway. rugs that have lain in the roadway for a few weeks will still have little fibres of wool attached to them. Occasionally, these fibres are singed off, but then the rugs have a burnt smell which lingers for years."

Among the recommended an tique best buys are Baluchis (Persian nomadic, often prayer rugs), Bokharas (Turkoman semi-nomadic), Hamadans (Persian, village), Kelims (Afghanistan, village), Kelims (Afghanistan, Persian, Russian, Turkish), Mongolian, Tibetan and various tent bags, saddlebags, camel and horse trappings.
"Category 1" rugs that are

increasing in value at a rate of 35 per cent a year or more are good wool Afghans, old Cancasians, old Chinese, silk Hereke, old silk Heriz, new or old Isfahan, old Mongol, Nain, old, nomadic Per-sians and silk Qum. Descriptions of all these are

given in the book and there are tables showing the value of the number of knots per square inch, materials, design, colour and condition. It is a practical and entertaining introduction to a fascinating subject and will probably leave you with the feeling that the only thing you haven't been told is how to make them fly.

Above: one way of getting round the Palace ban on wedding T-shirts an irreverant but not vulgar memento by Mel Calman. In black on white cotton, small, medium or large. Prices vary -£3.99 from Bournes, Oxford Street, WI, Presents, Sloane Street, SW1; £3.95 from Fenwick, Brent Cross, £4.50 from Harrods' Way In: or £3.50 plus 50p p & p from The Workshop, 83 Lamb's Conduit St, London WC1. The Shoparound guide to collectable wedding

souvenirs will appear on July 4.

Below: same pattern — different textures. For the first time Marks and Spencer have produced a range of bathroom accessories in coordinating porcelain, plastic and towelling. Long neck vase and soap dish, each £1.99 in porcelain, tissue box holder, £3.99 in plastic, towel £3.50. Also in the range, toothbrush holder, trinket box, plant pot holder and waste bin — all in pink rosebuds on a white ground. At major Marks and Spencer branches.

### The high-speed people make a low-cost offer

If you are the owner of a gas fire, now is the time to have it checked. British Gas are offering a £4 service deal to make sure that as many as possible of the country's 9 million gas fires are working efficiently and safely. More than a quarter are over ten years old and many have been left

unserviced for years.

The biggest problem is the danger which comes from blocked chimneys or flues — particularly in older houses where crumbling mortar and debris may have

accumulated at the bottom of the chimney, causing dangerous fumes to spill back into the living room instead of having a free passage to escape. The service check will include

disconnecting the fire, clearing any debris, checking for leaks and checking burners. Additional work is not included in the £4 fee and if there is more than one fire, each will cost an extra £3.60 if checked on the same visit. A leaflet is available in all gas showrooms.

mo

# How the peasants sowed the seed of liberty

Six hundred years ago today 50,000 peasants marched on London. Louis Heren emphasizes the historical significance of this medieval labour dispute

The Peasants' revolt erupted in Chronicle, the men of Fobbing London 600 years ago today, and two other Essex townships and down the ages radical politicians have often seen a direct third in four years, and went connexion between those from town to town "inciting medieval rebels and them other people to rise against the

Mr Wedgwood Benn could be a descendant of John Ball, Froissart's "foolish priest" and a prophet of the revolt, although Mr Arthur Scargill looks a more convincing son of Wat Tyler. The ancestors of Wat Tyler. The ancestors of the Labour Party's militant entryists may have opened London Bridge to the mob.

oking Hampstead Heath.

the marchers, joined by the
commons of Southwark and
London, emptied the Marshalrison sentence when the sea, Fleet and Westminster Ball, a nonconformist born before his time, and by all accounts a genuine egalitarian, who was serving his third prison sentence when the rebels released him from jail in Canterbury. It is fairly cer-tain that when he addressed the peasant army on Black-heath he took as his text the

When Adam delved and Eve Who was then a gentleman? Those of his followers who dreamt of a Great Society—which in his own fashion President Johnson tried to make come true in the United States of the 1960s—have disappeared in the mists of time, but a great deal is known of what really happened, if not why it

They may well have great lords and the good men of the country. Within a few days some 50,000 were marching on London, burning and looting manor houses as they

> the seizure of a runaway serf at Graveseud ignited a second unsurrection, which also quickly spread. Thousands of men from Canterbury, Maid-stone and other Kentish towns

All this is possible because little is known of the social forces prevalent in the second half of the fourteenth century. Medieval chroniclers had little or nothing to say about the aspirations of the men of Essex and Kent who marched on London.

Wat Tyler is a very shadowy figure and Chaucer, who was a contemporary, apparently thought that Jack Straw was the peasants' leader, Jack's only memorial is the pub overlooking Hampstead Heath.

More is known about John

Medieval other Kentish towns were soon marching behind their chief, "one Watr Teghler".

On June 13, when King Richard II failed to meet them at Blackheath, they made the plebs. The city's gates were also opened. There was no resistance, and the boy king's counsellors were apparently too frightened to give advice. In modern parlance, the forces of law and order had completely broken down, although hundreds of soldiers were

prisons; burned books, rolls and remembrances taken from and remembrances taken from
the Temple and destroyed the
Savoy, the splendid residence
of the hated John of Gaunt.
Eighteen people were
beheaded, and the rebels laid
siege to the Tower until the
Kiog said he would meet them King said he at Mile End.

The next morning Richard vent to Mile End, and the ebels presented a petition which "required that henceforward no man should be a serf ward no man should be a seri-nor make homage or any type of service to any lord, but should give fourpence for a acre of land. They asked also that no one should serve any man except at his own will and

The unkindest cut for Wat Tyler, struck downby Sir William Walworth, Lord Mayor of London

means of regular cove-The King accepted the perition and proclaimed that "they could go through all the realm of England and catch all traiof England and catch all traitors and bring them to him in
safety, and then he would deal
with them as the law
demanded". Wat Tyler then
led his men back to the Tower
where they seized Simon of
Sudbury, Archbishop of
Canterbury, and others, and
beheaded them on Tower Hill.
For a few bours the rebels
must have thought that victory must have thought that victory was theirs, especially when the King met them again at Smith-

15. Wat Tyler obviously thought so but he was killed after an altercation, which might have been engineered. Some of the marchers drew their longbows, but the boy king rode towards them, say-ing: "Surely you do not wish to fire on your own king? Do not attack me and do not regret the death of that traitor and ruffian. For I will be your king, your captain and your leader. Follow me into that field where you can have all the things you would like to

Soon afterwards they were

surrounded by armed men, and the revolt collapsed. John Ball and Jack Straw were beheaded, field the following day, June as was Wat Tyler's corpse, and bistorians have concluded that they made little or no impact on the course of English his-M. Trevelyan disagreed.

He saw the revolt as an organic part of the history of labour. It established that fourteenth-century peasants had grasped the conception of personal liberty, that they regarded forced labour as degrading, and considered freedom as a basic English right.

of the draw.

poll taxes was involved. The feudal system which had stood the country, if nor all Engthe country, if not all Englishmen, in good stead since before the Norman Conquest had been changing for many years, and change was accelerated by the Black Death in 1348. Thereafter the average peasant never had it so good because landlords were reduced to offering double and treble wages to procure hands for the demesne-farms.

for the demesne-farms.

The land owners naturally disliked free collective bargaining, and the Statute of Labourers, an early incomes policy, was enacted in 1351. It was unfair because no effort was made to control prices, and it led to the growth of migrant labour, illegal unions and strikes.

So much is because but Tra-

So much is known, but Tre-velyan acknowledged that all great revolutions have a mysteelement. Certainly the rious element. Certainly the revolt cannot be explained in Marxist or simple economic terms because, despite the Statute, peasants generally enjoyed high wages and low prices for at least a decade before the revolt. Bad government was one factor, and the poll taxes levied to pay for the war in France were doubly unpopular because of military popular because of military

They triggered the revolt in Essex but do not entirely explain it. John Ball and the Poor Priests articulated what must have been a widespread yearning for what Trerelyan described as social democracy. The ill-defined Great Society is surely proof of that, and I for one think that they chose free-

To quote Trevelyan again, it was a grave misfortune for England that the social concessions made were shamelessly withdrawn after the collapse of the revolt. We might well have been a very different society if the distinctive aspirations of Englishmen had been recognized 600 years ago.

Blunden put it in Cricket Country: "The victory soon assumed an espect of inverted disaster. Scarcely greater shak-ing of heads and murmurings of disastisfaction had been noticeable when our own team was being put through the mill in Australia. Something must be wrong I.\* by Bradman. Hutton went on to

I think this view was more characteristic of cricket's elite than the general public, and yet I do remember much gloomy talk about slow play, and extravagant luck, and overprepared pitches, and timeless

Cardus wrote: "A new game has been invented which employs the implements of cricket". E. H. D. Sewell asked: "Does anyone want to see the same batsman in for 13 hours?" To which the enswer was if it was an Englishman batting against Australia, yes, l

That was the last Test war, and afterwards, of course, many things were different. The years brought a wise decrease in the intensity of a boy's partisanship, and a realization that there were more important matters in the world than Test matches. The Thirties feded in a golden glow. The current proliferation of

Test matches has undoubtedly cheapened them. The reasons for it are mainly financial, and I am not altogether sure that, in the long run, they will prove valid. There is such a thing as the doctrine of diminishing returns. Yet, as I said at the beginning a new England/Australia series still stirs the imagination. Let us hope for good-tempered cricket, with a proper though not extravagant wish that England will win. There are still plenty of good players about In particular, it will be fine to see Lillee in action again, provided he does not open the

# A leading question for the SDP

Democrats seem about to get themselves into a twist on the very issue that finally prompted them to leave the Labour Party. The Wembley conference decision on the method of ence decision on the method of electing Labour's leader was for them the ultimate horror. Yet here they are now in some confusion over their own leadership. Next week the leadership. Next week the party's steering committee and parliamentary group will consider a policy paper drawn up by Mr Robert Maciennan, MP for Caithness and Sutherland, on a possible constitution. But there are conflicting opinions on how to elect a leader and no satisfactory solution to what is admittedly a delicate prob-

The leadership is always bound to cause some difficulty because there is no natural leader among the Gang of Four. At present it is no dis-advantage to have four leaders instead of one. It enables the enormous burden involved in getting a new party off the ground to be spread more evenly; it means that far more leader, even if not the leader; and it prevents the party being dismissed as a one-person ex-travaganza. So there is no rush to settle the question, but settled it must be—probably by the end of next year at the

lem is in prospect.

leader would not matter if there was an acceptable and accepted method of choosing one. But different methods would be likely to produce different results, and it is increasingly appreciated that this could be of some consequence for the future of the party. The way Mr Jenkins and Mrs Williams have conducted themselves over the candidacy for the Warrington by-election has strengthened this perception.

It is generally agreed that in becoming the randidate Mr Jenkins has improved his chances of becoming the leader. chances of becoming the leader. Perhaps he will do so well at Warrington as to become a popular hero throughout the party. Already he has won considerable respect in the parliamentary group, not only for his readiness for the fray but also for the weight of his judgment. Mr David Steel is known to prefer him as the Social Democratic fer him as the Social Democratic leader, and he would now in all probability be the choice of the Social Democratic MPs if he were in the House. That is not only because of his merits, but also because most—though nor all—of them have been dizen-chanted by Mrs Williams's refusal to fight, and even more by the manner of that refusal.

The announcement of the Warrington by-election did not take the Social Democrats by surprise. Sir Tom Williams bad let them know a little while beforehand that he would be leaving the Commons. Then on party's steering committee that Sir Tom had just indicated to him that the announcement would be made on the Friday. The committee decided to contest the election, but to consult the Liberals before making a categorical public statement and to hold open the possibility of a local candidate—in case

Social Democrats wanted. The Warrington Social Democrats, however, preferred a national figure, which seemed to point to Mrs Williams. She is renowned as the party's outstanding vote-getter, and it had always been understood inforrefusal when a by-election came along. But on Monday, June 1, she told the other members of the Gang of Four at their weekly lunch that she did not wish to stand. They pressed her, and it was thought that she had agreed not to announce or even to make any categorical deciday, June 3, hearing that the Sun was about to publish a poli indicating that she could win Warrington, she made public her intention not to be the candidate. This was before the her intention not to be me candidate. This was before the party's private poll, conducted by Gallup, which on Friday presented a less optimistic picpresented a tess optimistic pic-ture, much along the lines of the NOP poll published in The Obscrier the following Sunday. Mrs Williams' action con-vinced some members of the parliamentary group that she

does not have the determined consistency to be the leader. Yet her personal popularity is so great that, unless Mr Jenkins Warrington, she would probably still be elected by the party membership as a whole. scores a resounding triu

membership as a whole.

This is causing some anxiety to a number of Social Democratic MPs. It is a salutary reminder that the practice of electing a leader by the parliamentary parry—which they used to defend during their days in the Labour Party—is more than a device for keeping the left at bay. It actually provides the best means of chosing the right person. Colleagues in Parliament have most opportunity of jedging who would have most to lore directly and personally if they elect someone who is not.

The trouble is that in their The trouble is that in their

last days in the Labour Party a number of leading Social Democrats compromised on this principle. Once the PLP had lost its right to elect Labour's leader, they proposed that every member of the party should be given a very. That world certainly be better than weighting the process in favour of the trade unions or constituency activists. It was a smart more in an attempt to outflank the left. It would, however, he so inferior method of selection. Yet the Social Democrats seem to be hooked on it.

The best arrangement would be for them to so back to what used to be the Labour practice, whereby the parliamentary party elected a leader who was accepted de facto as the leader of the whole party. Bur for the Social Democrats that now seems politically impossible. The Maclennan draft constitution proposes that there should be two leaders, one in the country and one in Parliament. Both would be elected by the party at large. That would open the possibility of MPs being required to go into battle in the Commons under a leader who did not command their confidence—precisely the objection they used to raise against the gerrymandering of the left The best compromise would be to have a dual system with

the MPs electing their own leader. But there should be no illusions about the difficulties of such an arrangement Fore-bodings about rival power centres are usually dismissed with a reference to the success of the German Social Democrats in running a dual leadership, with Willy Brandt as party chairman and Helmut Schmidt as Chancellot But everyone knows that Herr Brandt will never again be Chancellor. He presents no threat to Herr Schmidt.

It would be different with the British Social Democrats. The Gang of Four have so far man-aged to cooperate remarkably well. But there are strong rivalries among them and it would be unwise to assume that Social Democrats do not have their due portion of original sin. A dual leadership could easily become a competing leadership, with all the frustrations and petry masmally that she would have first occurres that this would involve. It is probably the best arrangement that is now available. It would certainly be wiser than having one leader

elected by the whole party. But how much better it would have been if all the Social Democrats had taken to heart what they used to say for most of their Labour days.

# They don't make Tests like that any more

A new series between Eugland and Australia is always something to stir a cricketer's imagination: but rather less so than usual this year. This is had beaten Australia over not to reflect upon the abilities of the Australians. It is the first we have seen rather a side. just that we have seen rather a side. lot of them lately. This is the It is my recollection that fifth time in seven years. Far only four of them had played too many Test matches are played. There always seems to be a series in progress some-where or other. And now that we can watch cricket on television from the other side of the world, the faces are familiar. A month or two ago, in the Star "Who's coming over this year, then?" and when I said "Australia", the response was a rather bored: "Oh, them

This would have been unthinkable in the Thirties, which was the time I began to thinkable pay a boy's fervid attention to Test cricket. I was too young to take in very much of the 1930 tour, but I followed closely the events of 1934 and 1938. These were all Bradman years. In 1930, then almost unknown to us, he broke the batting records for the aggregate in a series and the highest individual score. His figures

are well enough known, but

in England before (this year only three had not). England were not a bad side, but could were not a bad side, out come not cope with them. In 1934, Australia won again. Four years was just the right inter-val between tours: long enough to make them special occasions, eagerly awaited, without interest flagging. Other countries were touring by then, but did not make the same impact. It was 1935 before England lost a series at home to anyone but Australia. South Africa won that year, we thought rather luckily (at least the small boys, did). It was 1950 before the West Indies won in England. In 1934 Bradman was almost

as devastating, although he took some time to get going in the Tests, partly because he was not always in the best of

On the Lebanese coast just south of Heloue, the barrels of two Syrian tanks poke from a man-made ridge of sand and stones. But their crews spend most days sunbathing and idly watching the sparkling waters of the Mediterranean. The last Syrian checkpoint on the coast road to Beirut is a mere pro-priety, an official though unpub-licized acknowledgement that Syrian control ends here.

And indeed just a mile and a half further south, where the badly-maintained road swoops over a little dried-up river bed, there flies the green and white flag of the Phalange and a banner proclaiming: "You are now entering the liberated area of Lebanon". The young Christian Lebanese militiaman who wanders over to your car is friendly enough. He wears Israeli olive green battle factures and he has slung his M-16 carbine around his M-16 carbine around his shoulders, draping his wrists over the butt and muzzle in the manner of Israeli troopers. A smudge of black paint almost obscures the Hebrew markings on his trousers. "You going to Beirut?" he asks, and smiles

shen you say you are. Behind him, a row of heavy lorries has drawn up and a Paelangist officer inspects the cargoes, examining the drivers load papers and exacting road taxes for the checkpoint crossing. For this, in all but name, s the northern land frontier of an embryo Maronite state, the customs and immigration post of a newly partitioned Lebanon Cynics call it Marounistan, the 600 square miles of mountain Palestinian presence, took bar and coastline that is now controlled by Beschir Gemayel's doors on the rest of Lebanon.

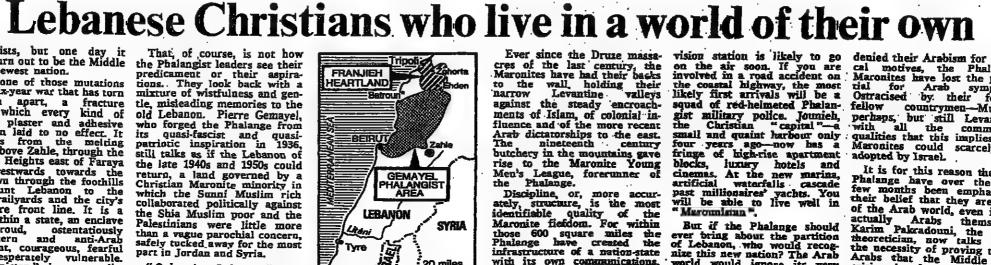

Phalangists, but one day it That, of course, is not how might turn out to be the Middle the Phalangist leaders see their East's newest nation.

It is one of those mutations in the six-year war that has torn predicament or their aspirations. They look back with a mixture of wistfulness and gen-Lebanon apart, a fracture tle misleading memories to the across which every kind of old Lebanon. Pierre Gemayel, sticking plaster and adhesive who forged the Phalange from sticking plaster and adhesive who forged the Phalange rrom has been laid to no effect. It its quasi-fascist and quasi-stretches from the melting patriotic inspiration in 1936, still talks as if the Lebanon of then westwards towards the sea, down through the foothills of Mount Lebanon to the Beirut railyards and the city's nightmare front line. It is a return, a land governed by a Christian Maronite minority in which the Sunni Muslim rich collaborated politically against the Shia Muslim poor and the Palestinians were little more state within a state, an enclave of proud, ostentatiously pro-western and anti-Arab sentiment, courageous, fearful and desperately vulnerable. "Marounistan" is never disthan a vague parochial concern, safely tucked away for the most part in Jordan and Syria.

"Only in Lebanon," cussed in the press or on tele-vision and like so many things in Lebanon, its existence is publicly condemned by those Gemayel was saying a few days ago, "does everyone feel at home, Christian and Muslim. This is the formula we want in Lebanon, the formula we want There is nothing new in the to conserve and give to the world in the same way as we gave the alphabet. For four hunconcept of a partitioned Lebanon. When the civil war ended in 1976 Syria effectively dred years we fought against the Ottoman Empire for our reunited the country, opening up the streets of the capital and autonomy, and even under Otto-man rule Lebanon still retained bringing the more ferocious of some form of autonomy. Where else do you have 16 or 17 sects living together in harmony?" the militias under its control. But the period given to political leaders to draw up a national entente expired two years later

# SERVANTS NOT MASTERS

Delegates at the annual conference of the National and Local Government Officers Associ-ation this week pledged the union to take industrial action against councils which agree to the reductions in their budgets demanded by the Secretary of State for the Environment. This is more than a routine display of trade union muscle. It is a usurpation by public servants of the role of publicly elected representatives; an en-croachment over one of the lines of demarcation clearly drawn across our political system; another attempt by public

employees to grab the neck of the public purse.

The constitutional position is clear enough. It is for elected bodies and office-holders parliament, ministers, local councils, committee chairmen to determine and approve the volume and distribution of public spending and the level of services it sustains. They do so on behalf and in the interests of the people, whose representa-tives they are. The public employees who organize, administer and perform those services have every right to be consulted individually or collectively through their trade unions about the impact of policies on their conditions of employment, and to bargain with their employers about the terms on which expansion or contraction which expansion or contraction shall take place. They have no right to, and are not to be trusted with, a veto over policy decisions. It is not for them to determine the scope of the public services or the quantity of money to be raised in taxes to finance them. Trade unions, if they have power to decide matters, will decide them for the benefit of their members to whom alone they are accountable. If they acquire a secondary control over public policies and revenues, exploitation will follow. Such ambitions on the part Party itself. If that cannot be of the public service unions must be vigorously resisted.

They pursue their ambition in three ways. By industrial action "against the cuts" or against a particular policy of which they disapprove. The employees of Lambeth council have exemplified both types of abuse, covertly against the sale of council houses and openly against last year's budget curs. Or by enlargement of the number of public employees who sit as members, not of the council that employs them, but of another. Or by achieving a large or preponderant influence in Labour Party management committees which proceed to select for candidature and hold to account the party's local councillors. By these means, in favourable circumstances, it is possible to sew up a council so that the dominant interest bearing upon its policies is the interest of its own employees.
Strikes and other forms of disruption undertaken with that object in view must simply be

resisted wherever the will to resist them exists. If the public service unions persist in these ways it will become necessary to extend the disqualification from membership of a council beyond its present scope of all employees of that council to include all employees of all councils. A councillor who is a NALGO official is subject to an obvious conflict of interest even if he is employed next door. For good and similar reasons all tivil servants are disqualified from membership of the House of Commons as holding offices of profit under the Crown. All who hold offices of profit within the system of local government would become ineligible for election as local councillors. The corruption of local laborate parties can be local Labour parties can be form purged only by the Labour ing.

done and the corruption infects city government, it will become necessary to curtail by law the remaining powers of local coun-cils and thus curtail the scope for conspiracy to abuse those powers in the interests of public employees.

The unious representing central and local government workers are aggrieved at recent pay awards and at what they regard as a hostile attitude towards their members prevalent in high places. They have reasons for that which in trade union terms may seem good. No one contradicts their duty to stick up for themselves. But it is regrettable they should do so in ways which show them unmindful of the public service character of their employment. This ought by rights to place some restraint on their use of the weapons of industrial warfare, Instead of which, in both the Civil Service and local government the unions are becoming readier and quick-er to disrupt the services for which they are responsible. Also, more obviously in local than in central government, the unions are beginning to chal-lenge or usurp the consti-tutional function of elected representatives to decide budgetary and policy issues arising in public administration.

That can only lead to deterioration of the public services, as they come to be provided with diminishing pride, principle and reliability. Nor will the public tolerate for long armies of public employees in receipt of those marks of public service like relative security of employment, incremental scales and inflation-proof pensions which were introduced to match a higher than general sense of responsibility towards the performance of duty, now vanish-

#### LET THEM STAND BUT NOT SIT

When Bobby Sands was elected to the House of Commons he provided the British Govern-ment and Parliament with a double embarrassment. His election itself provided the IRA with a propaganda coup; but he also presented the House with a delicate choice because he was not automatically excluded from membership. This anomaly was the accidental consequence of an earlier change in the law. Among those traditionally Among those traditionally debarred from membership of the Commons were convicted felons serving a term of imprisonment of more than twelve months. But the 1967 Criminal Law Act abolished the category of felony; so, as a mere technicality, this particular form of exclusion lapsed. As there were no more felons, nobody could be kept out on

that score. The House of Commons still has the right to expel any of its members, so it would not have been forced to accept Bobby Sands had he been minded to take his seat. But in fact the Government decided not to take this course for fear of the political repercussions. It would, so it was argued, simply give the IRA another propa-ganda success. But the reluc-tance of Parliament to act demonstrated the advantage of the previous arrangement whereby the election of such a person could be challenged in

the courts. The Representation of the

From the Secretary General of the Committee of Vice-Chancellors and

Sir, The Government has indeed made a series of political

which present a large threat to the future of British universities. But the threat is not one of "political control"; it is the one which derives from the Government's wish drastic-

from the Government's wish drastically to reduce the size of the system in the impossibly short space of two years. The struggle against this policy must not be confused by false assumptions that the values represented by such words as "freedom", "autonomy" and "independence" are already on the point of destruction. They are not. The universities have not "sold their freedom" (Mr Stretch, June 9) nor is there any perceptible prospect of

is there any perceptible prospect of "political control by a statist regime" (Professor Griffith, June 3). The Chairman of the University Grants Committee (UGC) has a Wr

recently, in an open letter to Mr Christopher Price, MP, affirmed that "it will be for each university, as is proper, to make decisions within its total resources and in the

light of advice given by the Committee. In particular, it will need to decide how far to accept in detail the Committee's recommendations... We are not setting out to provide a detailed blueprint for each

But the case for such freedom has

to be argued, in every generation. Universities are social institutions

and there is no way in which their

interests and welfare can be separated from those of society at

large. The needs of society must

always be foremost among the concerns of those who make university decisions. Defining those

needs is the major problem: in matters of higher education and research they are unlikely, in most cases, to be best discerned centrally

Forty-five universities, each mak-

ing its own independent and informed interpretation of national needs, may well between them arrive at several valid versions of

the grand scale of Government miscalculations. It is highly desir-

by government agencies.

establishment".

University control

People Bill, which was pub-lished yesterday, is designed to restore that state of affairs. Stansgate, even though they Anyone serving a term of imprisonment of more than one year is to be legally disqualified from membership of the House of Commons. In substance that restores the position that obtained before the 1967 Acc. person the right to be nomi-

furore in the first place, it may reasonably be said that the proposed solution is related directly to the problem. If there is any cause for further anxiety in this area, it is the election of another hunger striker that the Government should worry about — not what he would do at Westminster. It might also be argued that it would be inconsistent to allow someone to stand for election and then deny him membership.

Yet it is one of the traditional rights of the British electorate to vote for someone whom they know cannot take his place in the House of Commons. It is a form of protest that has an honourable place in the political history of this country, stretching from John Wilkes in the eighteenth century to Mr Tony, Benn in the twentieth. Had not the voters of Bristol been

able in the national interest that the

present pluralisitic system of de-cision-making by numerous and diverse institutions be preserved.

Universities acknowledge obligations that accompany their freedoms. Firstly, they must keep themselves fully informed about all relevant aspects of public policy and

stand ready to respond constructive ly. The UGC is an invaluable and

experienced interpreter of these matters, though of course univer-

and satisfy themselves that they do indeed consider them to be in the national interest. This is so whether

they are acting in their role as participants in the international

community of learning, as educators of highly-skilled professional and technological people, as institutions

of research, or simply as trustees of public money.

not confer upon them a right to pursue their own self-interest: it

GEOFFREY CASTON.

29 Tavistock Square, WC1.

From Miss Virginia Wason

The autonomy of universities does

the death of his father, Lord Stansgate, even though they knew that he was not eligible to remain a member of the House of Commons, it is unlikely that it would have become possible for anyone to renounce a peerage. It would certainly not have become possible in time But the Bill does more than for Mr Benn to continue his that. It also denies such a parliamentary career or for Sir person the right to be nomi- Alec Douglas-Home to return to nated for election.

There is logic in this. As it was the election of Bobby Sands, not his presence at Westminster, that caused the voters had been denied the right brought about so swiftly if voters had been denied the right to make this dramatic gesture. There are times when to vote for someone who is not allowed to sit in the Commons may be a political act of more conse-quence than to vote for someone who can. To forbid a person to stand for election is therefore to circumscribe not only his rights but those of the voters. To take this course would be

constitutionally unwise. It would also be politically unnecessary. The election of Bobby Sands was indeed embarrassing, but it was not disastrous and it can be attributed lessely to a second or sand it can be attributed. buted largely to an exceptional cause in the withdrawal of the SDLP candidate. Such an embarrassment may not be repeated, but it is in any case worth the risk. It should be enough to restore the law to what it was when we still had felons among us.

If the unrestricted use of tape recorders is allowed in court, witnesses and the accused person will be entitled to enter the witness box armed with their own machines. What greater assistance could one have in perfecting a dishonest alibi? Jurors could spend hours comparing the evidence, speeches and summing un.

An honest but inept solicitor's clerk, recording certain passages for counsel, may switch off at the end of one question and on again for a later answer. The scope for the dishonest, but skilled would be considerable. In a cause celebre the mass media

will come equipped with their own tape recorders (and if tape recorders, why not video machines?).
Outside responsible journalism,
there will be a fringe seeking the prurient and salacious. Although there is a sub-clause forbidding subsequent publication by reproduction, one knows how ineffective the law now is in controlling pirated recordings. Pity the family of a murdered person, or the victim of rape giving evidence in such circumstances.

The profligate use of tage recorders is bound to result in the

production of several versions of the record. One can foresee an alarming increase in judicial time wasted in courts, both of first instance and appellate, by reason of parties trying to establish as correct one version of the record rather than another. The extra burden placed on the Legal Aid Fund will be considerable. The matter can be summed up in no better way than it has been done by Lord Roskill. He said: "I can imagine nothing more alarming and more terrifying than to try a case, either criminal or civil, which has attracted a large amount of public attention, with an absolute battery of tape recorders around the court. Anything more distracting for witnesses, anything more distracting for counsel and anything more unnecessary to the successful trial of the action, it is difficult to invalid."

imagine." Yours faithfully, VIRGINIA WASON. The Institute of Shorthand Writers. 2 New Square, Lincoln's Inn, WC2. June 8.

### LETTERS TO THE EDITOR

#### Civil Service grievances

From the General Secretary of the Civil Service Union Conversion League are still given credence by anyone in this day and age (article by Alfred Sherman, (June 11.) Sir, I read with interest (report,

Sir, I read with interest (report, June 10) that your proprietor proposed to close down The Times and The Sunday Times because certain workers were alleged to be in breach of a procedure agreement. This has a familiar ring for civil servants for, as you will know, the current Civil Service pay dispute has been provoked entirely by the Government's unilateral breach of a 25-year-old pay procedure agreement and a 60-year-old arbitration agreement and its suspension of agreement and its suspension of jointly commissioned fact-finding.

Jointly commissioned fact-finding.

May we now expect The Times editorially to upbraid the Government for its reckless and irresponsible behaviour? Or are we to assume that the obligation to honour industrial agreements rests only upon the trade union side and that the Government in particular has some divine right to back out of agreements whenever it is minded to do so?

Yours faithfully, L. H. MOODY, Civil Service Union, 5 Praed Street, WZ.

From Councillor Mrs Janet Todd Sir, I agree with Mr Marshall of the Association of First Division Civil Servants (June 11) that the ultimate issue in the civil servants' dispute is what sort of Civil Service will result what sort of Civil Service will result from the Government's present behaviour. As a Conservative, however, I believe that the sort of Conservative Party which is likely to emerge is also at issue.

The civil servants with whom I come in contact are all, as it happens, instinctively averse to striking. What concerns me is that to many Conservatives it appears to

to many Conservatives it appears to be a matter of immense satisfaction that the Government can count on the fact that to such men and women action to claim what was understood to be their rightful place in the national pay structure is so.

The Government had to concede large pay increases to workers with industrial muscle, it is argued, but in the case of the civil servants they can divide and rule. This concession that might is to be right frightens and shames those of us who have worked for the party because it proclaimed itself the champion of

freedom.
It would have been unthinkable a few years ago that such a pragmatic philosophy would have been opesly adopted or that to challenge it would have given rise to charges of disloyalty. Yet not to challenge it means that we will have a different, and a far inferior, Conservative Party in the future. Yours faithfully. JANET TODD,

Foxton Close,

#### Benefit fraud inquiry From Miss Linda Lennard

unfortunately not surprise, that we read the Secretary of State for Social Services' remarks that the Social Services' remarks that the Government is continuing and developing its present programme to check fraud and abuse in social security (The Times, June 5). From our own experiences of advising disabled people on claiming benefits we have found that the "scroungercatching" atmosphere created by the Government is deterring many people from claiming benefits to which they are entitled. In addition, we seriously question the Government's assertion that

overpayments in social security are entirely the result of fraud. In many cases, they appear to derive from errors on the part of Department of Health and Social Security officials themselves and, therefore, a good proportion of the estimated £40m may well come from correction of

may well come from correction of the department's own actions in miscalculating benefit entitlement.

Moreover, the benefits system is so complex that many people may well misinterpret the rules and regulations. For instance, with regard to attendance allowance, the rules concerning handicapped chil-dren, who spend part of their time in hospitals as well as at home with their families, are very complicated. their families, are very complicated Over-payments then result not because of intent to defraud but because of the very complexity of

Levels of benefit in Britain are very low — barely enough to live on.
It is scandalous that people who are living in poverty and hardship should, in addition, be subject to harassment and further anxiety. The Department of Health and Social Security would be better employed ensuring a maximum take-up of existing benefits. One may be forgiven for thinking that deter-rence of claimants who are entitled to benefits is the desired effect of Government measures — another way of cutting public spending? Such tactics come ill from a Government which has recently cut the number of tax investigators, thus allowing billions of pounds to go undetected in tax fraud. Yours faithfully,

LINDA LENNARD, Organizer, The Disability Alliance, 1 Cambridge Terrace, NW1. Tune 5.

#### The Baltic terror

From Mrs Ruta Parris Sir, June 14 this year will be remembered by many exiles in this country and overseas as the 40th anniversary when thousands of Estonians, Latvians and Lithuanians were rounded up by Russian security troops and police, put in railway cattle wagons and deported

However, may we never forget that the Soviet authorities would use any measures available to achieve their aims with total disregard for any treaties or promises made, and

above all, with total disregard for human life.

Yours sincerely,

RUTA PARRIS, 41 Launde Road,

Leicester.

Tune 9.

to remote northern areas of European Russia and Siberia. The horror of the events of that night and the distress suffered by the deportees would be inconceiv-able to those who were born and live

> the House of Lords in Attorney-General v BBC, namely that the jurisdiction should extend to "inferior courts of record". This would include a coroner's court which Blackstone described as a court of record. But that was seen to be an unsatisfactory test since Parliament has provided by statute that a number of tribunals shall be courts of record, viz, the Transport

Concrete solution for the railways where it can be substituted. This is the conclusive argument for pro-ceeding now with a long-term programme of electrification. Yours faithfully, STANLEY STEWARD. The Athenaeum,
Pall Mall SW1.
June 11.

were long ago shown to be bogus, such as the supposed better fuel efficiency of road vehicles over rail. From Mr M. J. Oakley Would Mr Sherman really suggest that heavy freight is less efficiently dealt with by a 1,000 tonne freight train than by a large number of articulated lorries? Or that the case for rail electrification rests solely on Sir, Congratulations on your edi-torial juxtaposition. Mr Alfred Sherman's anti-rail ravings will no doubt have their lack of factual basis exposed by others. Personally I find your cartoon of a sleek efficiency, ignoring the fact that electricity does not depend for its generation on dwindling oil re-I find your cartoon of a steek speeding electric railway locomotive (it looks vaguely like a contemporary 125 mph Deutsche Bundesbahn type) being swallowed by a monstrous grinding, roaring, pollution-belching, tarmac-spewing, country-side-crushing, traffic-jam engendering road juggernaut has provided the most unanswerable comment already.

already.

Tune 11.

Yours sincerely,

West Midlanda.

M. J. OAKLEY, 133 Boldmere Road, Sutton Coldfield,

From Mr Harley Sherlock

Sir, Alfred Sherman's "Concrete Solution for the Railways" is insubstantial in many respects, but

it becomes flimsy to the point of collapse when applied to cities like

the conversion of railways into roads will have the same effect as

building new roads. But every Londoner knows, from the painful experience of the last 20 years, that

new roads attract more traffic which eventually leads to greater conges-tion — even on the local streets which are supposed to be relieved by

the new roads.

Although in London twice as many people come to the central area by British Rail as come by car,

it is true that the railways are generally used less than they could be, while the roads are over-used.

But rather than involve ourselves in

capital expenditure on yet another

panacea, surely it is time that we learnt to make better use of what we have already got — by managing our roads so as to give priority to public

transport and goods delivery; vehicles, and by encouraging greater use of the railways.

HARLEY SHERLOCK, Chairman,

Yours faithfully,

Transport 2000, 40 James Street, W1. June 12.

Mr Sherman readily admits that

As for Professor Hall's study, it

From Mr John Nearstead

Sir, I am sorry to see that the eccentric fautasies of the Railway

Most of their claims and statistics

As for Professor Hall's study, it was never clear how he supposed that two coaches could pass on the 15 feet carriageway obtained from converting a double track railway, at high speeds up to 125 mph, or indeed at all.

The theories of the RCL are simply a manifestation of the irrational dislike of anything to do with railways widely held in this country. Doubtless they will still be uttering platitudes about hydrogen fuel and sodium-sulphur batteries when the last oil well dribbles dry. Yours faithfully, J. NEARSTEAD, 37 Raynham Road, W6.

From Mr Stanley Steward Sir, Mr Sherman's hostility to all forms of public enterprise is deep-rooted but he does his credibility no good by his farrage of misrepresen-tation on railways. To suggest that railways should be abolished and replaced by road juggernauts and express coaches (even with WCs) is to fly in the face of all logic and

experience.

When it comes to railway electrification his arguments will not bear a cation his arguments will not bear a moment's examination. Road investment is never assessed on the same basis as rail but, if all the costs are taken into account, the cost benefits of a railway electrification programme leave those for comparable road transport facilities far behind. To say that there is no export market for railway electrical equipment is to ignore our railway industry's striking export achievements and the world-wide prospects which have been identified. which have been identified

But, spart from all this, Mr Sherman chooses to overlook the fact that, by the time he has converted our railways to trunk roads, oil will be prohibitively expensive and too scarce to use

Local spending

shire County Council

members of the Association of County Councils pursue similar national and political ideals with From the Chairman of Buckingham-

Sir, Ministers and commentators create endless problems by oversimplifying the extraordinarily complicated equation which makes up local government.

There is no standard local authority. The averages used in The Times on June 3 and 4 are misleading. Buckinghamshire, for example: receives for all services example; receives for all services including the police, not 60 per cent central grant, but only 42 per cent. Of the remaining 58 per cent which falls on the ratepayers, just one third is paid by commerce and industry. In the national interest

industry. In the national interest our county's population has been increasing at 10,000 per annum, yet since 1974 our proportion of annual grant has been routinely reduced and now we are threatened with an arbitrary termination of supply.

At present there can be but a handful of people in the country—and they are not ministers—who understand the complex denouement and social havor that will occur if Mr Heseltine's dictate on local authority spending is implemented in full.

mented in full. There is an element of tragedy in events since, from differing stand-points, both ministers and leading national and political ideals with equal sincerity and fervour: yet despite this common cause Whitehall will accept neither the word nor wise advice of colleagues, whose knowledge and experience in the local field by far exceeds that of those in ministerial offices. In consequence the upper tier of Government, by precipitate and unilateral action, is likely to demolish the next one down which in itself, in the shires of England, is the backbone of England, is the backbone of dependable, thoughtful and thrifty conservatism both in good times and

This is a constitutional matter.
Arbitrary action has been taken by
the Executive without either
national consultation or the considered advice of Parliament whose members will learn shortly and with dismay the real implications to their constituencies of the minister's illconsidered statements. Have we really learnt so little since August 4, 1635, when Charles I demanded Ship Money from John Hampden? Yours faithfully, ROGER PARKER-JERVIS,

of prolonged unemployment means

that poverty experienced by those living on benefits well below the

general standard among industria-lized nations is all the more harsh. The number registered out of work

Estate Office, Great Hampden, Great Missenden, Buckinghamshire.

#### Life on the dole

From Professor Adrian Sinfield "The harsh reality of life on the dole", so clearly brought out by Mr David Piachaud in your Social Focus column on May 27, has changed remarkably little since unemployment first reached half-a-million after the war, nearly 20 years ago. What advances there have been since then have been more than nullified by the recent cuts in benefits only partly mentioned by Mr Piachaud: the flat-rate national insurance benefit was also cut by 5 per cent from November, 1980, with no restoration of this reduction in the recent Budget, and there have been a number of other restrictive

changes.

Secondly, the state's services for the unemployed have been severely cut back in relation to the virtual doubling of the number out of work since the new administration took office. At that point the ratio of employment service staff to unemployed was 1:85 but this has now risen to 1:187. In addition, many special services for the unemployed over the age of 25 have been seriously restricted, including programmes for the long-term unemployed and the hard to employ.

Finally, and most importantly of

Finally, and most importantly of all, the very much increased amount

The number registered out of work for more than six months reached 1.1 million this April. The total of very long-term unemployed is now 516,000 people: this compares with 21,000 in 1956 — a 25-fold increase in 25 years. And to this half-million of course one should add the large number of children and adults in their families who are dependent upon them. It is difficult to realise barely seven years ago the total number out of work was no higher than half-a-million. number out of work was no higher than half-a-million.

In the battle against inflation, or whatever it is that leads the Government to allow unemployment to remain this high, the unemployed have already paid a heavy price in the loss of jobs and the frustration of their careers. I cannot see how anyone can justify this further penalty imposed on them and their children.

Yours faithfully. Yours faithfully, ADRIAN SINFIELD. University of Edinburgh,

Department of Social Administration, Adam Ferguson Building, George Square, Edinburgh.

#### Law on contempt From Mr Anthony Hoolahan, QC, and Mr Richard Walker

Sir, Mr Welsh (May 29) is quite right. There is no reported case in which it has been held that the law of contempt applies to publications relating to proceedings in coroners' courts. That is the nub of the problem concerning clause 7 of the

If the High Court has power to punish as contempt of court the publication (eg in a newspaper or by radio or television) of matter likely to prejudice proceedings before an inferior court, to which "inferior courts, tribunals and bodies" should clause 7 extend that power?

One possible line of demarcation of the High Court's protection was considered during the argument in

Tribunal, the Iron and Steel Arbitration Tribunal, The Electricity Arbitration Tribunal.

It is true that it is no longer, since 1977, the function of a coroner's jury to return certain verdicts against a named person; nevertheagainst a named person; neverthe-less a jury is still empanelled for certain inquests and may return a verdict that a victim was "killed unlawfully". And a recent case has illustrated the importance and delicacy of the jury's function at an inquest. The publication of any matter prejudicial to such proceedings in a Coroner's Court ought surely, therefore, to be subject to the law of contempt.

If a coroner's court is within the protection of the High Court in relation to contempt it by no means follows, however, that the mass of modern tribunals should also be. At least one would expect Parliament either to drop clause 7 or to identify those "inferior courts, tribunals and bodies" which are to be within the provisions of clause 7. Yours faithfully, ANTHONY HOOLAHAN. RICHARD WALKER, 1 Brick Court, Temple, EC4.

#### 'The War Game' under wraps

From Mr Nicholas Horsley Sir, May I write to the Fourth Estate about what is surely today the Sixth Estate — the BBC?

Estate — the BBC?

I am a member of the General Advisory Council of this great body, and we met in London today. We were shown a recording of the film The War Game, which was made in the 1960s, and showed some of the horrors of nuclear weapons at that time. You will recall that the British Broadcasting Corporation refused to Broadcasting Corporation refused to show this film when it was originally made, and more recently turned down requests to show it

At the GAC meeting today we discussed in depth this decision. Over twenty members of the Council spoke on the matter, and all but three of them were in favour of them wanted it updated, and possibly edited, and for it to be shown as part of a public discussion on nuclear weapons. Of the three on, nuclear weapons. Of the three opponents, two of them were Conservative Members of Parliament. At the end of the discussion both the Director General, and the Chairman of the BBC, made remarks which make me feel almost certain that the Governors will take no notice of the GAC and will not reverse their decision and show The War Game.

War Game.

I am risking the wrath of these two gentlemen, because in my view public knowledge and awareness of the horrors of nuclear weapons is far more important than the confidentiality of matters discussed at the BBC's General Advisory Council.

Yours faithfully, NICHOLAS HORSLEY, Welton Lodge, Dale Road, Welton, East Yorkshire.

#### Oral archives

From Mr Thomas Dalby Sir, I write in support of the recommendation made by Mr Ronald Lewin (June 4) that the "oral histories" of Bletchley Park personnel during the Second World War should be recorded for archival

War should be recorded for archival purposes:

Mr Lewin's proposal could, perhaps, be taken further so that major and minor participants in historic elents may record their recollections which otherwise would die with them. My own belief in the importance of making recordings before it is too late was strengthened as long ago as 1955 when, for a variety of reasons, I was unable to immediately record the memories of the last living link with the famous Victorian photographer, Julia Victorian photographer, Margaret Cameron.

1948 I commissioned and In 1948 I commissioned and published Helmut Gernsheim's bipublished Helmut Gernsquam's biography — the first of its kind — of Mrs Cameron. In it he told of her frequent long letters, written to her family in faraway Ceylon, and, at the latest moment, she would send the gardener's boy running all the way to Yarmouth, in the Isle of Wight, to catch the mailboat. Mrs Cameron lived at a house called Dimbola in the Isle of Wight, near Dimbola in the Isle of Wight, near Yermouth, and it has since been Yarmouth, and it has since been converted into a private hotel, which I visited when on the island in mil1955. I told the proprietor of this gardener's boy episode and was informed that this was a Kr. Newnham, who lived only a few yards away and had told many stories about his famous employer. I immediately ment down the sand and immediately went down the road and met and photographed this hale and hearty old man of 95 years and told him I would like to return in a few

months to record some of his stories But, alas, he died some three months later, unknown, unhonoured—and unrecorded. This is one example only where a recordi could have preserved the recoilec-tions of an earlier age and obtained a deeper understanding of the environment in which one of the world's greatest photographers lived: and worked.

and worked.

Perhaps consideration should be given to the setting-up of an Oral History Society which would gradually develop archives containing these very personal memories; so valuable to researchers and hisvaluate to researchers and ma-torians in their search for the inner truths of events long past. It would be interesting to have comments on this succession. Yours sincerely, T. DALBY,

4 Westbourne Park, Scarborough, North Yorkshire.

#### Claims to honour

and worked.

From the Precentor of Christ Church, Sir, It is somewhat temerarious for one who was a junior officer in the

European theatre in the second world war to disagree with a Field Marshal, but Lord Carver (feature, June 8) seems to me to perpetrate an injustice which even history is unlikely to redress when he says that "Monty" was "far and away the most effective professional soldier we have produced this century". Without in the least denigrating from his astonishing achievement, one must surely include in such an estimate the name of Slim.
Slim not only conducted a

Slim not only conducted a masterly retreat but also a continuously victorious campaign over territory so difficult, and with supply until the closing months of his command always inadequate and second best to the Western theatre, that in comparison Monty's war must be seen to be a comparatively straightforward task. He seems to have managed this actorishing feat have managed this astonishing feat without the sacrifice of his humanity, however tough he may have had from time to time to be with his subordinates.

These were both great soldiers, but nothing is gained in the history. of British arms by exalting one and totally neglecting the other. Yours faithfully,

PETER W. BIDE. Christ Church, Oxford.

#### Hindsight From Mrs Margaret Northey

Sir, In reply to Rev Owen Barraclough (June 10), Surely the advantage of the new back page is that The Times can now be read by two at breakfast. I read the back whilst my husband reads the front. Yours sincerely, MARGARET NORTHEY, 67 Primrose Way, Lydney, Gloucestershire.

MARY LADY RENNELL

Noted landscape painter

Several friends write: Mary Lady Rennell, the artist, died in Oxford on May 31

**Old Masters** 

succumb

to strong

dollar

artist, Olevi III.
at the age of 79.

Viviau-Smith, Born Mary Vivian-Smith, third of the seven children of the 1st Baron Bicester and his wife, Lady Sybil McDonnell, she wife, Lady Sybil McDonnell, she came from an unusual and gifted family. Her love for Ireland grew on the many family holidays spent at Glen arm with her Antrim graud-parents. She was educated at home and at 17 went to the Slade School to study under Henry Tonks.

By Geraldine Norman
Sale Room Correspondent
The strength of the dollar sabotaged Sotheby's big summer sale of Old Master paintings in New York on Thursday learing 41 percent of the 2m total unsold. All the main European dealers were there but with dollar prices looking 20 per cent more expensive than last week, they were cautions and selective in their bidding. Meanwhile. American investors are attempting a rapid change from pictures and collection items into short-term bonds, according to the auctioneers. In 1929 she married Francis
Rodd, later Lord Rennell,
author, explorer and banker.
Their life together took her all Their life together took her all over the world. In particular she loved Australia and for many years they paid an annual visit which was continued after husband's retirement, due to the marriage of their youngest daughter to an Australian.

Her insight and remarkable powers of perception were reflected in her landscapes, especially her interpretation of the Australian bush and her beloved Welsh Border country, and in her exceptional portrait-ure. She exhibited frequently in nine grandchildren.

investors are attempting a laplachange from pictures and collection items imo short-term bonds, according to the auctioneers.

Great collectors are not, of course, blown off course by such things and the main success of the sale, Jusepe de Ribera's "The penitent St Jerome", which sold for \$340,000 (estimate \$200,000 to \$250,000) or £173,459 is thought to have been bought by Baron Thiessan. His collection at Lugarno in Switzerland is probably the finest private accumulation of Old Master paintings formed in recent years.

The two paintings expected to reach the top prices in the sale, however, got nowhere near the price their owners expected. Murillo's "The Virgin of the Swaddling Cloth", for which between \$500,000 and \$700,000 had been looked for, was bought in at \$470,000; a ravisining example of Jan Brueghel the Elder's work suffered the same fate. The bidding finished at \$400,000 where \$700,000 had been hoped for.

In general dealers and collectors seemed to be shifting their interest from Northern schools, where prices have become prohibitive, to the early Italians. A Niccolo di Segna gold ground "Madonna and Child", attributed in the past to Duccio, made \$115,000 (estimate \$10,000 to \$150,000) or £58,673, selling to a London dealer; a fine Madonna and Child ", attributed in the past to Duccio, made \$115,000 (estimate \$20,000 to \$30,000) or £58,673, selling to a London dealer; a fine Madonna and Child with \$1 John", was bid to \$110,000 (estimate \$20,000 to \$30,000) or £58,673, selling to a London dealer; a fine Madonna and Child with \$1 John", was bid to \$110,000 (estimate \$20,000 to \$30,000) or £58,673, selling to a London dealer; a fine Madonna British pictures totalling £94,730, with 24 per cent unsold. **ROY BROWN** Roy Brown, the American rhythm and blues singer who composed "Good Rockin' To-night" and whose vocal style influenced many important performers, died in Pacoima, California on May 25. He was Born Roy James Brown on September 10, 1925 in New Orleans, he began singing in gospel groups as a child: his mother taught him to play the

piano. After moving to Los Angeles in 1942, he worked briefly as a professional boxer and appeared in amateur talent shows, establishing a local reputation as a singer of popular blues.

His first important recording

His first important recording session took place in New Orleans in 1947, and it produced a sizeable hit in "Good Rockin' Tonight". The song gained a further lease of life, and became a rock and roll standard, when Elvis Presley recorded it during his second session for the Sun label in 1954.

Brown's subsequent success es included "Hard Luck Rhies" es included "Hard Luck Rings", "Boogie at Midnight" and "Love Don't Love Nobody". His career declined in the middle 1950s, with the onset of the rock and roll craze, but his warm, open-throated, rhythmic cally driving style had already influenced the generation of singers which paved the way for the emergence of soul music the emergence of soul music-Joe Turner, Hank Ballard, Bobby Bland, Junior Parker, Little Richard and James Brown have all acknowledged their

# A fresh dilemma for Christian parents

The Christian view of sex has traditionally insisted that sexual relationships can only rightly be fulfilled within the exclusive and lifelong bond of marriage. Marriage is ideally be. When they themselves the union of two lives lived together in love, and physical sex should only be seen as the seal of marriage ideally ensures a secure base for the upbringing of children, and only within riage is the best way of assess
The Christian view of sex has tramework for bitterness and their attitude should be to this didly is a bonus, and parents they may want to give their children in sphere where discussion can doubt because they admire the values shown by these same durable union informed with a behaviour; but they recognize that to condone the trial marriage of a child whose values they confidently take place have succeeded to an important obscieve they admire the values shown by these same the behaviour; but they recognize that to condone the trial marriage of a child whose values they confidently take place have succeeded to an important obscieve they themselves they doubt because they admire the succeeded to an important obscieve the children in other areas of the place have succeeded to an important obscieve they themselves they admire the succeeded to an important obscieve they there areas of the children in other areas of the children marriage ideally ensures a secure base for the upbringing of children, and only within such security as the marriage bond provides should children
be conceived. A sexual relationship that is not binding is regarded by these couples as and at the same time carries an unreliable test for future the high pregnancy abuses happiness it is perhaps because

inherent in conventional court ship but also to give carte blanche to another child whose values are less dependable.
Worse, the apparent carte
blanche might be claimed by a
younger child whose immatur-

these parents when they look to the New Testament for guidance and find none that is direct. They may, however, advance a generally deduced scriptual principle: that is, that the tremendous act of creativeness which God offers in marriage is absolute and values which are actually in takes two to make a marriage, creativeness which use of marriage is absolute and partner alone with not be fragmented. Such young people do not enough; and these young faith and trust are integral input in endorsement of the tial commitment of both and trust are first detached in marriage is absolute and partner alone with not be people believe that the potential commitment of both and trust are first detached in marriage, is absolute and ought not to be fragmented.

removed the entire matter out the parents' court. In fact, it has never left the parents' court, for children will always take their own parents' marfor imitation or rejection.
What matters is the quality of love within the family. If young people housely believe that love within their future smiles can best, be ensured ev taking new measures, they are acting with integrity in the triking these measures.

To analyse is not to provide a solution to the problem, and meanwhile there seems to be a general conspiracy of silence about it. The Church's economy may in time accept integrity of intent as sufficient, but at the moment any two parents may feel alone and undappy in their perplexity. A more open sharing of insight might lessen such parents sense of isolation and give them reassurance.

IN BRIEF

Shares slip

as French

fears grow

A new wave of selling on the eve of the French parliamentary elections sent share prices down by another 2.2 per cent in Paris yesterday. The total fall since the socialist Presidential victory on May 10 is about 30 per cent. Dealers say it is the biggest crash since the end of the Second World

Yesterday's movement meant that, in just two trading ses-sions, average prices have fal-len by 4 per cent. Selling orders

maily by small investors fearing another socialist success—were so heavy that dealing opened 15 minutes late.

Groups on the Socialist Party's nationalisation list were

particularly bit. Credit Foncier de France dropped 5 per cent and Paribas 3 per cent.

The franc also slumped to its

lowest level since the presidential election. It was quoted at \$0.365 against \$0.3705.

Electronics group Philips announced yesterday that the offer for sale of 60 per cent of its subsidiary, Cambridge Electronic Industries, which closed yesterday, was oversubscribed. The basis of the allocation of the 21.6m shares, offered at 75p each, will be amounced on Monday. CEI was formed by combining 20 of Philips's high-technology peripheral com-

# Cash flowing in to building societies despite competition

that Government savings scheme, would cause a dwindling cash inta'; a for building societies appear to have been scotched by the latest Building Societies

Association yesterday reported higher than expected net receipts of £436m for May; this is £140m higher than last

Although May's net receipts are far from setting a record, are far from setting a record, the total has surprised some people because normally the inflow dips at this time of the year as savers withdraw cash for holidays. It also indicates that Government savings schemes have not hurt the building societies as much as had been feared.

had been feared.

A record £2,242m was paid

A record £2,242m was paid into accounts last month. With-drawals were £1,806m, leaving net savings of £436m. Normally the BSA would expect a decline of some £50m at this time.

Mr Richard Weir, the new Secretary General of the BSA, said last night: "The improvement partly reflects the declining impact of national savings competition but also the attractiveness of new invastment."

ber of societies."

The building societies granted more than £1,000m of mortgages

ing societies pay a gross interest rate of 12.14 per cent.

At the same time the Governfor the third month in a row.
Over the last five months building societies have committed
loans to 305,000 borrowers compared with only 271,000 during
the same period last year.
However, the BSA says that
more and more societies are
reporting long suggest of house

more and more societies are reporting long queues of house buyers wanting loans. This confirms a survey published this week by the House-Builders Federation, which indicated that an increasing number of its members were encountering difficulties in selling houses between the confirmation of the second control of the societies are societies. cause of long waits for mort-

The level of building society The level of building society savings runs counter to the warning given last month by Mr Leonard Williams, outgoing chairman of the BSA, who said that a mortgage famine could be created if the Government continues to exploit the personal savings market.

The Association exploits the

ment withdrew its 19th Issue ment withdrew its 19th Issue of Savines Certificates, which offered 10.33 per cent interest tax free, and replaced it with a certificate paying 9.02 per cent interest. The societies' tax-paid basic rate is 8.5 per cent.

Thirdly, the BSA says there has been a declining impact of the Government's index linked exvince schemes (Crany)

linked savings schemes (Granny Bonds) which were extended to include everyone over age 50. And, several building socie-ties have introduced new accounts and schemes to tempt savers. One of the best ex-amples is the Cheltenham & Gloucester "Cheltenham Gold" accounts, which offered interest rates at 1 per cent above the basic rate.

chairman of the BSA, who said that a mortgage famine could be created if the Government continues to exploit the personal savings market.

The Association explains the Savings boom in four ways, At the beginning of May, the interest rates on National Savings accounts came down from 15 basic rate. The society came under fire from other building society chiefs because it threatened their agreement on interest rates, the so-called cartel. The C & G says it will open no more this month, but is reported to have been "delighted" with the flow of funds.

# Berisford poised for the kill in £201m battle for British Sugar

By Michael Prest, Commodities Correspondent

S & W Berisford, the commodity trader, was poised last night to succeed in its £201m bid for British Sugar Corpora-tion. After buying 14 million shares of British Sugar Beria-ford had at least 36 per cent, not far below the level at which the Government will sell its decisive 24 per cent holding.

Yesterday's market push was at the offer price of 335p a share, after the market opened at 311p. The share alternative offer of 2.75 Berisford shares for each British Sugar share has so far attracted about 1 per cent. But Berisford expects further acceptances in Monday's post.

This would leave Berisford some 5 per cent short of the \$2.5 per cent needed before the Government will sell. The Government, a shareholder since the formation of British Sugar before the war, has said

Chancellor stands firm on borrowing By Frances Williams

Sir Geoffrey Howe, the Chancellor, yesterday took an uncompromising line on the financing of state industry investment. In a tough speech to Bradford Chamber of Commerce, he gave no hint that he was prepared to contemplate a relaxation of the Treasury's tight curbs on industry borrowing, which have recently rowing, which have recently come under criticism from industry chairmen, the TUC and CBI.

The Chancellor reiterated the Government's objections to relaxing borrowing limits or allowing the nationalized industries to borrow in private capital markets on their own account,

These issues are due to be These issues are due to be discussed by a tripartise working party which Sir Geoffrey agreed to set up after government policy was criticized from all sides at last week's meeting of the National Economic Development Council. The working party expects to report later this year.

Increasing the money supply to accommodate extra borrowto accommodate extra borrow-ing would be tantamount to abandoning the fight against inflation, the Chancellor de-clared. And few people would think higher taxes to pay for more public investment a price worth paying. The remaining options were to increase bor-rowing which would push up towing, which would push up interest rates, or cut back on current spending.

Nationalized industry borrowing was effectively underwritten by the Government however it was raised, Sir Geoffrey said, referring to the pressure from some industrial pressure from some industries such as British Telecom to raise cash for profitable investments on the private capital markets. Extra borrowing by state in-dustries would squeeze our some private sector investment, some private sector investment, he claimed. Even if the public investment would produce higher returns than the private investment "many of the industries are near-monopolies who may be able to achieve high rates of return on their investment through exercising monopoly power rather than monopoly power rather than through efficiency. The Gov-ernment had to be careful not to let state industries compete

to let state industries compete unfairly for the limited funds available.

The industries could release an extra £300m for investment if they cut their current costs by 1 per cent. Each extra 2 per cent on the wage bill cost about £250m.

Sie Geoffren was griffen of Sir Geoffrey was critical

past pay settlements "well in excess of what private industry could afford" and called for "realistic" settlements to free funds for investment.

The Chancellor also regressed to the Covernment's loan ferred to the Covernment's loan guarantee scheme for which he said small businesses had been asking for years. Under the scheme the Government pro-vides guarantees to back bank

loans to small businesses which have viable propositions which do not meet normal lending criteria. The other principal scheme in the business opportunities programme was the Business Start-Up Scheme which, he said, gave tax relief a

marginal rates of up to £10,000 invested in new businesses. It was he said a bold and imaginative scheme without precedent in any other country, focusing on new businesses requiring modest amounts of external capital in their early

# Nine industry leaders knighted

knighted in today's birthday honours list, Mr Peter Baxen-dell, who is 56, took over as chairman of Shell Transport and Trading, the United King-dom arm of the Royal/Dutch Shell oil group, two years ago after the death of his pre-decessor, Mr Michael Pocock. Mr Baxendell, an expert in petroleum engineering, has spent much of his 35 years with Shell in overseas postings, returning to London as a managing director in 1973.

Mr Ernest Harrison, 55, is the man behind one of the most spectacular success stories in British company history. When he joined Racal as chief accountant in 1951 it had a staff of less than 50. It has grown into a major

international electronics con-cern that employs 17,000 people and produced profits last year of almost £64m. Mr Douglas Morpeth, aged 57, was the prime architect of the system of inflation of the system of initiation accounting that was rejected by the grass roots of the profession in 1978. He is a member of the council of the Institute of Chartered Accountants of England and Wales and was president from 1972 to: 1973. His firm is Touche Poes, where he he is Touche Ross, where he be-came senior partner in 1977.

Mr Godfrey Hounsfield, senior staff scientist at Thorn EMI's central research laboratories, was instrumental in launching EMI into the medical electronics market in 1972 with the invention of the body and then the brain

But Hounsfield, the inventor and creator of the scanner, was eventually to receive over 40 awards for his discovery, including the CBE and the Nobel Prize for physiology or medicine.

Mr Alistair Frame, deputy chairman and chief executive of Rio Tinto-Zinc, is knighted For services to export. Mr Frame, who is 52, has risen quickly to the top of the mining and industrial group, having joined the company in 1968 and reached the main board five years later.

Mr Keith Showering, chair man and chief executive of Allied Breweries, engineered the takeovers of the Lyons tea, ice cream and Wimpy bar group and the Teachers distilling concern. He joined Allied when his family Showering group, best known for its Babycham drink, was itself taken mer. Mr. Shower. itself taken over. Mr Shower-ing is 51 and has a number of other directorships, includ-ing the Midland Bank

Mr Peter Macadam, 59, became chairman of BAT Industries, the former British American Tobacco group, in 1976. Educated in Buenos Aires, he joined the group's Argentinian subsidiary in 1946 becoming chairman of the group's tobacco interests in 1970.

Others knighted were Mr Owen Aisher, the 81-year-old chairman of Marley, who was Yachtsman of the Year in 1958 and Mr James Duncan, chairman of the Transport Development Group.

#### Beekeepers buzz round Brussels honeypot By Anne Warden

Eurobees are about to get pots of money from Brussels to encourage them to make more honey. From July 1 beckeepers associations from Deomark to Greece will be able to claim I Ecu, the European unit, per hive each year—which works out in Britain at about 62p. Already the bee bureaucrats have gathered some five million

Ecus with which to pamper bees and their keepers between now and 1984. and 1984.

The scheme will be administered by the Intervention Board for Agricultural Produce, but the British Beekeepers' Association and other beekeepers' groups will be able to decide where the money gester.

whether on feeding sugar, technology, marketing, or training. The Intervention Board is confident that the honey money will reach all the hives that

consident that the honey money, will reach all the hives that need it, even though British heekeepers do not have to register. The associations will be required under the schemo not to exclude non-members from receiving benefits.

The British Beekeepers' Association, with about 20,000 members, is estimated to account for about 70,000 hives, and other associations are thought to bring the number up to about 100,000 hives, But no one knows how many beekeepers may be lurking incognito, with a hive or two at the bottom of the garden, and will come forward when the money pours in.

Britain produced about 2,000 tonnes of honey in 1978-79, in a total of some 32,000 tonnes from all the EEC countries. a total of some 32,000 tonnes from all the EEC countries combined. The biggest single producer was Germany, with 13,000 tonnes in 1978-79. France came next with 9,000, Italy followed with 4,000, and Denmark surpassed the British figure with 3,000 tonnes, in that year.

year.
The anxiety in Brussels to keep Europe's bees and their keepers sweet is no new one, but the system is. The authorities hope it will work more smoothly than a previous one, where the money went only to the beekeeping trade's sugar suppliers, to en-able them to buy ordinary sugar at reduced rates, denatu-ralize it (that is, add garlic or

some other substance to make it unfit for human consumption while leaving it tasty for bees), and resell it to hive owners. This has been dropped because it was too complicated, and involved excessive checking on money and sugar, not so much in Britain, but in other EEC countries, say the authori-

#### STEETLEY OFFER FOR DOWNING

By Our Financiai Staff Steetley, the minerals, refractory linings and chemicals group, has made an agreed offer for G. H. Downing, which is fighting off a £12m bid from

Hanson Trust.

Steetley is offering 123 of its shares for every 100 Downing shares, valuing each Downing share at 265p and the whole company at £16m. There is also

a partial cash alternative.
Hanson has already obtained acceptances from Downing family holders of 24 per cent of the shares, but the board has rejected the terms as inadequate

Last year's profit: £516,000. Forecast: Down.

# Why some ITV screens are fading out early

By David Hewson

There is serious concern among commercial television companies about the level of profitability in the next few years. After being regarded as one area of British business which always returns extremely healthy profits, the ITV com-panies now face circumstances which, in contrast with some of their golden years, are posi-tively straitened.

The chairman of the Independent Broadcasting Authority. Lord Thomson of Monifieth, said this week that he expected companies to maintain profits at last year's level, but this confidence is not shared elsewhere in the industry. One reason why the seriousness of the situation has not

become immediately apparent is that television advertising revenue, unlike that in other areas of the media, has held up well during the recession.

During April, the IIV companies collected £64.2m in advertising, an all-time record. But the popularity of the medium with advertisers has been matched by soaring costs. According to the Independent Television Contractors Association's aide memoire for use in

last year and last April. As well as the extra staff from April 1979 to April this costs, the companies face the additional burden of financing increased on average by 66.5 the setting up of the Fourth and the number of staff emthe setting up of the Fourth Channel and its Welsh equiva-lent, a burden which some of the companies openly resent. Companies are also having to finance extra production facili-

# Guaranteeing the money for a new home

There can be few experiences more frustrating — particularly for the first-time buyer — than to scrimp and save for months on end, begging and borrowing to boost the building society deposit, only to have an application for a mortgage turned down flat at the end of it all.

At present it does not happen very often, because the building societies are flush with cash; and even at the tightest of times they all make extra efforts to lend to the first-timers. But when you know that there are three other people after the house that you have your eye on, and that the seller is anxious to complete, it is not much consolation to be told that you can go to the head of the programmer go to the head will not mortgage queue and will not, with luck, have to wait much more than a couple of months for the money.

It is for people caught in circumstances such as these that the Co-op Bank's revolutionary new guaranteed mort-gage scheme is designed.

Anyone prepared to save for two years under the Guaranteed Home Buyer Mortgage scheme can apply for and will receive a mortgage of up to four times the amount saved - assuming,

of course, that this does not take them over the Co-on's take them over the Co-op's income multiple (two-and-a-half times a single income or twice the first income and once the second), or the maximum proportion of the valuation which the bank is prepared to offer (90 per cent).

They must invest initially at least £250 and be prepared to build up their savings in amounts of between £50 and £250 for each month thereafter So, for example, an individual saving £150 a month over the full two years, for total savings of some £4,000 (including interest) at the end of the period, would be assured of a mortgage of up to £16,000, assuming that he (or she) had sufficient income to support the

But is the scheme in fact so revolutionary? A handful of building societies already offer some form of mortgage guarantee to their depositors. In some cases (that of the Scarborough, for instance) the guarantee. for instance) the guarantee amounts to no more than a promise that anyone who has saved regularly with the society over two years will get a mortgage and will get it as fast as possible—that is, that they will move to the

But the Leicester has had a scheme in operation since the early 1970s under which first-time buyers who have saved regularly over a two year period are assured of a mortgage of up to 10 times the balance in their account, or £13,000, whichever is the lower.

The curious thing about the Leicester scheme is that by far the bulk of depositors under it have dropped out before the end of the curious that the curious tha nave dropped out before in the the of the two-year period. Why? Because they have been able to satisfy their mortgage requirements without invoking the

Two years of saving is, as the authors of the Government's Homeloan scheme must have realized by now, just too long.

The Coop scheme does, however, differ from its predecessors in that the bank will advance further funds to anyone who can

persuade a "sponsor" to deposit between £1,000 and £4,500 with the bank over the same period. Twice the deposit is guaranteed (subject to the same reservations on income and percentage of valuation).

This is one way of getting parents, aunts and uncles to help, without actually parting them

#### HOFF of HEYBRIDGE HEATH

Family Budget

# Cut your domestic heating bills by half

Hard-pressed British house-holders now spend up to £800 a year just to keep the home fires burning, according to the heating experts. That is the approximate cost of heating a four bedroomed detached house tour pedroomed detached house using oil at today's prices.

It works out at up to £15 a week or more, and with fuel prices continuing to rise, heating is becoming a major component in the family budget

get.

How much you pay for your central heating will depend mainly on the type of fuel that is used. For instance, a four-bedroomed detached house with gas-fired central heating could cost £400 a year, half the price of oil, while solid fuel might produce a bill closer to £500. Off-peak electricity would cost about £600 a year.

about £600 a year.

There are similar rough figures available for the stanfigures available for the standard three-bedroom "semi"—
£250 a year using gas, £300 with solid fuel, £390 using off-peak electricity and £525 using oil.

These are London prices.
Tariffs vary slightly from region to region, and it is also possible with oil or solid fuel to lower the bill siightly by shopping around or buying in bulk. The Consumers' Association has found for instance, that a bulk solid fuel discount can knock up to 3 per cent off the bill, while with oil the discounts go up to 5 per cent.

discounts go up to 5 per cent. Similarly, prompt or early payment will attract a discount from some suppliers. With gas and electricity, though, the tariff is fixed and you pay for How then, can you best cut the bill? Presented with the fact 1981 prices that for the same heat oil costs twice as much as gas, you might

twice as much as gas, you might think that the answer lies in changing from the one system to the other.

But things are not that simple. First, there is the value of the oil installation, which you would have to write off when you took it out. Then there are the high cost of the labour involved in removing it and the cost of the new system and of the labour in installing and of the labour in installing

Since individual houses vary, since movidual houses vary, there is no point in quoting figures, but the Consumers' Association has come up with a useful rule of thumb.
You should only consider changing your fuel and your system, they say, if the cost is

less than four times the annual saving you would make — and that, remember, is the true cost. Thus, to change from off-peak electricity to gas at present

Annual cost 3-bed semi 4-bed det £250 £300 Soud fuel Off-peak elec. Note: All central heating costs, oil and solid fuel prices and gas and

disappear through an uninsu-lated roof space, but this can be cut back by 80 per cent with fibre glass insulation of the proper thickness.

Four inches of insulation in the loft (and experts say that it must be that thick) will cut your fuel bill by 20 per cent, whatever fuel you are using, and pay for itself within two to four years. That, the Con-sumers' Association points out, is an excellent investment electricity taniffs may vary from area to

prices would be worthwhile (for anyone with a four-bedroomed detached house) only at a cost of £300 or less. No matter what fuel you use,

or what alternative fuel you may consider, all fuel prices have risen dramatically (but with variations) in the past decade and are likely to go on doing so. That makes changing systems even more of a risk, unless the present one is at the end of its useful life.

than leaving your money in the building society. building society.

Other savings will depend on how your house is built. Properly supervised cavity wall insulation (unlike some other commonly advertised systems) works. The proof comes with lower fuel bills. Thirty five percent of heat escapes through the walls, but cavity wall insulation can cut this back to 10 per cent, making another 25 per cent saving on the fuel bill.

Experts estimate that such Experts estimate that such insulation should pay for itself within three to six years, which again is a better return than can be obtained by leaving the money in the building society or with a similar savings institution.

If you are lucky, you have a far cut your heating bill by a per cent. With one or two other modifications, you should be able to slash it in half. The exception is full-rate electricity. It is not priced for central heating and should not be used for it.
Saving on your heating bill can be dramatic, though, by using less fuel to achieve the same heating. That means insulation, efficient plant and Can you detect a drop of just one degree centigrade in

careful temperature control.
Start with the loft, A quarter of the heat generated will disappear through an uninsu-

one degree cemprade in a room's temperature? The chances are that you cannot yet by furning the thermostar do turning the thermostar down one notch and having the air one degree cooler, you will car your bill by 7 per cent. The correct use of the time is also important.

Only in one area of insulation Only in one area of insulating is there some controversy, Most people install double-glazing on the assumption that it will lessen heat loss, cut the fuel bill and so be a good investment. That, says the Consumers' Association, is not suichly correct. correct.

"If you are a handy person" they claim, "DIY double glazing they claim, "DIY double glazing for rooms that are heated a lot, and have large windows, might pay for itself in five to ten years. But paying a firm to put in double glazing throughout the house is very expensive and is probably not worth it on fuel saving grounds."

Such windows do, though, cut down noise as well as hear loss and could well be justified on aesthetic grounds.

on aesthetic grounds.
Finally, if a 50 per cent-plus saving on those escalating fud bills is not sufficient, ask yourself one question: if our grandparents could get by with hot water bottles, warming pans and extra blankets for those few cold winter days, how is it that we can't?

ACCUMULATE CAPITAL BY SAVING £12 A MONTH

provide one of the most cost-effective methods yet devised of accumulating a few thousand pounds. This offer enables you to start a Plan through a life assurance policy with benefits linked to the M&G fund of your choice.

The Company reclaims tax on your behalf (provided that your total life assurance premiums do not exceed £1,500 p.a., or one-sixth of your total income, whichever is the greaten, and adds it to your payments, to make up your goss premium. On a £20 net a month Plan, for example, tax relief at the current rate of 15% would bring your gross premium up to £23.53 a month.

Regular Investment Plans with life assurance

£23.53 a month.

The future value of your Plan will depend on your starting

age and the investment performance of the fund you choose. A man of 35 for example, who started paying £20 a month net of tax relief into a Plan linked to M&G Recovery in April 1971 when the Plan was first used in conjunction with this Fund, would have secured an allocation of units worth £8,991 by the end of May 1981, for a net outlay of £2,440. These figures allow for a defunction to cover the Consequent Patrick. figures allow for a deduction to cover the Company's flability to tax on capital gains. This performance has been exceptional and may well not be repeated, but it does demonstrate how effective the Plan can be as a way of building up capital.

Between 95% and 110% of each payment (depen your starting age) is invested in units, except in the your starting age) is invested in units, except in the first two years when these figures reduce to 71% and 87% to cover setting-up expenses. After two years, therefore, the amount

payment.

Regular investment of this type means that you can benefit from the inevitable fluctuations in the price of units through "pound cost averaging". You can continue payments for any number of years up to 20, and life cover of at least 180 times your gross monthly premium is provided throughout, if your age at entry is 55 or under. An element of life cover is also according to higher starting sense up to 75. Unit trusts and age at entry is 55 or under. An element of life cover is also provided for higher starting ages, up to 75. Unit trusts and bonds are not suitable for money you may need at short notice, and you should remember that the price of units may go down as well as up. The units notionally allocated to establish benefits under the Plan are owned by the Company. You are free to cash in your Plan for its current value at any time either before or after the elapsed 20 years. Tax will be payable on any capital gain at termination if your Plan is linked to a unit trust; but in the case of bonds the Company's liability to tax is reflected in the quoted price. If you cash in or stop payments during the pest four years there is a negative.

radinty to tax is renected in the guided price, it you cash in or stop payments during the next four years there is a penalty, and the tax authorities require us to make a deduction. You should not consider the Plan for less than five years and, for tax reasons, higher-rate taxpayers should continue payments for at least ten years.

Anyone aged 18 or over can join the Plan and there is no maximum age limit. (A specimen of the policy form is available on request?)

Taxation

# The cost of putting off the evil day

Back in the far off days of 4 to then the tax payment generally. 5 per cent interest rates and becomes due 30 days after the about the same levels of inflation, the Inland Revenue Such a system is simple ould afford a fairly gentlemanby attitude to those people who did not pay their tax on time.

The old general rule used to be that you had to pay interest on any tax that you should have paid, but had not, and that if sagreed about the amount you should pay then you did not have to pay interest on the amount in dispute.

Interest charges started run-

ning only after the amounts were agreed. Naturally there was a temptation to put off paying tax by finding grounds to dispute an assessment. Indeed the tax avoidance industry was as much based on giving people a tax holiday as on directly saving tax.

directly saving tar.

A scheme to save capital gains tax might, for instance cost 5 per cent of the gain in return for which the taxpayer may have stood a fair chance of eliminating the tax: but even if he lost, he — and not the government — had the use of the money interest-free until the matter was settled, which could be as much as eight to 10 years later.

It was against the background of increasingly heavily mar-keted tax avoidance schemes and higher interest rates that Mr Healey introduced (in 1975) mr nealey introduced (in 1975) some new and fiendishly complicated rules to try to bring the situation under control. What follows therefore is a rather simplified version of the law applying to assessments issued after July 31, 1975.

In principle if you delay paying your tax you can be charged interest (at a rate at present of 12 per cent a year), which is not allowable against your tax, from what is known as the "reckonable date" until moment you actually pay up. In most cases, this reckon-able date is the statutory day on which tax for the particular year of assessment should be paid.

If an assessment has not been and ink than they will ever issued by the statutory date recoup in interest. For argument

the Inland Revenue and taxpayer both agree on the amount of tax to be paid. The complications arise where there are disputes about how much the tax should be.

If you are in this position. you can ask for a postponement of the disputed tax on which you have been assessed. But you must have grounds for believing that you are being asked for too much tax and you must also be appealing against the assessment. The application and appeal must be made within 30 days of the date of the Notice of Assessment and not 30 days from the day you receive the

Then, if the Inland Revenue agrees on the amount to be postponed, interest charges start running from a later "reckonable" date. In the case of the tax not in dispute, the reckonable date for interest is 30 days from the point at which the application for this post-ponement is accepted by the Inspector.

Inland Revenue made the wrong assessment and were tardy about making the right one. In the course of this lengthy wrangle Mr Denning appears to have worn our several tax

inspectors and has cost the

#### NORMAL DATES FOR TAX PAYMENT

tion of tax at source or carries a tax

income tax — Schedule E (Tax not collected under PAYE).

overdue tax — especially if the inspector takes his time about agreeing to the postponement.
There are, however, long-stop dates at which interest starts to be paid, regardless. These are the so-called "postponement dates", which are generally six months after the due date of payment. If you agree the amount of tax due earlier than

One man's fight with the Revenue

Taxpayers regard interest payments as adding insult to injury.

Mr Basil Denning, a reader from Richmond, has conducted a lively correspondence on the subject with Her Majesty's tax payment is entirely the fault of inspectors for nearly three years. At stake is an interest demand of the Inland Revenue, interest is still chargeable. Mr Denning simply refuses to pay. The facts are not in dispute. Mr Denning's payments were late because the Inland Revenue argues that it does not matter who Inland Revenue made the wrong made the error. The taxpayer

this time, then the reckonable

made the error. The taxpayer has still had the use of the money in the meantime.
Not so, says Mr Denning.
Unless you are extremely lucky it is impossible to find an

investment that returns the 12 per cent net of tax with which to

make the payment. The mo tax you pay the worse it is,

January 1 in the year

Half on January 1 in the year of assessment. Half on July 1 following the year of assessment.

December 1 following the year of

Fourteen days after application by the Collector of Taxes. December 1 following the year of

date may become 30 days from the agreement.

If you have a complicated problem, which is taking a long time to sort out, you should not think that you can put off paying the tax until the final amount is agreed. The reckon able date for interest is not, in principle, altered even if the inland Revenue has made a mistake or has been the main contributor to the delay.

Anyone paying 50 per cent of his or her top marginal rate, for instance, will require a return of

achive a return of 40 per cent:
Given the well publicized ability of th Inland Revenue to add two and two together and

get it wrong, this amounts to a penalty on the taxpayer for bureaucratic incompetence.

24 per cent on the money order to have the 12 per cent after tax with which to pay the

Revenue interest. Someo ing 70 per cent tax will have

interest payments on equivalent amounts of ourstanding tax.

But there are still some taxpayers who could find themselves liable to a large amount of tax because the Inland Revenue has been under-charging them over a period. The Parliamentary Ombudsman recently reported on the tax affairs of three pensioners who had substantial arrears of tax building up without their knowledge. Fortunately there are special rules to cover these circumstances and the income limits at

which they apply have been raised with effect from March 20, 1981. Under the new arrangements the rule is that if the taxpayer's gross income is £6,000 or less no attempt is made to recover the tax arrears. For people over the age of 65 or receiving state retirement of widow's pension the limit is £8 000.

A proportion of the tax is remitted at different levels of income up to £17.500 a year (£19.500 in the case of pensioners).

The dates on which tax becomes due are 30 days after the date of issuing the notice of assessment if this is later than the appropriate date shown in the table.

It seems very unfair, where it is the Inland Revenue, rather than the individual taxpayer, who is to blame for late Danby Bloch and Margaret Drummond Raymond Godfrey

Round-up

High risks, high rewards from Barings

Providence Capital and Barings (of all the unlikely people) are costs of switching. But, of going in for a daring concept in course, the proof of this investment management with their Special Market Fund. If Barings get it right, this will be a great performer; but if penchant for the high risks and high rewards provided by for widows or orphans. their Special Market Fund. Given the private investors' penchant for the high risks and high rewards provided by specialist markets, they have designed a fund which (under Barings' direction) will go up to 100 per cent into any situation which the investment managers consider to be worth chasing.

The fund managers are empowered to invest in a wide range of securities — including those in areas in which there are as yet no specialist funds—
and could put their money into
property although they probably won't because of the problems of moving out again in a hurry if a better opportunity

For the private investor (minimum investment £1,000) one of the advantages to the

Cheltenham & Gloucester Building Society, which put a spanner in the works of the building sciety movement as a whole a couple of months ago by offering extra high interest on accounts in excess of £1,000 - with no penalties on early withdrawals - has had such flood of money pouring into these Chekenham gold accounts that it has decided to open no more from June 30. Existing account-holders, of course, will continue to enjoy a rate of interest now 1 per cent above the building society association recommended rate; so if you want to jump on this particular bandwagon you had better move

Just over two years ago I purchased two derelict cottages in Lincolnshire for the total Sum of £3,000. Since then most weekends and holidays I have spent renovating the cottages until I have now reached the stage where they are almost completed. As I live in rented accommodation here in London, it is my intention to move into one of them with my family and sell the other—valued ing a defamatory statement is not responsible under civil law if he addresses it expressly to at around £10,000. Would I be liable for any form of taxation from this sale? Both renova-tions were carried out without the aid of grants. (GS, London, This is because publication

> It would appear that you did not acquire the two cottages for a trading purpose, but rather with a view to making one cottage your main residence. Nevertheless, the possi-bility of the Revenue seeking to assess a profit on the sale as trading income cannot be as trading income cannot be ruled our completely. Certainly the sale of the surplus property will be subject at least to capital gains tax. Your "allowable expenditure" which may be deducted in computing the chargable gain will be re-stricted to the actual sums dis-bursed—that is, there will be no deduction for the notional value of the work carried out by you.

This has been a dreary, rather than a dismal, week, with the FT 30-share index drifting, rather than diving, from 546.3 to 535.8 on malign neglect rather than actual selling.

What can anyone say to those who did not sell on May I (when the index reached this year's high of S97.3) and go away? But nothing stays the same in the stock market, even for a week. We know that things are bad—the question is, are they growing worse? Probably not, or not by much.

The people who complained about a strong pound (because exports were uncompetitive and industry was run into the ground) are the same people who bewail a weak one. Sky-

its oil at \$39.25 a barrel, then a fall in the pound against the dollar automatically increases the Government's tax take. Even a fall in the BNOC price will probably leave the take roughly the same.

If I coupsel you to buy the market in August rather than now, it is because the Government, affecting a studied calm, ment, arrecting a studied calm, is still neglecting to control a money supply now bloated with uncollected tax money. Come the day the striking civil servants go back to work, credit will, one imagines, tighten; but will one imagines, tighten; but gilt-edged yields are already allowing for a 14 per cent mini-mum lending rate, not the present 12 per cent one.

Among engineering shares, it must be admitted that B. Elliott, Staveley, and 600 Group said nothing to encourage the view that a recovery in business is already under way; but Allied Breweries and Bass (which takes in Charrington and Worthington) both reported good profit increases, thanks to a brew of cheaper beers and

lager and cost cutting. It was left to Guinness to report lower profits. It makes too much money in Irish punts, which are not worth as much as

British pounds.

Westland did defence stocks no good by indicating that profits had peaked. The news, in a word, was mixed, and so must be the gnswer to our question; the worst is over, but the best has yet to begin.

A woodcut in Directorium Humanae Vitae, 1489, sold at Christie's, New York, in April for over £6,000.

### **Books** have more than held their own

At the Antiquarian Book Fair eighteenth century, fine bind-last week dealers were citing ings in the early nineteenth, any number of books from every Elizabethan and Jacobean collecting field and century that see The Times of May 26) hap-ped shares in Royal Dutch several times over.

They ranged from Vesalius, De humani corporis Fabrica, 1543, which climbed from £135 in 1935 to £44,000 chis year (a 32,400 per cent increase) to Gould's Birds of Australia, 1840, up from £140 in 1935 to £46,000 (32,700 per cent) and even F. Scott Fitzgerald's The Great Gatsby, published at \$2 in 1925 and now worth \$2,600 in original condition. condition.

Many equally high fliers might have been chosen. But, might have been chosen. But, more important, prices in the book market as a whole have grown at least as fast as shares in Royal Dutch over the period since the mid-1930s—and a good deal faster than shares in

general

In his article in The Times Lord Rothschild compared the increase in value of books in his own collection with the performance of Royal Dutch shares. The 3.300 per cent rise in the share price of Royal Dutch since the 1930s—roughly half of which is attributable to the strength of the dollar and the guilder (in which these shares are quoted) against the pound —is by no means typical of equities generally, the Dow Jones being up by just 670 per cent over its 1930s average and

the FT 30-share index having risen a mere 450 per cent since its inception in 1935.

The portfolio of books which Lord Rothschild quoted was very limited in spread. All 10 periods in the sample were drawn. works in the sample were drawn from 18th century English literature and eight of them were bought during the 1930s when literary fashion was fundamentally rerating this field and prices were therefore high in relation to the rest of

the book market. Moreover, whatever its other advantages, Rothschild is not necessarily the ideal name to go shopping with.

Even bearing in mind the feverish state of the market at the time, dealers recall that the prices Lord Rothschild paid were high. And finally, the present valuation given for most of the books in the Rothschild sample was very conserva-tive and could have understated the real increase in their value by a wide margin. Nevertheless, the overall value of the books which Lord Rothschild quoted has still grown twice as fast as the FT Index.

The book market is extraordinary complicated, for the good reason that there are really as many categories of collecting as there are spheres of human interest or activity. It also has a long history. Serious collecting of incumabula—that is, books printed before 1500—began in the early

eighteenth century. Since then, one field after another has become the focus of collectors' attention, each time producing a sharp rise in prices. Collectors went for Latin and Greek classics in the mid-

had (pace Lord Routschild- teenth, first editions of what was then modern poetry in the 1880s and so on.

The great surge in prices for colour-plate books, travel and topography, medicine, economics and other scientific books dates from the 1950s and

Although every other book seems to be an exception to the group within which it falls, the following broad trends are apparent in the market today. Incumabula are very firm. The history of ideas of all periods, including economics, medicine, philosophy, mathematics and chemistry. Is buoyant despite the cutbacks in Japanese and American spending over recent years.

Bobles and psalters are flat Atlases, colour-plate books and travel and topography peaked two or three years ago; eighteenth century first editions are divided—well-known authors moving up fast; nineteenth century literature and poetry is very patchy.

Modern English first editions (post 1900) are rising steadily, but modern American ones are

A rider must be added to all these statements. Although there is a tendency to look at the market by sectors, it is also stratified according to quality and condition. This means that any book of his-torical or literary importance which is also in pristine state will fetch a record price what-ever may be happening to the other books in its sector.

The mechanisms of the book market work very efficiently. Prices may rise strongly for several years until a resistance level is reached beyond which collectors will not go. Iudeed, they frequently do not need to pay more, since news of high prices soon spreads and often brings a new supply on to the market. Prices may then remain on a plateau or fall back for a time.

Now that the prices of important works in nearly every established field are up in the thousands, most book collectors mousands, most book conectors
who usually display a more
or less manic urge to buy
books, come what may—are
facing an awkward choice.
Either they can sell part of
what they already have in order
to finance further purchases or
(and this is what keeps everyone on their toes) they can one on their toes) they can switch to books in an altogether

The current "hot spots" are reported to be Australiana, gastronomy, the history of cinema, space travel, television and twentieth century philosophy. These fields provide collectors with just as great a challenge, while the present fairly low costs give them far greater investment potential.

Robin Duthy The author is editor of The Alternative Investment Report.

THE aim is growth. Not just good growth, but spectacular growth. Not just for one year, but constantly.

It is our objective to put the Special Market Fund in the list of the top performing funds permanently.

That is a highly ambitious aim, but then this is no ordinary fund. Our method of investment is different from anything you have seen before.

In short, the Special Market Fund is a fresh new concept, perhaps the most original investment idea for overa decade. Here is why.

> THE FUND THAT WON'T BOXITSELFIN.

If you monitor investment pages regularly, you'll know that the best performance tends to come from specialist funds.

The idea of specialist funds is that they invest all their capital in one booming market sector only, in order to stand the best chance of fast growth.

For example, among currently fashionable boom markets are Japan and High Technology. So you'll see a lot of funds entitled Japanese funds, or Technology

funds. As a private investor, you probably find the prospect of these funds exciting. And

wer is that these specialist go on investing your money in those markets regardless—because that's what they have to do. They've boxed themselves in.

This is where our Special Market Fund on the other hand is managed by professionals in the City.

make money if you can always invest in a growing market and not in a declining one. THE CASE FOR LEAVING IT TO

THE PROFESSIONALS.

Of course, as a private investor, you could seek to do the same thing yourself, by moving your money from one specialist fund to another.

There are two good reasons, however, why you shouldn't.

The first problem you'll encounter is one of simple mathematics. Every time you, as a private investor, switch from one fund to another you incur costs.

Usually, it's 5% when you're buying into a unit trust, and a further 5% each time you switch. That is all in addition to the normal management charges.

That's far too much - because in this rapidly changing world, you may well need to switch several times a year.

On the other hand, when we move your money from one growth market to the next as part of our Special Market Fund these high charges are avoided.

The second problem is that it takes a great deal of investment in sight, knowledge and experience to predict when it is right to move into or out of any given market.

Few private investors have the

# Modest late rally by leading equities

After a quiet week's trading the market made a brave comment on the state of Midattempt to end the account on a firm note yesterday.

Prices drifted lower all day but perked up by the close as but perked up by the close as the perked up investors bought for the new account. But the mood is still

despondent with continuing worries of an approaching large rights issue. The rumours that BP will announce an issue refused to go away and many dealers are now looking to a statement early next week, probably on Tuesday, for a loan stock call in the region of 1500m.

The dominating feature of the day was S. W. Berisford's firm against the market trend, swoop on British Sugar to increase its stake to over 35 per cent. Berisford's brokers, W. Shipping shares came in for Shipping shares came in for the market gray. Greenwell, in the market early, picked up 9 million shares at about £30m, some 15 per cent of BSC's stock. Berisford has now extended the offer for another two weeks and the mar-

other two weeks and the market expects victory. British Sugar's shares climbed 22p '3 to 337p and Berisford gave up 5p to 122p.

The gilt market recovered most of the previous day's losses but interest is still slack. Long, having opened £, better, dropped during the day to finish back at a £, up. Shorts opened £, firmer and by the close were up to £1. Dealers will be looking to United States money stock figures out today for indications to United States prime rate movements. prime rate movements.
The FT Index moved up 0.9

to 537.1 by 10 am, but by noon fell 2.8. By 3 pm it had dropped 3.9 to 532.3 but recovered to register only a 0.4 fall to 535.8. The change on the previous account, ending on May 29, is down 6.7. Leading equities drifted easier on the subdued trading interest, but by the close showed a modest rally. The one bright spot was Pilkington Brothers which gained 18p to 311p after results generally at the best end of expectations and a maintained dividend.

ICI firmed up to 280p, Beechams recovered with a 3p rise to 210p, and Bass, after recent results, added 4p to

rose 4p to 364p.

But blue chips to reverse were Fisons, 3p down at 138p, Blue Circle, 2p to 460p, and Bowater, 1p to 261p.

Guinness shocked the market with its warning that they may cut the final dividend payment. Its shares fell 7p to 67p after the news, despite the first-half profits more or less in line with forecasts, to reach a new five-year low. But the brewery sector remained particularly

heavy falls after P and O chair-man's warnings on the future of the industry. P and O gave up 64p to 1254p, and in sympathy, Ocean Transport fell 4p to 130p and Reardon Smith "A" clipped 7p to 131p.
European Ferries, which goes
ex-rights next week, was also
worried with a 42p fall to

Special situations and companies reporting enlivened activity. Further comment on French competition facing Bernard Matthew's turkey empire saw its shares fall 17p to 140p. But the news of an increased holding by Hawley Leisure saw Camrez gain 4p to 441p. The 30p cash offer from Thronwood Group boosted Wight Holdings 5p to 37 p, well above the offer

To establish gross multiply the net pretax and earnings are net, \* Loss. Berec says

Commenting on the figures, Mr David Brooks, chairman, said the company had taken steps to limit the risks of the recession while civil and pro-cess engineering were beginning to see benefits from overseas expansion. He concluded: "I am confident that the group will return to substantially better profits in the current year."

Construction and engineering group WGI saw pretax profits plunge from £2.26m to £349,000 in the year to March 29. Below the line the company made an attributable loss of £74,000 which rose to £547,000 after dividend payments of £473,000. Turnover rose from £45m to £50.3m with civil engineering sales rising from £16.7m to £18.9m, process engineering £18.9m, process engineering from £16m to £18.9m and industrial from £12.2m to The final dividend is 4.3p gross per share making a total of 8.5p for the year against 12p last time. The board intends to make up the reduction if future At the trading level, civil expectations are fulfilled.

The shares fell 7p to 90p to yield 9.5 per cent. Fully taxed earnings per share are down from 16.6p to 2.2p.

# trading

Trading for the first two months of Berec's current year is still poor, warns Mr C. G. Stapleton, chairman of this London-based group which makes batteries, in his annual report. "There are, indeed, some bright spots, but regretizely relatively few". However, the group is determined that when the upturn eventually comes it will hold on to its productivity gains, improved productivity gains, improved labour relations and cost-effec-tiveness such that all of these will be reflected in profits.

#### Lower gold mine dividends

The trend towards lower gold mine dividends was confirmed yesterday by interim declara-tions by Grootviei and Marie-vale two members of the Gencor group. Grootvlei is paying 69 cents compared with 92 in June last year, and Marievale is paying 25 cents against 55 cents. Warrants will be posted on or

faces low demand At the annual meeting of Costes Brothers, the chairman, Sir Richard Meyjes, reported that low levels of demand had persisted throughout the first quarter in the United Kingdom in all divisions, with profits being only marginally above break-even point. However, market shares were thought to have been maintained.

In recent weeks there had been some improvement in levels of orders received, but it was still too early to say with any confidence that this was evidence of a durable upturn in business. It may well reflect some rebuilding of stocks by customers rather than an in-crease in underlying demand,

Chemring slightly ahead at half time

almost steady, ar £380,200, in the half-year to March 31, 1981, compared with £375,700 last time. Turnover was slightly higher, at £1.88m, compared with £1.84m. The interim dividend is being raised from dend is being raised from 2.57p to 3.21p gross. Full-year pretax profits are expected to be marginally higher.

Australian approval of Bowater bid

# Brown & Jackson up on dividend news

ponded well to news of a main-tained dividend for 1980 of 12.86p gross, yesterday, rising 10p to 83p. At one stage, just after the news they went up to

two-thirds drop in the building and civil engineering group's pre-tax profits for the year to December 31, 1980, at £1.42m.

These industries are among the worst hit in the recession here; and the board of Brown & Jackson, jointly chaired by Mr Bryan Duffy and Mr Christopher Bailey, said yesterday that trading conditions continued to be very difficult in the opening four months of 1981. They see no signs yet of any improvement in the

# Reduced loss by

Pretax losses are smaller at John Beales Associated Companies in the past 12 months but there is still no positive sign of a return to profit. Losses before tax were

£338,000 compared with £831,000, while turnover fell by 23m to £13.6m in the year to March 19. Interest charges have also fallen, as expected, from £363,000 to £188,000, while redundancy, closure and reorganization costs in extraordinary items are down from £384,000 to £18,000.

But Mr Gordan Bignall, the chairman, said that the cloth-ing manufacturer could not recommend a dividend. However, he stressed that they would be resumed as soon as the trading position justified such a step.

"In the past six months the trading results show an im-proved trend but there is not yet a truly positive sign of a return to normal margins of profit, he said.

The group's overdraft which last year was £1m has now been eliminated and at the year end

Beales held £352,000 in cash.

a one-for-seven rights issue of convertible savings shares priced at 1,450 lire per share. In the year to April 30 last, Pirelli's net profit more than doubled to 16,000m lire (about 77) from 7,500m lire. £7m), from 7,600m lire. The dividend is being reised from 60 to 80 lire a share.

The rights issue would also be offered to existing conver-tible bond holders, on the basis of five new shares for every 49 of the 13 per cent 10-year bonds held.

onds need.

of two shares for every three Additionally, Pirelli will offer bonds held.

# Konishiroku up by 52 pc

Konishiroku Photo Industry of Japan achieved a 52.9 per saw sales rise 17.5 per cent to cent gain, to 6,314m yen (£14m) 198,583m yen, a pace of inim unconsolidated after-tax profit in the year to April 20.

The sharp rise was mainly due to the commarison with last to the commarison to the comparison with last year's profits, which had fallen a hefty 30 per cent from the preceding year due to a sharp rise in the price of silver, a key raw material in photo-

# Pernod cuts investment

Pernod-Ricard, the French that sales of alcoholic drinks aperitif and soft drink group, were rusaing 10 per cent below cut back its investment progward planned price rises by two months and will not start new hirings in an attempt to coun-teract falling sales

M. Patrick Ricard, group president, told a shareholders meeting that the group's distributors had reduced their stocks to half their normal levels and

# International

The industrial contribution to Messina (Transvaal) Develop-Messina (Transvaal) Development's earnings will be almost 85 per cent in the year to September 30, against about 50 per cent last year, the joint managing director, Mr Peter Whitfield, said in Johannesburg, Total earnings will continue to rise quickly. Attributable profit rose to R22.57m (about £13m) in the year ended last September 30 from R3.5m, but the surge in earnings from its

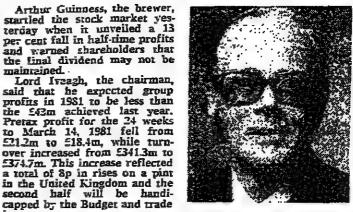

the surge in earnings from its wholly-owned Datson-Nissan group will outpace other sec-tors of the group.

Imetal steady

Consolidated net profit of Imetal of France for 1980 reached 248.3m francs (£22.5m), almost steady with 1979's 248m

francs M. Bernard de Villemejane, chairman, told the annual meeting that 1981 group profits will probably not be as high as 1980 due to a bad start to the year, but parent-company profits should be higher that last year's 98.4m francs.

# Guinness falls 13pc and may cut final dividend

chairman Lord

Brewing contributed virtually static trading profits at £19.2m while general trading showed fim decline to £300,000 because of film losses, which are not likely to be repeated in the second half. Plastics and materials handling also fell from £2.4m to £900,000, with United Kingdom pound which although not quantified at the halfway stage, probably represents a near £2m loss.

The group pointed out that overall trading profit would have been £22m higher for companies outside the United Kingdom if the rates had kingdom if the rates had results, which were compiled

before the onset of the reces-

Bookings in the leisure operation are also suffering and profit slipped £100,000 to £700,000, while the confecrionery operation slipped into losses of £500,000 against £100,000 last time. The Doncaster Nuttall's Minto factory has been closed at a cost of £200,000. On top of that, further closure and reduced to closure and redundancy costs are likely to take their toll in the second half amounting to 52m in the plastics division.

The interim dividend has been maintained at 2.25p gross and Lord Iveagh stressed that as yet there are few real signs of business improving, although considerable action has been taken to radius considerable. taken to reduce costs which will be continued to maintain competitiveness.

"In forecasting the full ear's results one can only remain very cautious and much will depend on the value of sterling against other currencies, particularly the Irish pound and the volume of bear sales in the home market." Lord Iveagh said. Analysis surmised that profits could be down to 239m and the shares fell 8p to 66p after the

# Hongkong shares at record levels

remained the same as in 1980. results, which were compiled

Hongkong shares closed at record levels yesterday after a four-day surge. The Hang Seng index reached 1,780.55 points, beating by five points the record that had stood for eight years.

The breach came after a run given for the more it man level to news that Hutchison Whampoa plans to buy the outstanding shares in four companies in which it already has more than a fifty per cent interest. Although no reason was given for the more it man level.

About half of group sales

First Castle Electronics: Chairman, Mr L. Connor, told the annual meeting that if the group successfully negotiates all the various agency agreements under consideration, Fleetworld (a group company) will have the opportunity to expand its activities dramatically throughout Kurona. natically throughout Europe.

Fothergill & Harvey: At the annual meeting, Mr L. Stevens, the Chairman, said: "The rapidly decilning order intake in the second half of 1980 led to very low levels of output in the first quarter of this year and the half-year result will be poor".

# Cash bid for Wight Holdings

privately-controlled Thornwood group of companies is making a 30p a share cash offer for Wight Holdings, a loss-making Scottish civil engineering company.

However, the shares were 3710, up 5p. in the market last night. The offer values Wight at £654,000, egainst its market capitalization of £818,000.

Thornwood Investments has held 29.8 per cent of Wight for some time, and Mr Alaistair Dunn, the group's managing director and a member of the controlling family, has been a non-executive director of Wight since May 1980. Now Thornwood has topped up its stake in Wight to 41.9 per cent, paying 30p each for the additional 263,000 shares, while the group is bidding for the remainder, through the Eank of Scotland's merchant banking arm, the British Linen Bank.

Wight lost £985,000 pretax in regar to January 31, 1951 casiast profits of £414,000 in 1979-80, and passed its final dividend. Tex credits reduced the 1980-81 after-tax deficit to £594,000.

#### **British Benzol** loss of £2.7m

British Benzol Carbonisina is a shadow of its former self, according to Mr. William Dovie,

Mr Doule was commenting on the latest figures which showed a pretax loss of £2.7m for the year to March 31, against a profit of £774,000 the

Mr Donie reported that the company now had only one production centre making coke md ancillary products and the balance sheet had been weak-

"From this base we struggle to return to profitable trading in a market which shows few material signs of improve-

But he added that there were some encouraging signs and it would be possible to show a marked improvement in results this year.

# Australia likely to tell TCCB they are against 100 overs a day

By Richard Streeton DERBY: Derbyshire drew with

Once the first 75 minutes were chances of a definite result yesterday became even more remote in this match, sponsored by Holts Products. The Australians dutifully arise. closed their innings straight away and Derbyshire then batted out the match. Overall it was an un-satisfactory three days with the dreadfully slow pitch primarily to

By far the most significant octurrence came at teatime when the Australians announced their cide to play Middlesex today at Lord's in their last game before the first Test match at Nottingthe first Test match at Notion-ham next Thursday, Alderman, the fast medium bowler who has begun the tour so impressively, is rested but otherwise the Austra-lians have included all their prob-able Test team. Bright, the orthodox left-arm spinner, is named and either he or Lawson, another fast medium bowler will be the man omitted at Trent Bridge.

Bridge. Everything points to the Australians expecting to include four quick bowlers, which is why they are likely to tell the Test and Coumy Cricket Board this weekend that they do not favour the 100 overs a day experimental rule being used in the Test matches. The Australian tour management and the TCCB are to discuss the implications of the rule now that at last the Australians at Derby have had virtually a full match under its jurisdiction.

The Australians, rather sadiv. Everything points to the Austra-

The Australians, rather sadly, are understood to believe that their four fast bowlers would not be able to fulfil 100 overs within be able to fulfil 100 overs within a normal six bours and that to attempt to do so—or face extended playing time—would hamper their tactical efficiency. (This is apart from the ruffled feathers caused by what the touring party feel was a lack of consultation with them

a lack of consultation with them when the TCCB and the Australian Roard made the original announcement on the subject.)

Over rates are a dour arithmatical subject and the statistical background at Derby was misleading hecause both teams in the prevailing conditions used spin howlers far more than they might usually have done. Yesterday the Australians averaged around 15 and Alderman bowled together, but long spells for Bright and the other slow bowlers gent the rate souring.

The day's quota was reduced to 79 overs after the delayed start and when the last hour was signalled there had been four hours and five minutes cricket in which the Australians had bowled 73 overs. On Thursday three stoppages reduced the required quota to 76

crowd were bemused and dis-Once the first 75 minutes were appointed in equal measure when lost because of overnight rain, the the players then left the field. the players then refer the frequency order as the legislators continue to tinker with the regulations is that further anomalies

Any criticism of the Derby pitch has to acknowledge the ground staff's recent difficulties. It was dug up and relaid last September but was flooded until 10 days ago and the heavy rolling and other work required has not been possible. Lillee's continued progress to full strength was evident when he bowled several overs without a sweater for the first time this tour and was fast first time this tour and was fast enough to rap Kirsten on the thigh twice.

In the circumstances the rest of the cricket was only academic although Derbyshire's cautions approach was slightly overdone. Two examples will suffice: They reached 100 after \$4 overs and Steele batted 41 overs for his 45 not out. Wright, whose first innnot out. Wright, whose first innings 144 will remain the chief memory of the same, was quickly out to a tumbling catch at short leg. Wood was bowled behind his legs, sweeping. Kirsten survived two slip chances before he drove casually at Border and gave short extra cover a catch.

extra cover a catch.

It cannot often have happened that two cricketers in the same match have been recognized in a current honours list. The awards for Lillee and Taylor will bring pleasure wherever both men have played. Lillee's determination in the past to regain complete fitness after his back problem is an example to all athletes. Taylor confirmed on Thursday that technically he remains the complete wicketkeeper and his continued omission from Test play still rankles locally. Within a mooth Taylor should overhaul J. T. Murray's world career record of 1,270 catches.

AUSTRALIAMS: First Innings, 190 for 8 dec 17 Dyson 61: Bowling: Newman, 14.2 328-1; Transviller, 13-3-27-0; Wood, 18-3-41-1; Steele, 9-6-4-0, Miller, 10-2-27-0; Anderson, 18-7-36-4; Kirsten, 6-1-16-1;

cover point and third man but with the score 57 Woolmer, in driving Parsons, failed to middle the ball and fell to a catch behind.

The left-handed Benson was the new batsman and he signalled his imenton by hirting Cook back over the howler's head. Benson's

Clinton: had much to do with Surrey's successful chase for runs.

# Declaration revives a dying duck

THE OVAL: Surrey (17 pts) beat Worcestershire (7) by Jour wickets. A match which had looked a dying duck in the middle of the dving duck in the middle of the afternoon had an exclude finish, Surrey winning with a couple of overs to spare after it had scemed beyond them, and thereby going to the top of the championship. Worcestershire, 130 runs ahead overnight, with all their second innings wickets in hand, declared at two o'clock, the score 168 for two, setting Surrey to make 272 in three and a half hours. This was about four and a half runs to the over. the over.

Since the pitch had been playing easily, this was a generous declaration by Turner. No doubt he had in mind the weather. It did not rain, but the light was often poor. Butcher was caught in the slips in the fifth over. Knight was in next, much depending upon him. He had some anxious moments to begin with, but sertled in and played well. All the same, at tea the score was only 79 for one, after 31 overs.

Afterwards, Knight made a brave effort to get things going. The 100 came up in the twenty-sixth over, and his own 50 in the twenty-eighth, Worcestershire

reison, have agreed to release him in midweek for the rest of the season. If registration formalities are completed in time, Northamptonshire expect him to play against Sussex on Wednesday.

season, is the first fast bowler produced by India- for many years and Northamptonshire have good reason to remember his

good reason to remember his attacking batting. In the open-ing match of India's tour in 1979, he hit 102 off the Northamptonshire bowling in 74

minutes.

#### Kapil Dev joins Competition strong for last Northants to **England** batting place play in midweek Kapil Dev, aged 22, India's leading all-rounder, has joined Northamptonshire. He signed a two-year contract yesterday and Nelson, his Lancashire League

By John Woodcock Cricket Correspondent

By John Woodcock the Australians would see it as Cricket Correspondent being in quite the spirit of the occasion to find someone with Proctar's background lined up Thursday will be announced to be selectors; next season. Peter May it taking Bedser's place—a today's Birthday Honours) succeeding another—though I imagine May will want to baye Bedser on the committee with him.

In tomorrow's side there appears to be seven committee the seven committee with him.

In tomorrow's side there appears to be seven committee the seven co against Sussex on Wednesday.
Northamptonshire have been hard hit by the absence of their leading fast bowler. Sarfraz Nawaz, with a knee injury. Kapil Dev, who rejected an offer to join Middlesex in the close season, is the first fast howler.

In tomorrow's side there appear to be seven certainties: Boycott and Gooch to open the innings, Gower to bat at No 4. Botham to take a higher place in the order than he has done, Downton to keep wicket, and Emburey and Hendrick to howl. Willey will get in, I imagine, and also Dilley if he is fit, although he has taken only five first-class wickets this season.

This leaves a batsman to be found, and another bowler, pre-

found, and another bowter, pre-ferably an all-rounder, though with the exception of Proces-there is not one good enough. If Procter, now that he is eligible to play for England, seems too good piay for England, seems too good to be passed over, he does not. I think, expect to be chosen, though the challenge might appeal to him. Fine cricketer that he will is, he is, at 35, no more than a part-time fast bowler. Apart from that, I hardly think

The competition for this list batting place is strong. Mendis and Parker, both of Sussex, should have a Test future, and there would be no harm in having the left-handed. Alsa Butcher, of Surrey, coming in in the upper order. Woolmer must also have a chance, perhaps even Randall.

As to the last bowler, he will, I imagine, be of the faster type, and from the older school. Of the younger ones, only Allott, besides Dilley, can be anywhere near, and he is not ready yet, We seem to be back to Willis, Old and Jatkman, of whom Jackman would be the least likely to break down, Willis the likeliest to beat someone for speed, and Old with swing. Miller may rate a reference, as might Knight and Barry Wood. A second side could be chosen, made no of over thirties and capable of giving those who play a close run for their money.

outgunned the Tanner arsenal vived one match point, all was A curious incident marked the A curious incident marken the contest between Teacher and Peter Rennert, yet apother American, on an outside court. Rennert, a medium-sized man with a piratical beard and a shock of hair held in place by a red headband, lost the first set 1—6 and was serving 15—40 down with the score 4—4 in the accord.

Sadri outguns the man who had

By Jerome Caminada
John McEuroe, Brian Gottfried,
Brian Teacher and John Sadri, ali
Americans and sceded first, third,
fourth and fifth respectively, yesterday reached the semi-final
round of the Queen's Club tournament sponsored by Stella Artois.
The surprise was Sadri's quarterfinal victory by 7—6, 6—1 over
Kevin Curren, the South African
who had beaten Roscoe Tanner
on Thursday.
Just as Curren had outgunned
Tanner's service arsenal, 50 Sadri 40 down with the score 4—4 in the second.

With two break points thus against him, he was suddenly footfaulted by the centre line judge siring at the other end of the court, about 85 or 90 feet away, for serving on the wrong side of the centre line. This cost Remert the same and he lost 1—6 4—6 Tanner's service arsenal, so Sadri outgunged Curren with his seroriginate current with a service. A ridy-looking figure on court. Sadri, who is 24 and comes from North Carolina, wound himself up on the baseline and with heavy grunts blasted the the game and he lost 1-6, 4-6. the game and he lost 1—6, 4—6.
After the match Teacher said he had both before and during the play asked that his opponent be watched because he was known to be liable to such a fault. Rennert, for his part, declared he had never been foot-faulted in this way before and to have this happen when he mad at hereal wift. and with heavy grunts hissed the ball at, and past, Curren.

The first ser was tight enough until the tie-break, after which there was no holding the American. He won the tie-break 7—2, scoring one ace with one first service and another with a second service and another who a second service.

In the next set Curren began to fade, and held only one service. Sadri, flowing now with confidence, twice deceived his opponent in the seventh game with deft, short returns to the sideline; and though Curren surpen when he was at break point was " a terrible call." If he had been prope to this error, he found it hard to believe that this was the only time he made it.

McEuroe's step into the semi-final was at the expense of Hank Pfister, an American who is

affair was punctuated by the now familiar expressions of outrage by McEnroe over "noises off", as McEnroe over "noises off", as one might say; and by at times a running commentary directed by him at the umpire, who early on issued a warning. Pfister, too, had complaints, ungraciously made about the crowd.

about the crowd.

In this rather unpleasing atmosphere the first set went to McEuroe, 6—2. But Pfister was tenacious over every game in the second. With his opponent leading 6—5 Pfister had to serve to save the match but, after a spasm of anger because of a disturbance on the stand behind him, he was 15—40 down. He saved these two match points but could find no aces and finally put a simple return in the net. return in the net.

Edwards was later beaten 6—3, 6—3 by Gottfried, who meets Sadri in the semi-final round today.

Oddy.

THIRD ROUND: B Teacher (US. beal J Austin (US) 6-4, 6-1; B Remert (US. beat S McCaln (US. 6-4, 6-1; B) 6-3, 6-4; E Edwards (6A) beat P Dent (Australia) 7-3, 6-5; B Golffied (US. beat J Fitzaerald (Australia) 6-7, 6-3, 7-3, Cocker beat Remert, 6-1; Sadri (US. beat K Cutten (SA), 7-5, 6-1; J McCance (US. beat H Philar US. 6-3, 7-5; Gottfried beat Edwards 6-3, 6-3.

### Miss Barker yields after brave fight

Tennis Correspondent
Martina Navratiova, Wimbledon
champion in 1978 and 1979, took
an hour and three-quarters to
beat Susan Barker, 6—4, 6—7,
7—5, in the Surrey grass court
championships—improbably sponsored by Dickie Dirts, who have
something to do with Jeans and
shirts—at Surbiton yesterday.
Miss Barker is six months the Mies Barker is six months the older, more than two stone lighter and 19 places lower in the rankings. Yet she had a break point for a 4-0 lead in the first set, won the second from 1-3 and break point down, and had five points for a 5-3 lead in the third. She looked brave but relatively fragile as she blasted away from the baseline while the muscular, yet agile, Miss Navratilova charged the net and assaulted with booming volleys or overbeads.

The contrast in looks and play-Miss Barker is six months the The contrast in looks and play-

The contrast in looks and playing methods was part of the fun. Less predictable was the fact that neither Miss Navratilova's service nor Miss Barker's forehand was decisive. Miss Navratilova was on target with 57.7 per cent of her first services, but would not have won but for her testing service returns (which she often followed to the net), the strength and defu-

In the first two sets Miss Barker's exciting forehand won her more than twice as many points as it lost her. It was a tribute to the rest of the game, notably her service and her backhand that she came so close to winning the third Miss Barker began the match by hitting winners while Miss Navratilova was taking the measure of Miss Barker's services and forehands. Then Miss Navratilova won five consecutive games and, won five consecutive games and, in the second set, broke to 2—1 and came within a point of a further break to 4—1. But Miss Barker, treating the stress as a tonic, won four games out of five, conceined only two points in the tonic, won four games out of live, conceded only two points in the tie-break, and in the third set, broke to 3—2 by smartly exploiting a loose service game.

Miss Barker missed two obvious chances to consolidate her advantage. With Miss Navratilova serving at 2—4 and 30—30, Miss Barker won the play for position but mentally froze on a short return and, instead of putting it away, gave Miss Navratilova a chance to pass ber.

Even more prodigal was Miss Barker's response to the last of

ness of her racket control, her superb volleying, and the mobility that gave her resilience in defensive situations.

In the first two sets Miss Miss Navratilova should now Miss Navratilova should now have a comparatively easy run to the £3,500 first prize because the three other contenders, oil Americans ranked between 37th and 73rd in the world. Of these only Barbara Hallquist was taken to three sets yesterday, by Laura DuPoot. The pairings in today's semi-final round are: Diane Desfor w Miss Hallquist and Betsy Nagelsen v Miss Navratilova.

FOURTH ROUND: M Navratilova.

#### Show jumping

#### A little wiggle is Britain's big stumbling block

From a Special Correspondent Longchamp, June 12

At the end of the two-round Nations Cup here yesterday Britain were in third place with 73 faults and Netherlands and Switzerland, with four faults apiece, went on to a jump-off against the clock over a shortened Willi Melliger on Trampf Buur

(Switzeriand) opened the jump-on with a clear in 42.25sec; Emiel Hendrix on Livius (Netherlands) countered, clear in 41.82; Max Hanri and Beethoven (Switzerland) cleared in 43.95 and Rob Ehrens (Netherlands) on Koh-I-Noor was clear in 41.36.

So when Thomas Fuchs of Tulis Lass and Bruno Candrian of Switzerland both had four laults each despite fast times, Johan Heins (Netherlands) on Larramy necued and got, merely a slow clear (49.13) to clinch the deal. Neher-lands's discard, since only the top three of the four-horse team scores count, was Henk Nooren on Opstalan's Orpheus, who had eight "We wer close, but not close

"We wer close, but not close enough", the British team manager, Ronnie Massarella, said. "A little wiggle or a touch and it makes the difference". The little wiggle came form Liz Broome's Everest Forever, who uncharacteristically refused fence five, at upright of poles, in round one. "He didn't take off", she said. "An expensive time in do it". expensive time to do it

Forever jumped clear in round two, as did David Broome's Mr Ross, who had fence five down in the first round, and Harrey Smith's Sanyo Sammar, who jumped one of only five double clears in the whole competition. "Not bad, was it?" Smith said, modestly.

France, who surprisingly fluished only fourth on their home ground, remain in the lead for the President's Cup with 16; polots; Switzerland are second with 15 and Britain third on 13. SOCIETE GENERALE: 2. Tabac Original (Devid Broome, GB:, clear, 25.73 esc. 2. Samy (Pierre Delcouri, Belgium:, clear, 26.95. 3. Sany Super GBI (Hervey Smith, GB), clear, 27.04. #### Crosby wins at a whirlwind pace

Graeme Crosby, the New Zea-land rider, picked up £10.500 in prize money for his win in yester-day's Isle of Man TT—the main and final event of the Manx meeting. Crosby, riding for Suzuki, led throughout the six-lap 226-mile race. And he set a searing pace, averaging a record 113.58 mph with a best lap at over 115 miles The lap record is still held by

the Usterman Joey Dunlop—win-ner of the race last year—with a second lap at 115.40 mph, almost two seconds inside the record he set in 1980. Dunlop (Honda) chailenged briefly for the lead but later retired, leaving Suzukis to dominate the race. They finished in first, second and fourth and firm places. One rider was injured. Peter Davies from Kings Heath, Bir-mingham, crashed on the fast

mountain stretch and was taken to hospital by helicopter. Race officials said: "Davies has multiple injuries but his condition is not critical."  Rowing

#### Baillieu makes overseas bow in single sculls

From Jim Railton
Ratzeburg, June 12
By good fortune, a full men's and women's British team has arrived here in Ratneburg, a few miles from the East German border, for the 25th international regatta which will be contested by 10 nations. The last half of the team left Heathrow this morning on one of the few flights undisturbed by Industrial action. The sun is even attempting to shine and there are no visible signs of rust in the British team yet; just and there are no visible signs of rust in the British team yet; just a suspicion of a few creaking joints a suspicion of a few creaking joints
after the first international in
Mannheim a month ago.

Britain's haul there was modest,
with two victories by the London
University lightweight four and
an important scale for the single
sculler, Beryl Mitchell, Ratzeburg
provides the British with the

opportunity for some new scars inflicted on Mannheim's Muhlau-hafen dock course to be quickly

haien dock course to be quickly healed.

The world and Olympic bronze medal coxless four—London Thames Tradesmen—received defeats by Czechoslovakia and a young four from Osnabrutk, West Germany, in Mannheim. The British four, with the Olympic and world medal winner, Jim Clark, now on board, meets both these crews here, and will be seeking revenge in this tough event.

Osnabruck and the Czechs also beat the British heavyweight eight in Mannheim, and challenge here again in the premier event. The British women's eight, however, have travelled over for one race tomorrow against one opponent tomorrow against one opponent from West Germany, with only themselves entered for Sunday's

Chris Baillieu makes his first overseas international appearance tomorrow in the single sculls after a distinguished career in the double, in which he collected one double, in which he collected one gold, two silver and three bronze medals, in European, world, and Olympic championships, and an OBE to boot. It will be an interesting test for him against the former world champion, Kolbe (West Germany). Svensson (Sweden), Olympic bronze double scullers Pecka and Vochoska (Czechoslovakia) and the outstanding world lightweight champion, Warlich (West Germany).

Miss Mitchell looks set for victory in the single sculls after de-

feating the single sculls after defeating the Soviet Olympic silver medal winner, Makhina, in Mannheim, and the British lightweight will be keen to open their international account with victories here. Good results, too, will be expected from London Ille. be expected from London University lightweight four, the Kingston coxed four, and the young composite quadruple sculls with world junior silver medal winners. Redgrave and Clift, on board. Add to that the women's double sculls.

Ayling-McNuff, and optimism

#### Odds are against Emmanuel

Lady Margaret Boat Club were again untroubled by Downing on the third day of the Cambridge University Mays yesterday, while Emmatuel moved upwards, although not jumping on to Jesus until coming out of Ditton Corner, lengthening the odds on their winning their oars today. The next two bumps also were between Ditton and the Railings, so Trinity Hall too are after a fourth bump. Although Clare came to within five feet of 1st and 3rd Trinity at the start of the Reach, they could never find a Reach, they could never find a final "ten" and the gap was still the same at the finish. the same at the finish.

The bottom six men's divisions all went smoothly but in the second division, Clare II hit Trinity Hall II after the latter crabbed going into the Gut. The boats inter-locked, Trinity Hall ending with their bows on the bank and their stern smashed. Sidney Sussex II following were unable to stop in time.

Today the women row at 11.15 and 12.0, followed by the men at 45-minute intervals until 6.0.

# Shepherd has a last word in the game of forfeits

By Peter Marson

TUNBRIDGE WELLS: Kent (1 maidens and the wicket of Taylor. pt) drew with Leicestershire (3).

As kent futured at 148 for six It was with some relish that he yesterday. Shepherd came to the cut Taylor and Parsons to the cut Taylor and Parsons to the present to crant to crant to crant to crant to crant to come to come to come to come to the cut Taylor and Parsons to the cut Tayl shire and victory with an admirable innings of 56 not out, made in two hours. Dilley, too, played his part in a stand for the eighth wicker worth 63 in 87 minutes.

With the second day lost to rain common-sense had a part to play in brigging about a purpose.

play in bringing about a purpose-ful conclusion to the match. Loicestershire, who had made 288 for four at the close on Wednes-day batted on for three-quarters of an hour wherein 20 runs were added for the last of four wickets added for the last of four wickets before Tolchard, by declaring, made the first gesture. Asif responded by forfeiting Kent's first latings whereupon Tolchard then threw out his challenge with the forfeiture of Leicestershire's second innings.

Kent's target was 309 to win 1305 minutes.

It was, perhaps, fortinate that the award—a video recorder—did not carry with it a recording of the bacaman's innings yesterday, for Benson had barely got to grips with the bowling before Steele bowled him. That was with the score 89 and when Tavare moved on the back foot to fashion an bugginly stroke. Cook knocked his off stump askew at the same score. in 305 minutes.

Underwood, who had polished off Boon and Agnew in six overs for two runs, made the ball bite and turn quite sharply, and with Taylor offering a liberal supply of no balls at one end, Tolchard was soon to replace him with Parsons and bring on the first of his own left-arm slow bowlers, Cook.

At luncheon Kent's target was 271 runs with Woolmer 26, Tavaré 2, but Cook had already issued

# Greenidge aids Hampshire

The West Indies opener, Gordon Greenidge, scored his first century of the season yesterday and carried Hampshire to their first championship win, when they beat Glamorgan by five wickets with 13.4 overs to spare at

Bournemouth.

Greenidge hit two sixes off Outang and 10 fours in his 115, made in 143 minutes, after Hamp-shure had been set 299 to win in nearly five and a half hours. Greenidge and Tremlett. who scored 52, pur on 180 for the first wicker Hampshire's best first wicket, Hampshire's best opening stand against Glamorgan. Pocock had forfeited Hamp-shire's first innings and Nash declared at 17 for three after 10 overs from the infrequent bowling of Turner and Pocock. Greenidge raced to 100 out of. 158 in just fuer two hours. Although wickets fell to the spin of Hobbs, Turner and Pocock put on 49 for the fifth wicket and Cowley saw Hampshire home.

Gloucestershire, with memories of setting targets for Northamptonshire and losing—as they did twice last season—decided not to be caught again at Bristol. After putting on 82 with Hignell for the fifth wicket. Procter declined to declare. Northamptonshire had re-duced them to 85 for four and although they had a chance to come into the game when Willey removed both Procter and Hignell after lunch, they lacked the penetration to press

As Graveney and Brain came together for a ninth wicket stand, which was to be worth 84, North-

amptoushire realized the way the game was going and used all their occasional bowlers. This devalued Graveney's first championship hundred; he was 105 not out at the end, having hit a six and 15 fours in a total of 363. Warwickshire settled for against Lancashire at Old Trafford finishing with 218 for four after being set a formidable target of

342 in 275 minutes. Warwickshire scored the first 100 at a run a Atlore, the country's leading wickettaker, slowed them down with two wickets in successive overs. He had Amiss caught off a full blooded drive by Hayes at mid-off and then trapped Lloyd leg-before. Humpage scored a confident 81 not out to steer War-

# Job takes Norman's tip and shares lead

By Mitchell Platts By Mitchell Platts

Nick Job compiled a 66. four under par, to share the halfway lead with Bernard Gallacher (69) after the second round of the £42,000 Greater Manchester Open, sponsored by Cold Shield, at Wilmslow yesterday. Job and Gallacher, the first round leader, finished with 36 hole aggregates of 134 and a lead by one stroke from lan Woosnam (67) and Peter Tupling (68) with Nick Faldo (69) one stroke further back. Enb Charles, of New Zealand, and Autonio Garrido, of Spain, share sixth place but even so there was an international flavour at the top of the leader board as Job unveiled the revelation that he has been swinging the club the wrong way ever since he took up the Essie.

Job explained that he had found

Job explained that he had found out an elementary error following a chance remark by Greg Norman, the Australian, two weeks ago and that since then he has worked harder than ever on the practice grounds with John Blaud, a South African, and Baldovino Dassu, an Italian, to change the plain of his swing.

ving. Norman told him at the Duniop that he Morman told him at the Dunlop Masters two weeks ago that he was addressing the ball too far off the back foot. "I was ready to listen to Greg about anything." admitted Job. "He out-drove me hy 70 yards when we both took irons for our rec shots at the first hole at Woburn and in the two hole at Woburn and in the two days that I partnered him I only won the honour once—at the 36th

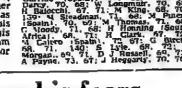

That remark led to Job discovering that rather than pivoting he had in fact been tilting—an elementary error which apparently has failed to come to light because his fellow professionals have always insisted that there was absolutely nothing wrong with the way he swung the club. So Job, who has never fluished higher than 27 in the order of merit, has always considered that it was his mental approach rather than his technique which stopped him from making a serious challenge for tournament victories.

Gallacher: momentum lost.

In fact, the closest he has come to winning since he was successful in the Victoria Falls classic on the South African circuit was ironically in this tournament in 1978 when he lost a play off to Briain Barnes at the first extra hole. He was honest enough to admit after yesterday's 66 that if he is to win it could be because of a new putter which worked well on the greens as he holed from between six and 12 feet for his four birdies and from 20 feet to save his par at the fourth. However, he is also well fourth. However, he is also well aware that the new swing on which he has been working so hard should stand up better under presshould stand up better under pressure and so there is every chance that he will make a prolonged challenge for the £7,000 first prize.

Gallacher resumed where he left off on Thursday with a birdie at his first hole and when he moved to seven under par overall with another birdie five holes later, it appeared likely that he would show a clean pair of heels to the cutire field. However, he lost his momentum and in the end he settled for a 59 which allowed Job to tie the lead late in the day. Qualifiers:

# Norman allays his fears with spectacular eagle

From John Hennessy Harrison, New York, June 12

Harrison, New York, June 12
Greg Norman, whose platinum Australian thatch is such a distinguishing feature of the European golf circuit, seemed to have put an end to fears of not qualifying for the last two rounds of the Westchester Open here today when he achieved a spectacular eagle three at the difficult ninth hole, the only one so far recorded in the hole field.

In cold figures it should be a sitting duck for professional golfers, only 505 yards from tee to green. But that green sits on rising ground and the golfer, way down there on the fairway, seems an impossibly distant figure for it to be in range. Norman, who must now be among the top half-dozen hitters in the world in terms of both length and accuracy, waited for the green to clear while his playing partner elliphed the bill in pursuit of a second shot that lacked his applrations.

Norman took a three wood and.

was a little off line and was faced with a difficult little pitch of about 30 yards out of what looked like a cabbage patch and over a bunker. He judged the shot to perfection, and after a couple of little bounces the hall rolled obediently into the hole. It was a coup that could not have come at a better time. Until then Norman had been struegling on a course that did not suit his special talents. It is a little on the short side. 6,603 yards, and the fairways dip and twist and rise to a number of blind targets. It is a course that calls for finesse.

for finesse.
For the second day running the short apening hole, 192 yards, had cost him a four and this time the

second short hole going out, the sixth (133 yards), also found him out with three putts. But a 10-footer stole a stroke from the second and another from seven feet mastered the long fifth. After par, he stood in danger of missing a first-round score of 76, five over the cut, but that assault on the minth, we thought, changed all that. But as on the first day, he faltered over the second half of the course, and dropped six more strokes to finish with 75 and a two-round total of 151. This seems likely to miss the guillotine by at least three strokes. atting duck for professional golfers, only 505 yards from tee to green. But that green sits on rising ground and the golfer, way down there on the fairway, seems an impossibly distant figure for it to be in range. Norman, who must now be among the top half-dozen hitters in the world in terms of hoth length and accuracy, waited for the green to clear while his playing partner climbed the hill in pursuit of a second shot that lacked his aspirations.

Norman took a three wood and.

Norman took a three wood and though he had the distance, he was a little off line and was faced with a difficult little pitch and should be a difficult little pitch and should be a difficult little pitch.

Meanwhile from Merion comes a little with of the side with start with little pitch and should be a difficult little pitch.

eight miles from me at Lapford."
he told me.
"I bought him after judging him at Tiverton as a foal." Gillian Mainwaring had him only nine weeks ago to break. He had come to hand quickly, largely because of his superb temperament, and she will show him in four-year-old classes at the Three Counties next week, then at the Royal, the Great Yorkshire and the Royal International. Although he is sufficiently well bred to go racing, Badminton is more likely to be his destiny.

he is sufficiently well bred to go racing, Badwinton is more likely to be his destiny.

Devon breeders swept the board when Mr and Mrs Reg Burrington were runners up with their bomebred bay three-year-old Helwell Boy, by Graham Heal's North Nevon premium horse, Hubble Bubble, a massive colt who went on to win the Lloyd's Bank quali fier. The family will have their hands full at Wembley in October, for their brood mare and foal won the Exeter qualifier. Reserve was Mr and Mrs A. L. Master's pony brood mare, Twylands Fiesta, most successful in the West country since her owners bought her as a yearliob.

Stephen Hadley and Sunora with Stephen Hadley and Sunora won the Radio Rentals Stakes with the Radio Rentals Stakes with two clear rounds, the second of which was 1.3 sec faster than that of Sally Mapleson on Beverage. Among those to finish down the course was John Whimker riding Novalheiro, the Portuguese horse who won here on Thursday.

Change of allegiance Bill McCarron, who has competed for Northern Ireland, and Ken Atkinson, an Englishman, are in the Republic of Ireland team for the decathlon international in Zug, Switzerland, on July 11 and 12. McCarron has switched allegiance because of his failure to make the British team. Atkinson gets in because of his Irish parentage. Brendan Curtin and John Shoohan

#### Making up on Toyota Streamline

By a Special Correspondent On the second day of the South

of England Show at Ardingley, Paddy McMahon, who has re-cently entered into a sponsorship deal with Toyota (GB) Ltd., who are sponsoring three of his showjumpers over a three-year period, rode the 14-year-old Toyota Streamline to victory in the Texaco Challenge Stakes. He had the fastest clear round in the jump-off and collected the first prize of £300.

This success more than made up

of £300.

This success more than made up for the disappointing display of Paddy's star performer, Toyota Tigre, in an earlier event. Tigre has never liked heavy ground and he showed his distaste for it by refusing at an early fence in the Accumulator competition. He was however, in good company. Fred Welch also had a refusal on the reliable Rossmore II. So did Brian Dye on Kingsbridge in the 18-horse jump-off, which was brilliantly won in the sticky conditions by the first pair to go, Nick Skelton and Wallaby.

Mr and Mrs John Keen's seven-year-old grey, Duke of Newcastle, a prolific winner of hack classes last season, was a worthy winner of the Hack Championships, in which he was shown by Jenme Loriston-Clarke, as John Keen, who had won the small hack class on him, was judging the cobs in another ring. A real little workman, Duke of Newcastle, who stands no more than 15 hands high, has been munted in Hampshire with the Hambledon, won Foxhumer competitions and taken part in long-distance rides.

Somewhat incongruously, some may think, the Parkwood Supreme

part in long-distance rides.
Somewhat incongruously, some may think, the Parkwood Supreme Horse Championship, judged by a panel who included Dame Vera Lynn, went to Mrs McDougald's team of bay hackneys, the winners of the Coaching Championship. They were driven with incomparable skill by Mrs Cynthia Haydon.

# Ukraine Girl to raise a broad Irish smile

From Desmond Stoneham French Racing Correspondent Paris, June 12

Paris, June 12

Irish-bred fillies look set to dominate the Prix de Diane de Revion (French Oaks) at Chantilly on Sunday. My preference in the classic, which is run over 10 furlongs and a half, is Mrs Jim Muliton's Ukraine Girl, the mount of Pat Eddery. She will have to be at her best to hold Greville Starkey's partner, April Run, Tootens and the Italian-trained Val d'Erica, who will be cidden by Peo Perlant.

All four fillies began their lives

Peo Perlanti.

All four fillies began their lives in Ireland and all have adequate enough credentials to take the 800,000-franc first prize. Also in with a chance is Madam Gay, who will be ridden by Lester Piggott for the Newmarket trainer. Paul Kelleway.

Utraine Gid is wat the action.

Kelleway.

Ukraine Girl is not the easiest of rides as she has to be settled down during the race and brought through in the final stages. On two occasions in her career Ukraine Girl has pulled her way out of contention and run helow her best. The first was in the Prix Marcel, Rouge a lact Occasions. Marcel Boussac last October and the latest in the Prix Imprudence where she fluished second to Layalina.

But the filly has brilliant acceleration, as was demonstrated with victories in the group III Prix d'Aumale and this year's Poule d'Essai des Pouliches (French 1,000 Guineas). The distance should be no trouble accepted. tance should be no trouble as Ukraine Girl worked the full trip

over the course 10 days ago with several useful colts from the Jacko Cunnington string. She wan the Gallop easing up.

Gallop easing up.

April Ron is all the rage at Chantilly for the moment. Trained by François Boutin, who also saddles Bernica and River Reef in saddles Bernica and River Reef in
the Diane, April Run holds virtually all her opponents on the
form of the group III Priz
Cleopatre. This she won by three
lengths from Landresse and
Leandra having made virtually
every yard of the running.
Philippe Paquet would have been
on the filly but he has a couract
with Stavros Marchos and will be
on board Bernica. So Starkey on board Bernica. So Starkey became Boutin's last-minute choice. Bernica is no slouch either but must have good ground to show her true form. She won the Prix Vanteaux from Deriy, Asania and Tootens but ran poorly on heavy ground in the Prix Saint-

Alary.

Charity day may not reward Composer's supporters Racing Correspondent

Racing Correspondent

Today is the 11th anniversary of the successful annual Timeform charity day at York, which has already raised half a million pounds for cancer relief and other charities. Sir Michael Sobell, the presidem of the Rational Society for Cancer Relief has sponsoned a race on every day so far and has once again shown his generosity. He has given the prize money for the Michael Sobell Handicap which ought to be won by Shaftesbury now that the ground is fast. That is essential so far as this horse, who won the Ebor Handicap over the same correspondent. August is concerned.

had her training interrupted by a bout of conghing and so went into the race short of work. Fully fit in the Saint-Alary, Tootens swept into the lead a furlong our and essily accounted for Tropicaro, Last Love, Assita, Asania and-Bernica. All but Tropicaro are in the Prix de Diane lim-up on Sanday. The William Hill Trophy is much more open and the problem is made more difficult by the fact that five of the rungers, Chaptry Bridge. Composer, Hexgreave Star. Praetorian Guard and Sanu have all run against one another already this season over today's course and distance. Performances this spring point to Composer winning today's 'prize but instinct says Hexgreave Star and the weights today certainly seem to 'favour Hexgreave Star. He is trained by Mick Easterby, who is always to be feared on occasions like these. What Nicky Carlisle drawing a Sib allowance, Hexgreave Star will be meeting Composer on 101b better terms for the half a length that divided them before and Chanry Bridge on 24th better terms for three and a half length. The William Hill Trophy is Susanna is a filly I like very

much but I have to wonder whether she is up to beating Majieda in the Vernon Fillies' Stakes. Majieda finished third in the Virginia Water Stakes at Ascot last July and nothing that Susanna has accomplished so far can match

Lester Piggon has chosen to make Sandown Park, his meeting today for the second day in suc-cession and he should keep his cession and he should keep his supporters happy by winning the Rosemary Majden Fillies Stakes on Northern Chance and the Ideal Two-year-old Stakes on Cavallerizzo. Northern Chance's form at Newmarket and Ascot stands up to scrutiny, but no none will get very rich by backing Cavallerizzo who overcame a slow draw to win at Epsom last week.

Ginst Castle, an old favourite at

at Epsom last week.

Gipsy Castle, an old favourite at Sandoyra—be has won there three times already—ls due to return for the Imber Handicap, but now that John Dunlop's stable seems to have weathered the virus. Honey Baron should be an even better bet. He beat Rabdan, a winner at Epsom recently—at Lingfield Park at the beginning of May before Dunlop decided to close down for a while and give his horses time to rid themselves of their affliction, a slow start to the season for much the same reason, is Blewbury, belonging to Fulke Johnson Houghton. Mumruffin, the winner of the June Fillies Stakes at Sandown Park yesterday, was only his seventh winner this year. However, the way that she waltzed ever, the way that she waltzed away from her opponents yester-day indicated that more successes

are likely for her, at least The was a Satisfactory result for the Overbury stud in more ways that one because, not only did the breed yesterday's winner; they also bred her sire Momeny's Re and her dam Java Sparrow.

The training honours of the drivere shared equally by Michael Stoute, who is the man of the moment, and John Benstrad, with yet another important week looming large on the horizon, the dominated by Royal Ascot, Stome can only have been thrilled by the way that his young jockey, Walter Swinburn, won the Primola Crisphread Handicap on Montclair and the Hwfa Williams Handicap or Broad Principle.

bread Handiczp on Montclair and the Hufa Williams Handicap of Broad Principle.

Last week Swinburn said that he was simply a passenger on the Derhy winner, Shergar, and indeed, to many Shergar did give the Impression of simply being a steering job. But that was not the case on either occasion yesterday, because Swinburn had to summon not only all of his strength but his horse's resources as well before he was sure that victory was in the bag on both occasions. Each nime he gon both occasions. Each nime his judgment was flawless and each time he looked a champion of tomorrow. Benstead landed his double by saddling We'll Meet Again and Welshwyn to win their respective races. By winning the Aington Stakes in spite of being in season Welshwyn hooked her ticket to Royal Ascot next Thursday for She was given a lovely sympthetic ride yesterday by Bria Rouse in view of her condition by Sympa

# Sexton goes back to the graveyard of his dreams in August

By Norman Fox Football Correspondent

pression so far, it was no surprise to find that yesterday the Fontball League's computer began work on next season's fixtures. Summer not having much imwork on next season's fixtures. For the first day, August 29, it produced a mischievous list with Dave Sexton's new team, Coventry Ciry, meeting his former Manchester United side at Highfield Road.

United sacked Mr Sexton six weeks ago despite the persuasive way he led them to seven successive wins towards the end of the to provide entertaining, commercially viable football. Perhaps he would have preferred to be given a little longer in charge of Coventry before trying to show United that they were mistaken.

that they were mistaken.

Provided there are no further complications in the matter of compensation, United's manager in August will be Ron Atkinson, who has signed their contract while still contracted to West Bromwich Albion. His introduction includes early home matches against Nottingham Forest and Ipswich Town before a visit to the champions, Aston Villa.

The computer amused itself by arranging for the newly promoted Notts County to play their first first division game in 71 years at Aston Villa, appropriately since both were founder members of the League.

the League.

Inswich Town, the most enter-taining team last season, begin at home to Sunderland. Here, too, there is a him of trony because Sunderland were keen to lure Robby Robson to Roker Park. If Liverpool are to challenge Inswich and Villa next season they will have an early chance to assess

#### Leeds willing to pay £350,000 to re-sign Jordan

Leeds United have made an offer to Manchester United for heir Scottish international offer to Manchester United for their Scottish international striker. Joe Jordan. Leeds are prepared to pay £350,000 for Jordan, the same fee they received when they sold him to United in January 1978.

United have told Leeds that no move for Jordan will be considered until their new manager Ron Atkinson has had discussions with him. Jordan, who is on a Far East him. Jordan, who is on a Far East tour with his club, is to have talks with Mr Arkinson about sigung a new contract on his return. He a new contract on his return. He is asking for £1,000 a week.
Martin Wilkinson, the Leeds
Assistant manager, said yesterday: "Jordan fits our number one priority which is a powerfully built target man. His power and aggression up front would help the type of players we have at the club."

To Zurich Grasshoppers have signed the Austrian international Kurt Jara from the West German club Schalke (4 on a two-year contract.

Mike Bamber, chairman of Brighton, said last night that his club manager, Alan Mullery, was leaving by his own choice. Mr Bamber said on the telephone from Spain that, after a "friendly and informal" meeting at the club yesterday morning, he had heard that Mr Mullery was to leave. He said he was "shocked Mr Bamber said that also present at the meeting were the club directors, Tom Appleby and Dudley Firen, "It was not a stormy meeting: It was very friendly and informal, in fact. We just sat around and had a cup of coffee and a chat, "Alan was asked by one of my colleagues if two of his coaches could take some players for extra training in the afternoons next season, which seemed a perfectly reasonable request. Alan took some umbrage at that but there was no major excitement and at the end of the meting we shook hands and wished each other a good holiday.

"I have since learnt, while en route to Spain, that he then went down and told everyone, he was leaving. I am shocked and absolutely amazed. But I will not stand in his way If that is what he wants.

"You live and lern in this no miracles at Roker Park stand in his way if that is what he wants.

"You live and lern in this funny game and I can only pre-sume he had something on his mind. Perhaps someone has tap-ped him for another job; I don't know that.

"Bamber said he will be arriving hark in England on Sun-Alan Durban, who on Thursday night resigned as manager of Stoke City, became the new manager of Stoke City, became the new manager of Sunderland yesterday. Mr Durban, aged 39, a former Welsh international, signed a three-year contract and immediately pleaded: "Don't expect miracles overnight."

He added: "All I can promise is that Sunderland will do a lot

"Bamber said he will be arriving back in England on Sunday and will probably call a board meeting at Brighton for Monday morning. We will be look-He added: "All I can promise is that Sunderland will do a lot better next season. They have the basis of a good team to build on and I will wait and see before rushing into transfer market". Mr. Durban has immediately taken Whitworth, Hawley, Allardyce and Dunn off the transfer list and will make his own judgment after talking to the players Frank O'Farrell, aged 53, is to become Torquay United's manager for the third time in his career. Mr. O'Farrell, who has been jobless since terminating a post in the Middle East, has agreed to sign a two-year contract with Torquay. He replaces Mike Green.

He first managed Torquay In 1965 and took them to promotion to the third division. He returned as consultant manager in 1977 ing for another manager straight away. We don't hang around at Brighton." Brighton."

Alan Mullery last night refused to confirm whether he had resigned or been dismissed but he said: "If people are naive enough to believe that I walked out of the club because they asked me to get the assistant manager and one of the Coaches to give players extra training, I would be very surprised. As for being offered another job, there is no question of that."

Rugby Union

# for the All Whites

Dunedin, June 12

It is international day here tomorrow and for Dunedin that is a special occasion. Carisbrook is back in focus again, having is back in focus again, having been only a sporadic vanue for international rugby matches in recent years. With long tours becoming less popular, many series are now contested over only two or three matches.

For Carisbrook, that has often meant that Eden Park in Auckland, Athletic Park in Wellington and Lancaster Park in meant that Eden Park in Auckland, Athletic Park in Wellington, and Lancaster Park in Christchurch, all of which can hold more spectators, usually gain preference. This time, possibly because of the Scottish influence in this part of the Irist international tomorrow, and that is bound to be something in favour of the Scott. It is claimed here that more than 60 per cent of the inhabitants are of Scottish descent, and Andy Irvine said this afternoon that he expected almost as much support as at Murrayfield.

Only two All Blacks have played here before: Bruce Robertson and Graham Mourie, who is now emerging as one of their greatest captains. Mourie began his international career here in 1977, when he was the outstanding All Black forward against the British Lions.

On that day Robertson, the ceute, dropped a goal in the final

against the British Lions.

On that day Robertson, the centre, dropped a goal in the final stages of one of New Zealand's est wins in the past 10 years. This time Andy Haden is ruled out of contention because of suspension and a further blow befell his country when David Halligan, the full back, became unfit. Both men will be replaced by newcomers.

Halligan has an Injured thigh muscle, His place has been taken

"Australia have become a force in world rugby and they will also be on their home grounds. We have a very good set of players

by Allan Hewson, who toured England and Scotland with the All England and Scotland with the All Blacks in 1979 without having played. Doug Rollerson, the tirst choice full back, is unavailable because of injury.

Hewson, who is almost certain to be the All Blacks goal-kicker, impressed Peter Burke, the teach, when helping Wellington bent the Scots a fortnight ago, although his kicking success was less than 50 per cent.

Scots a fortnight ago, although his licking success was less than 50 per cent.

Hud Rickit, who replaces Haden, has wide experience of first-law rugby in New Zealand and Europe. The Scotish team are the strongest available, barring late withdrawals, so there is every hope that they will win their first full international against New Zealand, although history will be on the All Blacks side. Apart from a win by Scotland over the touring New Zealand over the touring New Zealand Army side in 1946, the Scots have never won against the black jerseys. They have, in fact, lost eight out of nine internationals, although the "All Blacks" will be playing in white tomorrow the Scots will still have a struggle to overcome the New Zealand machine.

Casting aside the "water polo" international in Auckland six years ago, this will be the first game between the two countries on New Zealand soil under natural conditions. The locals are being remarkably quier about their chances and with the great Scotish support here it is possible that the visitors' duck will be broken.

# Rives wary of Queensland

Ballymore, Australia, June 12.— France have chosen a team of almost international strength for the first match of their Rugby Union tour of Australia against Queensland here on Sunday, Jean-Pierre Rives, Captain of the five-nations champions France, said they would have preferred an easier opening to their nine-match tour. and are bopeful of the outcome."
France have come without Guy
Laporte, the master goalkicker,
but the team is studded with
obvious talent. Rives is a hardrunning breakaway and will lead

# Bill seeks to raise standard of zoos

MPs gave a third reading to the Zoo Licensing (No 2) Bill which regulates the conduct of zoos by licence. It goes to the House of spectras would be inspecting small The Bill, a private member's measure, was described by its spensor, Mr John Blackburn (Dudley, West, C) during the third reading debate as being an

#### COMMONS

historic attempt to raise the stan-dard of zoos and their status. Such legislation, he said, was long overdue and was in the interests of education in the industry and of the welfare of animals in Captivity.

It was a fair, just Bill, a reasonable method of licensing zoos.

It protected the public, too. Mr Edward Grabam (Enfield, Edmonton), for the Opposition, said they had aided the passage of the Bill because they wanted it to get to the Lords where some necessary improvements could be

Mr Hector Monro, Under Secre-tary of State for Environment, emphasized that good zoos need not fear the Bill. They should not lear the BIU. They should welcome it because they would be setting the standards which other roos must aim at. This would be to the advantage of visitors, those who ran 2005, and the wildlife in

Mr Michael Grylls (North West Surrey, () was making a speech against regulations in the Bill when the question was put and the Bill read the third time with-

Earlier during the report stage, Mr Edward Graham moved a new clause (Qualified premises) which, he said was intended to deal with the small minority of operators who were disreputable and were no tredit to the zoo industry. It was a further attempt to remove the exemption of small zoos from the Bill's pro-

The new clause replaced the existing Clause 14 (Dispensation for particular 2005). It provided that where a local authority with power to grant a 200 licence informed the Secretary of State that a direction should be made. because a zon was operated on qualified premises, he could direct that the Acr should not or the inspection provi-

He said it would stop a rush of new operators because pre-mises would only be qualified pre-makes further provision about the mises if they had been used for mises if they had need the at least five years. It would stop zoos creating artificial situations by claiming that gardens with hy claiming that gardens with for the sale of property under animals in them were not zoos. the Matrimonial Causes Act 1973. It was a satisfactory way of allowing the Secretary of State to make exclusions.

make exclusions.

Mr Trevor Skeet (Bedford, C) said that the definition of animals in the Bill was enormously wide. It would cover a deer park, an aquarmum in a dentists' waiting room, a fish pond in a public park, ornamental ducks. a fishmonger

the House of Lords.

The Criminal Justice (Amendment) Bill, another private memory but is measure from the House of Lords, was also given an unopposed second reading, moved by the spond in a public park, ornamental ducks. a fishmonger a fish pond in a public park, ornamental ducks, a fishmonger who sold live lobsters, a restaurant with a troot tank, or a fish farm which admitted the public. Mr Blackburn said he had a small interest in the industry. Zoos were genuinely concerned about

Mr Hector Mooro (Dumfries, C) said he did not think there was a loophole in Clause 14 because the Secretary of State must always be consulted before any 200 was taken off the licensing system. The new clause was withdrawa. Mr Michael Colvin (Bristol, North-West, C) moved an amendment to provide that the licensing auth-

ority for 2008 should be the county council rather than the district council as the Bill proposed.

He said there were good arguments in favour of spreading the load of work on licensing over a wider area. There were dangers in district councils carrying out this function because of their assemble parochial nature.

Blackburn: Legislation long overdue

Mr Skeet said that Parliament was mr skeet sain that rainates was puring on local authorities addi-tional responsibilities involving them taking on extra staff and finding additional revenue. The rates were going up steeply this

He favoured comprehensive Government legislation on the subject of zoos rather than pushing the responsibility on to local authorities.

Mr Monro said the Association of District Councils was content to look after 200 licensing while the Association of County Councils did not want to do it. The amendment was rejected

against, 36. The report stage was concluded and the Bill read the third time.

The Matrimonial Homes and
Property Bill passed its remaining
stages. The Bill amends the Matrimonial Warmen Act 1967 and makes further provision about the rights of husbands and wives to possession or occupation of any matrimonial home, and also orders The Bill has already been through

This Bill seeks to change the law on the restriction of reports of committal proceedings in magistrates' courts in cases where there is more than one accused,

House adjourned, 2.58 pm.

Law Report June 12 1981

# Costs on recovering property from police

Regina v Uxbridge Justices, exparte Commissioner of Police for the Metropolis Before Lord Denning, Master of the Rolls, Sir George Baker and Sir Stanley Rees

Where proceedings are brought by complaint and summons before magistrates for the delivery up of property in the possession of the police under the Police (Property) Act, incrices have power to 1897, justices have power to make an order for costs (from which there is no right of appeal); but it is wholly inappropriate that the police should be ordered to pay costs where they do not oppose the

where they do not oppose the making of an order.

The Court of Appeal, the Master of the Rolls dissenting, dismissed in reserved judgments an appeal by the Commissioner of Police for the Matternils assigns the order of Metropolis against the order of the Divisional Court (Lord Justice Donaldson and Mr Justice Bonaldson and Mr Justice Kilner Brown) on July 22, 1980 ([1981] 1 WLR 112) dismissing the commissioner's application to quash an order of the Uxbridge justices for the police to pay £350 costs on an

uncontested application under the 1897 Act.
The claimant, Mr Sukh Deo Prasad, of Learnington Road Southall, Middlesex, had applied southail, middlesex, has applied to the Uxbridge justices by summons, in the form of a complaint, under Section 1 of the 1897 Act for the return of money which had come into the possession of the police during

an investigation into currency an investigation into currency theft offences.
Section 1 (1) of the Police (Property) Act, 1897, as amended provides: "Where any property has come into the possession of the police in connexion with their investigation of a suspected offence... a court of summary invisition may on application. jurisdiction may, on application either by an officer of police or by a claimant of the property, make an order for the delivery of the property to the person appearing to the magistrate or

court to be the owner thereof..." Section 55 (1) of the Magistrates' Courts Act, 1952, now section 64 (1) of the Magissection 64 (1) of the Magistrates' Courts Act, 1980, provides: "On the hearing of a complaint, a magistrates' court shall have power in its discretion to make such order as to costs — (a) on making the order for which the complaint is made to be vaid by the order for which the complaint is made, to be paid by the defendant to the complainant; as it thinks just and reasonable: ... "

Mr Alan Rawley, QC, and Mr Stuart Sleeman for the commissioner; Mr John Loyd, QC, and Mr Michael Harington for Mr Prasad.

The MASTER OF THE ROLLS said that dry points of law could be illuminated by the facts giving rise to them. Mr Sukh Dec Prasad was a frequenter of Heathrow airport. He got in touch with thieves who stole currency notes from travellers and handed them to Mr Prasad.

He dishonestly received them and gave the thieves a reward. The police arrested him and found currency notes on him which they suspected had been stolen. He was charged with dishonestly handling currency

dishonestly handling currency notes and with corruption.

The police went to his house and found more than £1,000 of currency notes of all kinds. It looked as if they had been stolen; so the police took possession of them as they were entitled to do: see the Chic Fashians case ([1968] 2 QB 299). Mr Prasad was tried at Reading Crown Court in respect of the currency notes found on him. He was convicted on six counts and sentenced to 18 months' imprisonment. The judge made an order under section 43 (3) of the Powers of section 43 (3) of the Powers of Criminal Courts Act, 1973, depriving Mr Prasad of any right to the notes found on him and said that if he wanted to claim the notes found in his house he should apply to a magistrates' court under the Police (Property) Act, 1897.

Mr Prasad's lawyers applied to the Uxbridge magistrates under section 1 (1) of the 1897 Act. They used a form for making a complaint as distinct from an appropriate form as some spaces had to be left blank.

The application was heard by

The application was heard by the magistrates on January 11, 1979. The police had not been able to trace the owners of the currency notes found in the house and did not oppose the application. Mr Prasad's counsel asked for an order for costs against the police who submitted that there was no power in such a case to order costs. After retiring the justices ordered the

police to pay £350 costs.
His Lordship was most surprised by the justices' order.
The police had done nothing wrong at all. They were absolutely right not to deliver up the currency notes without a court order. It they had given them up to Mr Prasad without a court order and the true owners bad afterwards turned up they would have been liable in damages to the true owners.

Even if the justices had jurisdiction to order costs, they

ought not to have ordered the police to pay any.

Even more serious, the police had no right of appeal from an order under the 1897 Act, so they had applied for a judicial review. The Divisional Court held that the justices had jurisdiction to make an order or costs. The police appealed.
Justices had no inherent jurisdiction to award costs in any proceedings. Their jurisdiction had to be found in a

The only statute was the Magistrates' Courts Act, 1952, section 55 (1), which used the word "complaint". The 1952 Act did not define "complaint". His Lordship said for a complaint there must be a complainant and defendant and also a grievance; whereas an application was simply a re-

quest to the magistrates to do words of section 1 (1) of the something which the statute enabled them to do. enactment.
His Lordship could find no It was plain that an appli-cation under the 1897 Act could

be made as an application simpliciter and not as a complaint. That was the prac-tice in the Metropolitan Police District. The court had been shown a standard form of application which did not attract an order for costs. But the Uxbridge Magistrates' Court had only a complaints form which enabled

them to make an order for costs against the police. An applicant could not confer inrisdiction on the magistrates by using an inappropriate form. Although Mr Prasad's appli-

cation was set out on a complaints form it was in substance an application simpli-citer, not a complaint. The magistrates' order was an "order on application" and not an "order on complaint" so it gave no jurisdiction to award

Clerks to justices should not accept applications under the 1897 Act which were made by complaint but should only accept applications made in the form used in the Metropolitan Police District. The appeal should be allowed.

SIR GEORGE BAKER said that the magistrates had no jurisdiction to award costs on an application under the 1897 Act unless such an application could be, and was, made by complaint and summons. The 1897 Act did not say how the application was to be made. A notice such as was used in the metropolitan magistrates' courts served on interested parties giving them an opportunity to appear would suffice if the police sought an order no doubt they would use such procedure. But the question was whether an ambiguitan by was whether an application by Solicito complaint was precluded by the Ealing.

provision, or even suggestion, that because an Act referred only to an "application" and did not mention "complaint", then application was the only process by which an order could be obtained, and complaint followed by summons was barred, or not available.

His Lordship agreed with the Divisional Court's conclusion SIR STANLEY REES, agree-

sik Stanley Rees, agreeing, said that the justices only
had power to make the order
for costs if such power existed
under the provisions of section
55(1) of the Magistrates' Courts
Act, 1952. All the requirements
of that section had been fully
implemented Where there were ascertainable parties involved in an application the normal procedure by way of complaint and summons should — and must —

His Lordship concluded that His Lordship concluded that the procedure by way of complaint and summons adopted by Mr Prasad was not only permissible but was compulsory. Accordingly the magistrates did have the power to make an order for costs against the police.

the police.

His Lordship shared the mease felt by the Master of the Rolls as to the order which had been made for costs in Mr Prasad's case and adopted the observations made in the Divisional Court as to the exercise of discussions. discretion as to costs. The proper approach was not that costs should follow the event. Where the police were not objecting to the making of an order sought by the claimant, it would generally be wholly inappropriate to make an order for costs.

I made, ....

Mr Vivian Price, QC and Mr Vivian Price, QC and Mr John Mummery for the plain-tiffs. The defendant did not appear and was not represented, Mr John Mummery for the Attorney-General as amicus

# Technical drug import

Before Lord Lane, Lord Chief Justice, Lord Justice Griffiths and Mr. Justice Stocker A drugs courier on a Nigerian

Airways flight from Kanio to Amsterdam, who had not expected to disembark at Heathrow airport when the aircraft landed but had to do so because it was taken out of service, appealed unsuccessfully against a sentence of 30 months imprisonment for illegal importation of the drug.
Douglas Ayodele Otjen, aged

commended for deportation when he pleaded guilty at Reading Crown Court Judge Mr Patrick O'Connor (assigned by the Registrar of Criminal Appeals) for the appellant.

somewhat unusual. The canna-bis, which had a street value of £6,000 to £7,000, was discovered in the appellant's hand luggage on a security check as he was about to board the replacement aircraft.
Mr O'Connor had submitted

in mitigation that the importation was merely technical since goods were imported immediately an aircraft landed. The drug was not intended to be distributed in this country. Nevertheless the case had to

be viewed against the un-doubted fact that the illegal 34, a Nigerian, received the prison sentence and was retrade in drugs was an inter-national business carried on to the detriment of citizens in all civilized countries. This country had a duty to other civilized countries to do all in its power to deter the trade.

LORD JUSTICE GRIFFITHS their Lordships to interfere and that the facts were with the sentence There were no grounds on

# No protection for invented word

Exxon Corporation and Others I have to decide is, shortly v Exxon Insurance Consultants stated, whether Exxon is an international Ltd 'original literary work' within Before Lord Justice Stephenson, Lord Justice Oliver and Sir David Cairns

A single, invented, meaningless, word is not an original literary work within the meaning of section 2 of the Copyright Act, 1956, and thus cannot qualify for the protection afforded by the Act.
The Court of Appeal so held

in dismissing an appeal by the plaintiffs, Exxon Corporation, Esso Petroleum Co Ltd, Exxon Ltd and Exxon International Ltd, from the refusal by Mr Justice Graham (The Times, anuary 23; [1981] 1 WLR 624) to grant an injunction restrain-ing the defendant, Exxon Insurance Consultants Inter-national Ltd, from infringing their copyright in the word

He did, however, grant the plaintiffs an injunction to restrain passing-off by the defendant's continued use of "Exxon" and ordered that any

"Exxon" and ordered that any name incorporating the word "Exxon" in the defendant's name should not remain on the Register of Companies.

Section 2(1) of the Copyright Act, 1956, provides: "Copyright shall subsist, subject to the provisions of this Act, in every original literary, dramatic or musical work which is unpublished, and of which the author was a qualified person at the was a qualified person at the time when the work was

LORD JUSTICE STEPHENSON

said that the first plaintiff was incorporated in the United States and had prior to 1970 been known as the Standard Oil Co (New Jersey). It carried on business throughout the United States and had associated or In 1970 it set up a committee

to devise a new name and trade mark for itself that could also be used by the overseas companies. After considerable research and testing the word "Exxon" was devised by that committee. The plaintiffs now claimed copyright In deciding against the plain-tiffs' claim, Mr Justice Graham said that the question was

whether it was proper to construe the phrase "original literary work" in section 2 of the Copyright Act as covering a single invented word even if considerable time and work had been expended on devising it. That was the correct question for decision and his Lordship said that he wished to adopt entirely the answer to it that Mr Justice Graham had given

Court of Appeal

section 2? I do not think it is. What is it then? one may ask. "It is a word which, though invented and therefore original, has no meaning and suggests nothing in itself. To give it substance and meaning, it must be accompanied by other words or used in a particular context

or juxtaposition.

When used as part of any of the plaintiffs' corporate names, it clearly has a denominative characteristic as denoting the company in question. When used, as I assume it is, with the plantiffs' goods, it would clearly have the effect of denoting

origin or quality.

"It is in fact an invented word with no meaning, which is a typical subject for trade mark registration, and which no doubt, with adequate user, is capable also of becoming, if it has not already become, distinc-tive of the plaintiffs and their goods at common law.
"It is not in itself a title or distinguishing name and, as I have said, only takes on meaning or significance when actually used with other words, for example indicating that it is

the name of a company, or in a particular juxtaposition as, for cample, upon goods.
"Nothing I have said above is intended to suggest that I consider that a word which is used as a title can, as a matter used as a title can, as a matter of law, never in any circumstances be the subject of copyright, and I would disagree with dicts in previous cases to the contrary effect.

"Such a word would, however, I think, have to have qualities or characteristics in itself, if such a thing is possible, which would justify its recognition as an original

recognition as an original literary work rather than merely as an invented word." Moreover in Hollinrake v Truswell ([1894]3 Ch 420, 428) Lord Justice Davey said that a 'literary work is intended to afford either information and instruction, or pleasure, in the form of literary enjoyment". Although that case was decided under the Copyright Act, 1842, and concerned a cardboard pattern sleeve, those words appealed as stating the ordinary meaning to be given to "literary

work" Mr Price had been unable to convince the court that the word "Exxon" did any of those things: it neither informed, instructed nor gave pleasure in the form of literary enjoyment.

Mr Justice Graham decided the case correctly. It was not certain that the single word "Exxon" could be said to be a work at all and it did not come within the phrase "original literary work".

Lord Justice Oliver delivered a concurring judgment and Sir David Cairns agreed. He had said: "As I have Solicitors: Needhalready stated, the question that Treasury Solicitor. Solicitors: Needham & Grant;

Violette Noziere (tonight, BBC2, 9.05.) Claude Chabrol's facscinating investigation of France's hest loved murderess Isabelle Huppert is by turns enigmatic, malevolent, pathetically childish, showing Violette's dual personality as demure child of a blue-collar home and as sexual predator of the student quarters who, eventually and inexplicably

poisons her parents.
Victim (tonight, BBC2, 11.45)
Nineteen years ago Basil Dearden's sympathetic portrayal of a lawyer who puts his own frailties on the line to nail a blackmailer of homosexuals, was exceptional in its plea for tolerance and a change in the "blackmailers' charter" law. Foday script and performances (Dirk Bogarde in the lead) still

hold up.
Hotel (tomorrow, BBC1, 7.15)
Ships and hotels are equally handy microcosms to use as stages for melodrama. Richard Quine's adaptation of Athur Halley's novel has life enough to keep it going, entertaining cameos, and some elevators worth looking at, removed from

worth looking at, removed from San Francisco's early-century Wells Fargo Building.

The Disappearance (tomorrow, BBC2 10.10), a British-Canadian co-production, has the merits of being made on a modest budget, by a youngish and newish British director, Stuart Cooper. For my taste though it is fancy rather than stylish; and the story of a professional hit-man's nemesis professional hit-man's nemesis convoluted rather than

complex.

The Captive Heart (tomorrow, BBC1, 1,55). An earlier Basil Dearden film (cf. Victim), made

Dirk Bogarde in Victim, tonight BBC Z (11.45)

1946 an revealing the hest of Michael Balcon's Eating in it's skilful interweaving of romance and melodrams with a serious

attempt to explore the psychological strains of a German prisoner-of-war camp.

Went the Day Well? Thursday, BBC2, 8.30). Another tredit to Michael Balcon's contribution as creative producer to British films. Cavalcant's version of a Graham Greene story has still Cavalcanti's version of a Gra-ham Greene story has still vitality as well as powerful nostalgia. A fine cast includes Leslie Banks. Marie Lnhr and Frank Lawton, with Thora Hird and Patricia Hayes as slips of girls and Harry Fowler still and infant.

12.40 Close. A reading by Paul

Dame Alicia Markova: BBC 2, 8.15, tonight

(ITV, 10.30) is about the two faces of Soviet art — the to be seen only on the walls of artists' homes. Binia Tymicaiccka's film shot in Moscow and I cale eye-opener. There's some good footage of a now-ranished dissident painter who depicts New Soviet Man as a mindless New Soviet Man as a mindless blockhead (literally a blockhead), and of another painter who, to molify his state masters, called his work The Siege of Stalingrad when it's really two people in a room, staring at a grim wall representing humanity, the one window offering a very restricted outlook on hope.

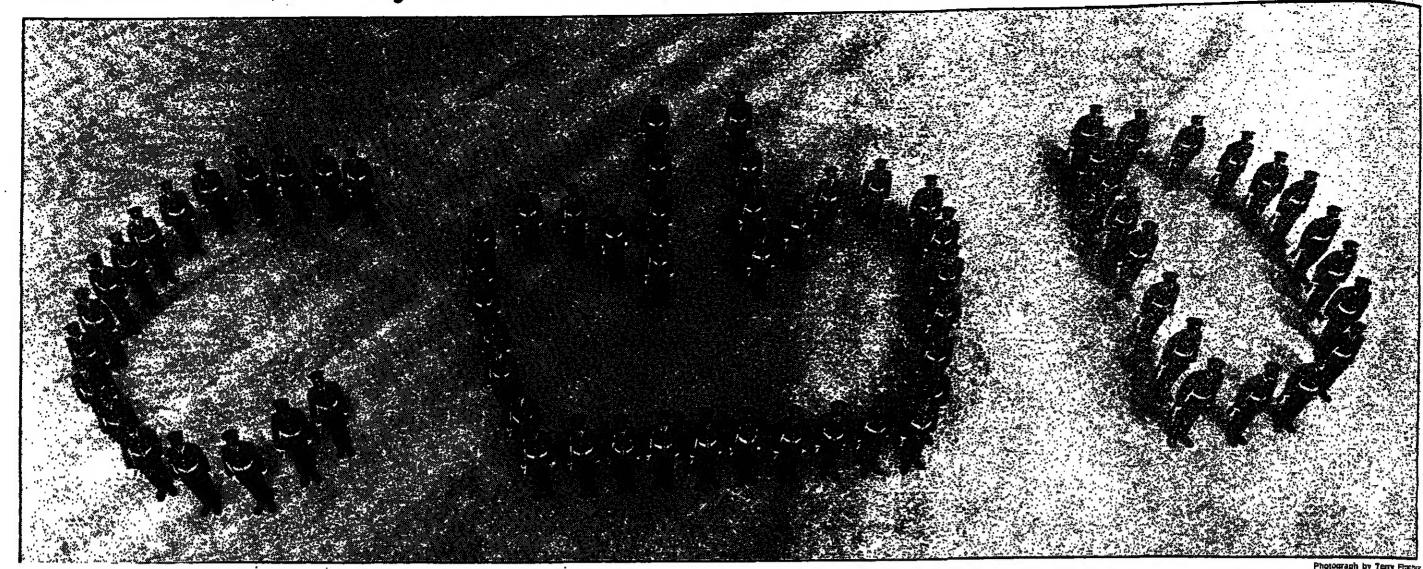

• CREDO (ITV, 6.00) looks at Scientology and doesn't much like what it sees. The 30 year-old cult's survival is one thing, it says, general acceptance of it is another. The conclusion it comes to is that it still has a long way to go before

Try not to miss the final episode of PRIVATE SCHULZ (BBC 2, 9.15) in which Britain's post-war economy explosively escapes being undermined by forged fivers. The visual jokes are even better than in the previous five episodes, and Ian Richardson's triumphant comedy double now becomes a

of the which the tail and which the documents of the solution of them is the tail and which the documents and which the documents and which the documents are the tail and which the documents are the watering. of them does the wagging. Programme one begins with some provocative Bennery, ends with a joke worthy of YES MINISTER.

# An initial tribute by the RAF

Men of the Queen's Colour Squadron of the RAF based at Uxbridge spell out their tribute to the central figures in next month's royal wedding; a crown and the initials of the Prince of Wales and Lady Diana Spencer. The men are all members of the RAF Regiment.

with all the earth-snaking moise from the drilling equipment, the boy in complete darkness must be having a real nightmare", Dr Fava sadi. "We just wish we could give him some tranquilizers".

Shortly after dawn today, the 75-member rescue team had drilled through the layer of hard volcanic rock and were about 25ft from the level of the

trapped boy.

During the night, young Alfredo continued talking through a microphone to the men working to save him. He also drank several quarts of zontal runnel over to the boy.

mlk and sugared water sent down to him through a thin plastic tube.

The rescue workers doctors at the well-head kept talking to the boy constantly, assuring him they would reach him soon and that he would be

boy of his age.

"With all the earth-shaking answerd back: "You people roise from the drilling equip- keep talking and telling me things, but when are you going to get me out."

By 10.30 am almost 40 hours after Alfredo fell in the well, the rescue shaft had been drilled to a depth of 11ift, slightly more than 6ft from the level of the hour level of the boy.
Signor Aldo Arioli, chief of the crew drilling the rescue shaft, said another 13ft was

needed before two firemen could descend into the shaft and begin using pneumatic and electric drills to bore a horistances. Dr Fava said the boy did not appear to be in any

The 60-ton drill being used to bore the relief shaft came to bore the relief shaft came out of the ground intermittently with its spiral bit glowing red hot from grinding against the granite like rock.

After breaking through the rock stratus, the bit came up every few minutes to dump loose dirt. The first time loose dirt appeared, the crowd of 200

dirt appeared, the crowd of 200 onlookers broke into applause. At one point, at doctor's orders, a fireman was telling Alfredo fairy tales to keep him alert. The boy had not slept for 40 hours 40 hours.

Signor Mando Broglio, fireman, kept talking to him:

"Alfredo, you hear the noise?

My friend is arriving right now." Shortly after 11.30 am the boy again cried out,

"Mamma".

#### Another dinner lady in closed shop dismissed

Another school meals helper yesterday lost her job with a council which operates a closed shop policy because she refused to join a union.

Mrs Wendy Clifft, a mother of three, of Hussey Road, Brownhills, West Midlands, was dismissed by the Labour-con-trolled Walsall council.

trolled Walsall council.

Mrs Clifft, who worked at St.
Francis Junior School, Shelfield, near Walsall, said the
closed shop policy was blackmail. She said she was the
second Walsall school neals
helper to lose her job and
added that she would not join
any of the public service unions any of the public service unions dom of choice.

Two more meals helpers in Walsall have until the end of the month to decide whether to being forced to turn more and joint a union or lose their jobs. more to imported snails. In 1979

# Snails may soon be off the menu

From Hubert Mora of Agence France-Presse, Lyons

French gastronomy is facing about 7,000 tonnes were im-serious setback. Edible snails ported at a cost of 108m francs. re disappearing all over the This year those figures are exare disappearing all over the world. French chefs were once able

to satisfy the nation's needs with home-grown snails until they became so popular here and abroad that a world shortage was caused. The result was a price increase. The usual Parie rectaurant wire is 50 Paris restaurant price is 50 francs (£4.50) a dozen.

The edible European snail is

a threatened species, and the gourmer is not its only killer. intensified farming methods with the use of pesticides have also contributed to its disappearance. Ants, frogs, lizards, torroises, rats and especially birds are also to blame. The French eat about 40,000 tonnes of snails a year and are

pected to be considerably greater. The second largest importer is Italy with 1,187 tonnes. France's main suppliers were initially countries like West Germany, Belgium and Switzer-land; but then the net had to

slovakia, Greece, Hungary, Turkey and Yugoslavia. Today it extends to the Far East with China, Indonesia, Taiwan and the Philippines.

be cast much wider to Czecho-

France's exports of canned jellied snails, however, are rising, and 1979 figures showed them totalling 1,710 tonnes, with main buyers in the United States (354 tonnes); Canada (108 tonnes); the Netherlands (107 tonnes); Britain (69 tonnes); Switzerland (46 tonnes); Japan (45

tonnes); and Denmark (31 tonnes). The snail is still regarded as

a typically French luxury dish, and exports brought in 70m francs in 1976 and almost double that figure in 1978. The Ministry of Agriculture is studying the report of a

national committee urging the organization and development of breeding edible snails. In the forefront is the town of Besançon, in central France, where the local authorities are planning to finance a special

centre. Experimental breeding is also being carried out at the national institute of agronomical research (INRA) at Jouy-en-Josas, the faculty of science at Rennes university and the laboratory of comparative pathology at Saint-Christol les-Ales

#### The Papers

In its main editorial, the Washington Post warms Moscow of the grave dangers of Soviet intervention in Poland. The front page-of the paper continues to be dominated by the latest developments in Poland and the Middle East. In Germany the Frankfurter Allgemeine says Bonn is deeply worried about the long-term consequences of the Israeli attack. Islam and third world countries may return to the old solidarity against Israel. In Paris Le Matin says that as the French election campaign closes the left is well placed to win.
